BROOKLINE TOWN RECORDS

FOR THE MUNICIPAL YEAR ENDING DECEMBER 31, 1910.

ANNUAL MEETING, MARCH 2, 1910.

WARRANT.

Commonwealth of Massachusetts.

Norfolk, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline qualified to vote in elections to meet at the Town Hall, in said town, on Wednesday, the second day of March, 1910, at six o'clock in the forenoon, for the following purposes, to wit:—

First, To choose a Moderator.

Second, To choose by ballot the following Town Officers: One Town Clerk, for one year; five Selectmen, for one year; one Collector of Taxes, for one year; one Treasurer, for one year; one Assessor, for three years; three members of the School Committee, for three years; four Trustees of the Public Library, for three years; two Trustees of Walnut Hills Cemetery, for three years; one Park Commissioner, for three years; one member of the Water Board, for three years; three Auditors, for one year; three members of the Committee on Planting Trees, for one year; two Fence Viewers, for one year; five Constables, for one year; also, upon the same ballot, to vote "Yes" or "No" upon the following question: "Shall licenses be granted for the sale of intoxicating liquors in this town?" For these purposes the polls will be opened at a quarter after six o'clock in the forenoon and may be closed at a quarter after five in the afternoon. Also to choose or appoint all the other usual town officers in such manner as the town may determine.

Third, To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of taxes.

Fourth, To act upon the appropriations asked for or proposed in the annual town reports by the Selectmen or by any town officers or committees.

Fifth. To vote that on all taxes and sewer assessments remaining unpaid after a certain time, interest shall be paid at a specified rate not exceeding six per cent. per annum.

Sixth. To appropriate two thousand four hundred dollars (\$2,400.00) for the interior renovation of the Devotion and the Pierce Grammar School Buildings.

Seventh. To appropriate the sum of twenty-nine thousand five hundred dollars (\$29,500.00) for the purchase of land on Westbourne terrace and Bartlett crescent for school purposes and to authorize the Treasurer to borrow the same.

Eighth. To authorize the School Committee to erect an eight-room Primary School House on land on Westbourne terrace authorized at this meeting to be purchased; to appropriate the sum of eighty-four thousand five hundred dollars (\$84,500.00) for the cost thereof and to authorize the Treasurer to borrow the same.

Ninth. To appropriate seventeen thousand dollars (\$17,000.00) for the purchase and installation of a new engine for the high service system of the Water Department.

Tenth. To appropriate one thousand dollars (\$1,000.00) for the erection of a portion of a stone wall surrounding the Walnut Hills Cemetery.

Eleventh. To see if the town will appropriate the sum of three thousand dollars (\$3,000.00) to purchase and install a bell for the town clock in the tower of the old Baptist Church on Harvard street and to make such changes in the present clock as may be necessary to have it illuminated during the night.

Twelfth. To recommend to the Board of Selectmen and the heads of the various Town Departments to insert in all contracts and specifications for repair work and alteration of all Town Buildings, whether for day labor or contract work, that customary and established wages shall be paid to all mechanics and laborers employed thereon.

Thirteenth. To see if the town will accept chapter 423 of the Acts of 1909 entitled "An Act relative to the sale of ice cream, confectionery, soda water and fruit on the Lord's Day."

Fourteenth. To see what action the town will take with reference to improving the form and system of issuing and cancelling its bonds, notes and other negotiable instruments.

Fifteenth. To appropriate thirty thousand dollars (\$30,000.00) for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner and to authorize the Treasurer to borrow the same.

Sixteenth. To appropriate twenty-five thousand dollars (\$25,000.00) for paving Boylston street from Village Square to Cypress street and to authorize the Treasurer to borrow the same.

Seventeenth. To see if the town will appropriate the sum of three hundred dollars (\$300.00) to aid in maintaining a law library in Brookline to which the inhabitants have free access and of which they have the use under the control and government of the Brookline Law Library Association or such authorities as the town may select.

Eighteenth. To appropriate eight thousand dollars (\$8,000.00) for the erection of a band-stand on Cypress Street Playground.

Nineteenth. To appropriate fifteen thousand dollars (\$15,000.00) for suppressing gypsy and brown-tail moths and to designate the public officers or Boards to destroy the same.

Twentieth. To hear and act upon reports of town officers and committees.

Twenty-first. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Selectmen, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this seventh day of February, in the year of our Lord one thousand nine hundred and ten.

WILLIAM CRAIG,
HORACE JAMES,
NATHANIEL CONANT,
PHILIP S. PARKER,
JOHN A. CURTIN,
Selectmen of Brookline.

Norfolk, ss.

Brookline, Mass., February 19, 1910.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections, to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Wednesday, the second day of March, in the year of our Lord one thousand nine hundred and ten, and were called to order at six o'clock in the morning by the Town Clerk, who read the warrant calling the meeting, and the return thereon of the constable who served the same upon the inhabitants.

First Article,—“To choose a Moderator.”

On motion of Frederic M. Bond,—

Voted, That the meeting proceed to ballot for Moderator, and that the polls be kept open one minute.

Frederic M. Bond and Francis F. Muldowney, who had been appointed Ballot Clerks by the Selectmen, were sworn by the Town Clerk and put in charge of the check-list and ballot-box used in the election of Moderator.

The Town Clerk at five minutes after six o'clock declared the polls open for the reception of votes for Moderator. At six minutes after six o'clock the polls were declared closed. The votes cast were sorted and counted, and declaration made by the Town Clerk as follows:—

Whole number of votes, six (6). Fred H. Williams had six (6), and was declared elected Moderator.

The Assistant Ballot Clerks and Tellers who had been appointed by the Selectmen and Moderator were sworn and assigned to their duties as follows:—

Assistant Ballot Clerks.

Clarence E. Fuller,
Murray T. Edgar,
Edwin A. Robart,
D. Edward Beede,
George W. Préé,
Oliver H. Delano,
Grant Wm. Nowell,
Robert B. Préé,
John W. Shields,
Alex S. Arthur,
Robert A. Smiley,

Michael J. McGrath,
Dennis T. Harrington,
James J. Lynch,
John J. Harrington,
Thomas M. Daley,
Joseph W. Cook,
Edward A. Cahill,
William F. Foley,
Francis T. Donahue,
Thomas B. McCaffery.

Tellers.

Alfred E. Kenrick,
Gabriel C. Morison,
Alfred H. Clinkard,
James J. Fegan,
Anson B. Norton,
Leo R. Armstrong,

James M. Driscoll,
William J. Love,
William J. O'Hearn,
John J. Riley,
Francis J. Murphy,
Harold Williams, Jr.
Stephen E. Burke.

On motion of Edward W. Baker,—

Voted, That the third article in the warrant be taken up for consideration immediately after the conclusion of business under the second article.

On motion of Edward W. Baker,—

Voted, That all articles in the warrant after the third be referred to the committee appointed by the Moderator under authority of the vote passed at the town meeting of December 29th, 1909, under the sixth article in the warrant for that meeting. This committee to report in print with appropriate forms of votes, at the adjournment of this meeting; the report of the committee to be distributed as the warrants for town meetings are usually distributed.

The Committee referred to in the foregoing vote had been appointed by the Moderator of the town meeting of December 29th, 1909, to consist of the following:—

FRED H. WILLIAMS, Moderator,

Harvey H. Baker,
Watts H. Bowker,
Henry B. Cabot,
James D. Casey,
Alfred D. Chandler,
Walter Channing,
James M. Codman, Jr.
Nathaniel Conant,
William Craig,
Harry W. Cumner,
Prentiss Cummings,
John A. Curtin,
Daniel J. Daley,
Ernest B. Dane,

James R. Dunbar,
Frederick P. Fish,
Desmond Fitzgerald,
Emery B. Gibbs,
Franklin W. Hobbs,
James F. Jackson,
Horace James,
Henry W. Lamb,
Albert L. Lincoln,
James P. Mackey,
William H. McManus,
Edward C. Mills,
James S. Murphy,
Michael J. O'Hearn,

Philip S. Parker,
Samuel C. Payson,
Charles H. Pearson,
Charles S. Sergeant,

Henry Ware,
Charles H. Watson,
Leslie C. Wead.

Second Article,—"To choose by ballot the following Town Officers: One Town Clerk, for one year; five Selectmen, for one year; one Collector of Taxes, for one year; one Treasurer, for one year; one Assessor, for three years; three members of the School Committee, for three years; four Trustees of the Public Library, for three years; two Trustees of Walnut Hills Cemetery, for three years; one Park Commissioner, for three years; one member of the Water Board, for three years; three Auditors, for one year; three members of the Committee on Planting Trees, for one year; two Fence Viewers, for one year; five Constables, for one year; also, upon the same ballot, to vote 'Yes' or 'No' upon the following question: 'Shall licenses be granted for the sale of intoxicating liquors in this town?' For these purposes the polls will be opened at a quarter after six o'clock in the forenoon and may be closed at a quarter after five in the afternoon. Also to choose or appoint all the other usual town officers in such manner as the town may determine."

The Town Hall had been fitted up as a polling place, a space railed off, and eighty compartments or shelves provided for the convenience of voters in examining and marking their ballots, and each compartment was supplied with cards of instruction and other necessary facilities. Cards of instruction and specimen ballots were also posted in different parts of the building outside of the rail; all in accordance with the laws of the Commonwealth of Massachusetts governing elections.

The arrangement of the railing was such that four entrances were provided for voters to enter the space inside the rail for the purpose of marking their ballots, with four ballot-boxes to correspond, one for each entrance. The Ballot Clerks were provided with duplicate sets of the list of registered voters of the town, one for men voters and one for women voters, as prepared by the Registrars of Voters for use at this election. These alphabetical lists of voters were divided to correspond with the four entrances and four ballot-boxes as follows:

Entrance No. 1—A to D inclusive.
Entrance No. 2—E to K inclusive.

Entrance No. 3—L to P inclusive.
Entrance No. 4—Q to Z inclusive.

The Moderator appointed Police Sergeant James Gleason to have charge of the ballot-boxes and the space inside of the railing.

The Town Clerk delivered to the Ballot Clerks, Fred M. Bond and Francis F. Muldowney, one sealed box, marked to contain ballots as follows: "5,000 Official Ballots, Brookline, March 2, 1910;" "621 Official Ballots for School Committee Only, Brookline, March 2, 1910," and took their receipt in writing for such sealed box of ballots.

The election officers stationed at the four entrances were supplied with the lists of voters, and with the official ballots taken from the package received from the Town Clerk, with instructions to deliver such ballots only to voters whose names were found and checked on the lists.

The four ballot-boxes—as inspected and approved by the Secretary of the Commonwealth to be used at elections—were then opened in public meeting, examined by the Moderator and other election officers, and found to be empty. The register of each box was set at zero (0), the boxes locked, and the keys delivered to Police Sergeant James Gleason, appointed in charge of the ballot-boxes.

At fifteen minutes after six o'clock the polls were declared open for the reception of votes for town officers, and were kept open until fifteen minutes after five o'clock in the afternoon, when, after due notice, they were declared closed.

By consent of the Moderator and Town Clerk, the ballot-boxes were opened several times during the day for the purpose of removing the ballots to be counted.

At the close of the polls the registers of the ballot-boxes read as follows: Ballot-box No. 1, the "Ideal," registered 812; ballot-box No. 2, the "Ideal," registered 714; ballot-box No. 3, the "Ideal," registered 796; ballot-box No. 4, the "United States," registered 735.

The total number of ballots deposited was thus indicated to be as follows:

Ballot-box No. 1.....	812
Ballot-box No. 2.....	714
Ballot-box No. 3.....	796
Ballot-box No. 4.....	735
Total	3,057

The names checked on the voting lists by the Ballot Clerks at the entrances to the polling place, and by the checkers at the ballot-boxes, were counted up, compared, and found to agree, and the total number of names so checked was three thousand and fifty-seven (3057), of which two hundred and eight (208) were the names of women, and two thousand eight hundred and forty-nine (2849) were the names of men, as follows:—

Entrance No. 1.	A to D.	Men	752	
		Women	60	
			—	812
Entrance No. 2.	E to K.	Men	667	
		Women	47	
			—	714
Entrance No. 3.	L to P.	Men	754	
		Women	42	
			—	796
Entrance No. 4.	Q to Z.	Men	676	
		Women	59	
			—	735
				—
Total names checked				3,057

The number of names checked agreed with the number previously stated as indicated by the ballot-boxes.

The Ballot Clerks reported that the number of ballots unused at the close of the polls deducted from the number received in the package showed that twenty-eight hundred and forty-nine (2849) ballots for town officers had been delivered to men voters, and two hundred and eight (208) ballots "For School Committee Only" had been delivered to women voters.

The Moderator, Town Clerk and Tellers then canvassed the ballots, and the whole number was three thousand and fifty-seven (3057), two hundred and eight (208) of which were votes of women for School Committee only, which were sorted, counted, and declaration thereof made in open town meeting, at seventeen minutes before six o'clock in the afternoon, as follows:

Town Clerk:

Edward W. Baker had fourteen hundred and three (1403), and was declared elected. (Sworn by the Moderator.)

Blanks, fourteen hundred and forty-six (1446).

Selectmen:

George S. Baldwin had fourteen hundred and ninety-five (1495).
(Sworn by the Town Clerk.)

Everett M. Bowker had thirteen hundred and sixty-eight (1368)
(Sworn by the Town Clerk.)

John A. Curtin had sixteen hundred and seventy (1670).
(Sworn by the Town Clerk.)

Horace James had sixteen hundred and fifty-eight (1658).
(Sworn by the Town Clerk.)

Philip S. Parker had fifteen hundred and forty-five (1545).
(Sworn by the Town Clerk.)

And they were declared elected.

Albion F. Bemis had eleven hundred and eighty-one (1181).

Lyman J. Clark had two hundred and eighty-five (285).

James F. Quinn had thirteen hundred and thirty-five (1335).

Scattering, one (1).

Blanks, three thousand seven hundred and seven (3707).

Treasurer:

George H. Worthley had nineteen hundred and twenty-one (1921)
and was declared elected.

Blanks, nine hundred and twenty-eight (928).

Collector:

George H. Worthley had eighteen hundred and two (1802), and
was declared elected.

Blanks, ten hundred and forty-seven (1047).

Auditors:

Paul M. Hubbard had seventeen hundred and nineteen (1719).

Francis W. Muldowney had two thousand and sixty-three (2063).

Charles F. Read had seventeen hundred and twenty-two (1722).

And they were declared elected.

Blanks, three thousand and forty-three (3043).

Assessor for Three Years:

Charles A. Bowditch had eighteen hundred and eighty-five (1885)
and was declared elected.

Blanks, nine hundred and sixty-four (964).

School Committee for Three Years:

Michael Driscoll had seventeen hundred and ninety (1790).

Ruth C. Paine had eighteen hundred and thirty-three (1833).

Frederick H. Robinson had eighteen hundred and fifty-eight (1858)

And they were declared elected.

Carleton S. Francis had sixteen hundred and thirty-eight (1638).
Scattering, two (2).
Blanks, two thousand and fifty (2050).

Member of Water Board for Three Years:

Timothy J. Burke had two thousand and thirty-five (2035), and was
declared elected.
Blanks, eight hundred and fourteen (814).

Trustees of Public Library for Three Years:

Frederick P. Fish had seventeen hundred and twenty-eight (1728).
Desmond FitzGerald had seventeen hundred and sixty-five (1765)
Carleton S. Francis had eighteen hundred and eleven (1811).
Moses Williams had eighteen hundred and twenty-nine (1829).
And they were declared elected.
Scattering, two (2).
Blanks, forty-two hundred and sixty-one (4261).

Park Commissioner for Three Years:

Charles S. Sargent had eighteen hundred and seventy-four (1874),
and was declared elected.
Scattering, two (2).
Blanks, ten hundred and seventy-three (1073).

Trustees Walnut Hills Cemetery for Three Years:

Henry H. Richardson had seventeen hundred and seventeen (1717).
Charles H. Stearns had seventeen hundred and seventy (1770).
And they were declared elected.
Scattering, one (1).
Blanks, twenty-two hundred and ten (2210).

Committee on Planting Trees:

Emma G. Cummings had fifteen hundred and ninety-eight (1598).
Ernest B. Dane had sixteen hundred and eight-five (1685).
D. Blakely Hoar had fifteen hundred and forty-four (1544).
And they were declared elected.
James H. Dever had ten hundred and seventy-six (1076).
Blanks, twenty-six hundred and forty-four (2644).

Fence Viewers:

George W. Delano had nineteen hundred and thirty (1930).
Willard Y. Gross had seventeen hundred and ninety-one (1791).
And they were declared elected.
Blanks, nineteen hundred and seventy-seven (1977).

Constables:

Frank M. Fay had seventeen hundred and ninety (1790).

John E. Griffin had seventeen hundred and fifty-one (1751).

Willard Y. Gross had seventeen hundred and eleven (1711).

Albert S. Paige had seventeen hundred and seventy-five (1775).

Edward D. Tucker had sixteen hundred and twenty-two (1622).

And they were declared elected.

Scattering, two (2).

Blanks, fifty-five hundred and ninety-four (5594).

On the question, "Shall Licenses be granted for the sale of Intoxicating Liquors in this Town?"

"Yes," seven hundred and seventy-eight (778).

"No," sixteen hundred and two (1602).

Blanks, four hundred and sixty-nine (469). And declaration was made that the town had voted not to grant licenses for the sale of intoxicating liquors.

In counting the ballots the blank forms approved by the Secretary of the Commonwealth were used by the Tellers.

After the declaration of the result of the balloting the meeting came to order and the following business was transacted:—

Voted, That when this meeting adjourns it be to meet in this place on Wednesday, the sixteenth day of March, 1910, at half past seven o'clock in the evening.

Voted, That the Board of Selectmen elected, with Miss Martha W. Edgerly and Miss Sarah B. Train, be the Overseers of the Poor for the ensuing year.

The following town officers were nominated and elected by the meeting:—

Field Drivers:

Jerry Bond,

Arthur G. Wood.

Pound Keeper:

Jerry Bond.

Voted, That the number of Measurers of Wood and Bark be one, to be appointed by the Selectmen.

Third Article,—"To see if the town will authorize the Treasurer, with the approval of the Selectmen, to borrow money in anticipation of taxes."

On motion of Philip S. Parker,—

Voted, That the Town Treasurer is hereby authorized, when so directed by the Selectmen, to borrow from time to time a sum or sums in the aggregate amounting to six hundred thousand dollars in anticipation of the taxes of the present municipal year. Notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, payable within one year from the time the loan is made, with interest thereon at a rate not exceeding six percent. per annum. Such notes shall not be obligatory without the authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen endorsed thereon. Any debt incurred by the town under this vote shall be paid from the taxes of the present municipal year.

The check-lists used at the entrances to the polling place and at the ballot-boxes, together with the ballots cast and the tally-sheets used by the Tellers, were sealed up in open town meeting and the package endorsed by the Moderator and Town Clerk.

The ballots unused were also sealed up in a separate package and endorsed in the same way, and both packages were delivered into the custody of the Town Clerk.

The meeting was then declared adjourned at six o'clock.

Attest: EDWARD W. BAKER, *Town Clerk*.

In conformity with the laws of this Commonwealth, the Town Clerk, under date of March 3, 1910, made out his warrant and delivered it to Constable John E. Griffin, requiring him, within three days from the date thereof, to summon all officers elected and not qualified, to appear before the Town Clerk within seven days after the service of such summons upon such officers to be qualified for their several offices; to be sworn where an oath is required, or to signify in writing their refusal of the same; also, to signify in writing their acceptance or refusal of the office to which they had been elected, where an oath is not required.

Attest: EDWARD W. BAKER, *Town Clerk*.

Commonwealth of Massachusetts.

Norfolk, ss.

Then personally appeared the persons below named, and were sworn to the faithful discharge of the duties of their office, at the dates set against their names, or signified in writing their acceptance of the office to which they had been chosen, viz.:—

ADJOURNED ANNUAL MEETING, MARCH 16, 1910.

Pursuant to adjournment, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Wednesday, the sixteenth day of March, in the year of our Lord one thousand nine hundred and ten, and were called to order at half past seven o'clock in the evening by the Moderator, Fred H. Williams.

Fourth Article,—"To act upon the appropriations asked for or proposed in the annual town reports by the Selectmen or by any town officers or committees."

The regular annual appropriations asked for or proposed in the annual report of the Selectmen, or by other town officers or committees, were taken up and considered separately, voted upon in detail for the purposes specified, and then voted upon and passed as a whole, amounting to \$1,645,539.48, according to the following annual appropriation vote.

Item 14, Planting and Preserving Trees, \$7,500.00, was voted unanimously and the Moderator declared the appropriation made by a vote of more than two-thirds of those present and voting thereon.

ANNUAL APPROPRIATION VOTE.

Voted, That the sum of \$1,645,539.48 is hereby appropriated for the current annual expenses, for the purposes and subject to the limitations specified in detail as follows:—

A. (\$228,384.00)

	To be paid from the Treasury upon the orders of the Selectmen.	—————	\$101,233 00

The rates of salaries fixed in this vote are fixed for the twelve months from and after May 1st, 1910.

All money received by departments under any of the items in the above vote, shall be paid into the Town Treasury and is not appropriated for the use of the departments receiving the same.

Whenever work is done or materials furnished by one department for another department, the cost of which is charged in the first instance to the appropriation of the former department, credit shall forthwith be given to the former department upon the books of the Accountant, upon the approval of the latter department and the officers authorized to draw orders against the appropriation therefor.

Fifth Article,—"To vote that on all taxes and sewer assessments remaining unpaid after a certain time, interest shall be paid at a specified rate not exceeding six per cent. per annum."

On motion of Philip S. Parker,—

Voted, That on all taxes of the current year remaining unpaid after November 1st, interest shall be charged at the rate of six per cent. per annum.

Voted, That sewer assessments shall bear interest at the rate of six per cent. per annum from the thirtieth day after such assessments become due until paid.

On motion of Desmond FitzGerald,—

Voted, That the Fifteenth and Sixteenth Articles be now taken up.

Fifteenth Article,—"To appropriate thirty thousand dollars (\$30,000.00) for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner and to authorize the Treasurer to borrow the same."

On motion of Desmond FitzGerald,—

Voted, That thirty thousand dollars (\$30,000.00) be appropriated for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner.

Desmond FitzGerald offered the following vote:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow thirty thousand dollars (\$30,000.00) appropriated at this town meeting, for paving Beacon street and Harvard street at and near their intersection

at Coolidge Corner. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

The Moderator appointed Desmond FitzGerald and Philip S. Parker to serve as Tellers and they were sworn by the Town Clerk. The vote was taken by count and the Tellers reported the whole number voting to be one hundred and sixty-four (164), as follows: "Yes," one hundred and sixty-four (164); "No," none (0), and the vote was declared passed by more than two-thirds of those present and voting thereon.

Sixteenth Article,—"To appropriate twenty-five thousand dollars (\$25,000.00) for paving Boylston street from Village square to Cypress street and to authorize the Treasurer to borrow the same."

On motion of Alfred D. Chandler,—

Voted, That the subject-matter of the Sixteenth Article be referred to the Selectmen for further consideration.

Sixth Article,—"To appropriate two thousand four hundred dollars (\$2,400.00) for the interior renovation of the Devotion and the Pierce Grammar School Buildings."

On motion of Franklin W. Hobbs,—

Voted, That two thousand four hundred dollars (\$2,400.00) be appropriated for the interior renovation of the Devotion and the Pierce Grammar School Buildings.

Seventh Article,—"To appropriate the sum of twenty-nine thousand five hundred dollars (\$29,500.00) for the purchase of land on Westbourne terrace and Bartlett crescent for school purposes and to authorize the Treasurer to borrow the same."

On motion of Franklin W. Hobbs,—

Voted, That three tracts of land within the territory bounded by Westbourne terrace, Bartlett Crescent, and a private way,

and belonging respectively to the Brookline Savings Bank, Henry W. Estabrook, and Daniel Dewar, and containing respectively about 30,700, 24,284 and 23,129 square feet be purchased for the purpose of building a schoolhouse or school-houses thereon, and that twenty-nine thousand five hundred dollars (\$29,500.00) be appropriated therefor.

Franklin W. Hobbs offered the following vote:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow twenty thousand dollars (\$20,000.00) appropriated at this town meeting, to purchase land on Westbourne terrace and Bartlett crescent for school purposes. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in twenty years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

The Moderator appointed Desmond FitzGerald and Philip S. Parker to serve as Tellers, and they were sworn by the Town Clerk.

The vote was taken by count and the Tellers reported the whole number voting to be one hundred and sixty-six (166), as follows: "Yes," one hundred and sixty-six (166); "No," none (0), and the vote was declared passed by more than two-thirds of those present and voting thereon.

Eighth Article,—"To authorize the School Committee to erect an eight-room Primary School House on land on Westbourne terrace authorized at this meeting to be purchased; to appropriate the sum of eighty-four thousand five hundred dollars (\$84,500.00) for the cost thereof and to authorize the Treasurer to borrow the same."

On motion of Franklin W. Hobbs,—

Voted, That the subject-matter of the eighth article be referred to the School Committee to report thereon at the next town meeting; and that the School Committee be authorized

to procure plans and estimates for an eight-room Primary Schoolhouse on land on Westbourne terrace and that fifteen hundred dollars (\$1,500.00) be appropriated therefor.

Ninth Article,—"To appropriate seventeen thousand dollars (\$17,000.00) for the purchase and installation of a new engine for the high service system of the Water Department."

On motion of Oscar B. Mowry,—

Voted, That seventeen thousand dollars (\$17,000.00) be appropriated for the purchase and installation of a new engine for the high service system of the Water Department.

Tenth Article,—"To appropriate one thousand dollars (\$1,000.00) for the erection of a portion of a stone wall surrounding the Walnut Hills Cemetery."

On motion of Charles H. Stearns,—

Voted, That one thousand dollars be appropriated for the erection of a portion of a stone wall surrounding the Walnut Hills Cemetery.

Eleventh Article,—"To see if the town will appropriate the sum of three thousand dollars (\$3,000.00) to purchase and install a bell for the town clock in the tower of the old Baptist Church on Harvard street and to make such changes in the present clock as may be necessary to have it illuminated during the night."

On motion of Emery B. Gibbs,—

Voted, That the subject-matter of the Eleventh Article be referred to the Selectmen with full power to take such action thereon as they shall think best, and they are authorized to expend a sum not exceeding two thousand dollars (\$2,000.00), which is hereby appropriated.

Twelfth Article,—"To recommend to the Board of Selectmen and the heads of the various Town Departments to insert in all contracts and specifications for repair work and alteration of all Town Buildings, whether for day labor or contract work, that customary and established wages shall be paid to all mechanics and laborers employed thereon."

On motion of James R. Dunbar,—

Voted, That it is inexpedient for the town to make any recommendation under the Twelfth Article.

Under this article William H. Walsh offered a vote in the language of the article on which the meeting voted by count. William H. Walsh and Alfred D. Chandler were appointed as Tellers and the vote was: "Yes," ninety (90); "No," one hundred and twenty three (123).

Thirteenth Article,—"To see if the town will accept chapter 423 of the Acts of 1909 entitled 'An Act relative to the sale of ice cream, confectionery, soda water and fruit on the Lord's Day.'"

On motion of Philip S. Parker,—

Voted, That the Town accept Chapter 423 of the Acts of 1909, entitled, "An Act relative to the sale of ice cream, confectionery, soda water and fruit on the Lord's Day."

The vote on the acceptance of Chapter 423, Acts of 1909, was taken by count. The Moderator appointed Albion F. Bemis and Everett M. Bowker to serve as Tellers, and they were sworn by the Town Clerk.

The Tellers reported the whole number voting to be one hundred and thirty (130), as follows: "Yes," one hundred and thirty (130); "No," none (0), and Chapter 423, Acts of 1909, entitled "An Act relative to the sale of ice cream, confectionery, soda water and fruit on the Lord's Day," was declared accepted by the town by a vote of more than two-thirds of those present and voting thereon.

Fourteenth Article,—"To see what action the town will take with reference to improving the form and system of issuing and cancelling its bonds, notes and other negotiable instruments."

On motion of Harvey H. Baker,—

Voted, That the subject-matter of the Fourteenth Article be referred to a committee of three, to be appointed by the Moderator of this meeting at any time after the adjournment thereof, to consider and report at a later meeting.*

*This committee was appointed to consist of Moses Williams, Harry W. Cumner and Charles L. Edgar.

Seventeenth Article,—"To see if the town will appropriate the sum of three hundred dollars (\$300.00) to aid in maintaining a law library in Brookline to which the inhabitants have free access and of which they have the use under the control and government of the Brookline Law Library Association or such authorities as the town may select."

On motion of Philip S. Parker,—

Voted, That the sum of three hundred dollars (\$300.00) be appropriated to aid in maintaining the Law Library in Brookline, to which the inhabitants shall have free access and of which they have the use under the control and government of the Brookline Law Library Association.

Eighteenth Article,—"To appropriate eight thousand dollars (\$8,000.00) for the erection of a band stand on Cypress Street Playground."

On motion of Charles H. Pearson,—

Voted, That the subject-matter of the Eighteenth Article be indefinitely postponed.

Nineteenth Article,—"To appropriate fifteen thousand dollars (\$15,000.00) for suppressing gypsy and brown-tail moths and to designate the public officers or Boards to destroy the same."

On motion of Philip S. Parker,—

Voted, That fifteen thousand dollars (\$15,000.00) be appropriated for suppressing gypsy and brown-tail moths, to be paid from the Treasury upon the orders of the Selectmen.

Twentieth Article,—"To hear and act upon reports of town officers and committees."

Twenty-first Article,—"To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles."

No action was taken under the Twentieth and Twenty-first Articles in the warrant.

At ten minutes before nine o'clock.

Voted, That this meeting be dissolved.

In accordance with the provisions of Chapter 201 of the Acts of 1901, accepted by the town at the annual meeting held March 19th, 1902, and the vote passed by the town at the same meeting, registering turnstiles were used at the two entrances to the hall to determine the number of registered voters admitted to the meeting.

The Selectmen had appointed Police Officers Emery E. Allen and Charles C. Watterson in charge of the two turnstiles, who made a return in writing under oath at the adjournment of the meeting that turnstile No. 1643 had registered one hundred and thirty four (134), and turnstile No. 1670 had registered one hundred and thirty (130), showing that a total of two hundred and sixty-four (264) registered voters had been admitted to the meeting.

Dissolved.

Attest:

EDWARD W. BAKER, *Town Clerk*.

SPECIAL MEETING, JUNE 1, 1910.

WARRANT.

Commonwealth of Massachusetts.

NORFOLK, ss.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline qualified to vote in elections to meet at the Town Hall, in said town, on

WEDNESDAY, THE FIRST DAY OF JUNE, 1910,

at half past seven o'clock in the evening, for the following purposes, to wit:

First, To choose a Moderator.

Second, To authorize the School Committee to erect an eight-room primary schoolhouse on land owned by the town on Westbourne terrace; to appropriate the sum of seventy-five thousand dollars (\$75,000.00) for the cost thereof and to authorize the Treasurer to borrow the same.

Third, To appropriate eighteen thousand dollars (\$18,000.00) for the purchase of a lot of land for school purposes, containing about thirty-six thousand (36,000) square feet, between Westbourne terrace, a private way and land now owned by the town, and to authorize the Treasurer to borrow the same.

Fourth, To appropriate seven thousand five hundred dollars (\$7,500.00) for furniture for the new Public Library Building.

Fifth, To amend Section 6 of Article I and Section 2 of Article II of the Regulations of the Public Library.

Sixth, To see if the town will authorize the publication of the vital records of the town previous to 1850 under the auspices of the New England Historic Genealogical Society, and to appropriate two hundred dollars (\$200.00) for that purpose.

Seventh, To appropriate five hundred dollars (\$500.00) to pay for public band concerts to be given on the Cypress Street Playground under the supervision of the Board of Selectmen.

Eighth, To ratify and confirm the lease made the seventeenth day of May, 1910, by the Board of Selectmen in behalf of the town with Mary E. Fleming, and to appropriate five hundred dollars (\$500.00) to carry out the terms thereof.

Ninth, To accept and allow the building line on the easterly side of St. Paul street between Francis street and the property of St. Paul's Church as laid out by the Selectmen and reported to the town at this meeting, and to appropriate one hundred and fifty dollars (\$150.00) to pay for land damages in connection therewith.

Tenth, To see if the town will appoint a Committee to consider the question of establishing building limits in the town and also to consider such changes in the building law as will tend to further diminish undue congestion and the danger of conflagration, and to appropriate one thousand dollars (\$1,000.00) to pay the necessary expenses in connection with the work of such Committee.

Eleventh, To accept and allow Griggs terrace as laid out by the Selectmen and reported to the town at this meeting.

Twelfth, To accept and allow Dean road from that part of Crafts Road reported to the town for acceptance under the Thirteenth Article to Chestnut Hill Avenue, as laid out by the Selectmen and reported to the town at this meeting.

Thirteenth, To accept and allow Crafts Road from that part of Crafts Road accepted by the town December 28, 1904, to that part of Dean road reported to the town for acceptance under the Twelfth Article, as laid out by the Selectmen and reported to the town at this meeting.

Fourteenth, To accept and allow Reservoir Road from Boylston street to that part of Reservoir Road accepted by the town March 29, 1905, as laid out by the Selectmen and reported to the town at this meeting.

Fifteenth, To appropriate nine thousand five hundred dollars (\$9,500.00) to fill the cut on the old Aqueduct location and to otherwise improve the land owned by the town near and adjoining the Heath School lot.

Sixteenth, To accept and allow Cypress Street from Franklin Street to High Street as laid out by the Selectmen and reported to the town at this meeting.

Seventeenth, To authorize the Selectmen to sell and convey for such considerations and on such terms and conditions as they may deem desirable, any or all of the land lying westerly of Lee Street which was conveyed to the town for public park purposes by the Mayor of Boston under authority of Chapter 310 of the Acts of 1903.

Eighteenth, To accept and allow the alteration and widening of Dudley Street from Lee Street to Warren Street as laid out by the Selectmen and reported to the town at this meeting, the street so widened to be called Lee Street.

Nineteenth, To appropriate fifty-five thousand dollars (\$55,000.00) to pay for the cost of construction of the highways laid out, altered or widened by the Selectmen and accepted by the town at this meeting and for land damages in connection therewith, and to authorize the Treasurer to borrow the same.

Twentieth, To make an additional appropriation of six thousand dollars (\$6,000.00) for the construction of sewers.

Twenty-first, To hear and act upon the reports of town officers and committees.

Twenty-second, To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this eighteenth day of May, in the year of our Lord one thousand nine hundred and ten.

PHILIP S. PARKER,
HORACE JAMES,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,
JOHN A. CURTIN,

Selectmen of Brookline.

Brookline, Mass., May 27, 1910.

NORFOLK, SS.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline qualified to vote in elections to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done four days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline, qualified to vote in elections, met at the Town Hall in said town, on Wednesday, the first day of June, in the year of our Lord one thousand nine hundred and ten, and were called to order at thirty minutes past seven o'clock in the evening by the Town Clerk, who read the warrant calling the meeting, and the return thereon of the Constable who served the same upon the inhabitants.

First Article,—“To choose a Moderator.”

The meeting nominated and chose for Moderator Hon. Fred H. Williams.

On motion of Emery B. Gibbs,—

Voted, That when this meeting adjourn it be to meet in the Town Hall on Wednesday, the twenty-second day of June, at half-past seven o'clock in the evening.

Second Article,—“To authorize the School Committee to erect an eight-room primary schoolhouse on land owned by the town on Westbourne terrace; to appropriate the sum of seventy-five thousand dollars (\$75,000.00) for the cost thereof and to authorize the Treasurer to borrow the same.”

On motion of Franklin W. Hobbs,—

Voted, That the School Committee be authorized to erect an eight-room primary school building on land owned by the town on Westbourne terrace, at a cost not exceeding seventy-five thousand dollars (\$75,000.00), and that the sum of seventy-five thousand dollars (\$75,000.00) be and the same is hereby appropriated for the cost thereof.

Franklin W. Hobbs offered the following vote:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow seventy-five thousand dollars (\$75,000.00) appropriated at this town meeting, for the erection of an eight-room primary school building on land owned by the town on Westbourne terrace. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually, at a rate not exceeding four percentum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in fifteen years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

The vote was taken by count. The Moderator appointed Harvey H. Baker and Emery B. Gibbs to serve as Tellers, and

they were sworn by the Town Clerk. The Tellers reported the whole number voting to be eighty-five (85) as follows: "Yes," eighty-five (85); "No," none (0); and the vote was declared passed by more than two-thirds of those present and voting thereon.

Third Article,—"To appropriate eighteen thousand dollars (\$18,000.00) for the purchase of a lot of land for school purposes, containing about thirty-six thousand (36,000) square feet, between Westbourne terrace, a private way and land now owned by the town, and to authorize the Treasurer to borrow the same."

On motion of Franklin W. Hobbs,—

Voted, That the Selectmen be authorized to purchase a lot of land for school purposes, containing about thirty-six thousand (36,000) square feet, between Westbourne terrace, a private way and land now owned by the town, and that the sum of eighteen thousand dollars (\$18,000.00) be and the same is hereby appropriated therefor.

Franklin W. Hobbs offered the following vote:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow eighteen thousand dollars (\$18,000.00) appropriated at this town meeting to purchase a lot of land for school purposes, between Westbourne terrace, a private way and land now owned by the town. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually, at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in nine years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

The vote was taken by count. Harvey H. Barker and Emery B. Gibbs, who had been previously appointed by the Moderator and sworn by the Town Clerk, acted as Tellers. The Tellers reported the whole number voting to be sixty-nine (69), as follows: "Yes," sixty-nine (69); "No," none

(c); and the vote was declared passed by more than two-thirds of those present and voting thereon.

Fourth Article,—"To appropriate seven thousand five hundred dollars (\$7,500.00) for furniture for the new Public Library building."

On motion of Edward Stanwood,—

Voted, To appropriate seven thousand five hundred dollars (\$7,500.00) for furniture for the new Public Library building.

Fifth Article,—"To amend Section 6 of Article I and Section 2 of Article II of the Regulations of the Public Library."

On motion of Edward Stanwood,—

Voted, To amend Section 6 of Article I of the Regulations of the Public Library by striking out the words, "At the regular meeting in April," and inserting the words, "At the monthly meeting next after the annual town election," so that the section will read as follows: "At the monthly meeting next after the annual town election the officers and the standing committees of the board shall be chosen by ballot, and they shall, respectively, continue to hold office until their successors are appointed. If any vacancy shall occur during the year, it may be filled at any regular meeting."

On motion of Edward Stanwood,—

Voted, To amend Section 2 of Article II by adding at the end thereof the words: "The Trustees may, by special vote in each case, and under limitations and conditions to be prescribed by them, admit non-residents to the privileges of the library," so that the section will read as follows: "Sect. 2. Persons residing temporarily in Brookline, employees of the town, and non-resident teachers and pupils in the public schools of the town, may use the library on the same conditions as residents; provided they furnish references satisfactory to the committee on the library, or deposit with the librarian the value of the book desired. The Trustees may, by special vote in each case, and under limitations and conditions to be prescribed by them, admit non-residents to the privileges of the library."

Sixth Article,—"To see if the town will authorize the publication of the vital records of the town previous to 1850 under the auspices of the New England Historic Genealogical Society, and to appropriate two hundred dollars (\$200.00) for that purpose."

On motion of Philip S. Parker,—

Voted, To authorize the publication of the vital records of the town, previous to 1850, under the auspices of the New England Historic Genealogical Society, and that two hundred dollars (\$200.00) be appropriated for that purpose.

Seventh Article,—"To appropriate five hundred dollars (\$500.00) to pay for public band concerts to be given on the Cypress Street Playground under the supervision of the Board of Selectmen."

On motion of Philip S. Parker,—

Voted, To appropriate five hundred dollars (\$500.00) to pay for public band concerts to be given on the Cypress Street Playground under the supervision of the Board of Selectmen.

Eighth Article,—"To ratify and confirm the lease made the seventeenth day of May, 1910, by the Board of Selectmen in behalf of the town with Mary E. Fleming, and to appropriate five hundred dollars (\$500.00) to carry out the terms thereof."

On motion of Philip S. Parker,—

Voted, To ratify and confirm the lease made the seventeenth day of May, 1910, by the Board of Selectmen in behalf of the town with Mary E. Fleming, and to appropriate five hundred dollars (\$500.00) to carry out the terms thereof.

Ninth Article,—"To accept and allow the building line on the easterly side of St. Paul street between Francis street and the property of St. Paul's Church as laid out by the Selectmen and reported to the town at this meeting, and to appropriate one hundred and fifty dollars (\$150.00) to pay for land damages in connection therewith."

On motion of Philip S. Parker,—

Voted, That the building line on the easterly side of St. Paul street from Francis street to land of St. Paul's Church as laid out by the Selectmen and reported to the town at this meeting be accepted and allowed, and that one hundred and fifty

dollars (\$150.00) be appropriated to pay land damages in connection therewith.

The Selectmen reported in print the laying out of the building line on the easterly side of St. Paul street, of which the following is a true copy:

Building Line, St. Paul Street.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to establish a building line parallel to, and ten feet distant from the exterior easterly line of St. Paul street, between Francis street and the property of St. Paul's Church, such notice requiring all persons interested to appear before us at our room in the Town Hall on Monday, the 25th day of April, 1910, at 4.30 o'clock p. m., and caused such notice to be actually served according to law, by a constable of this town, at least seven days before the day so appointed for the hearing, upon J. Wilkinson Clapp, Elizabeth E. Munroe, Jane H. Kellogg, Sarah M. Cantwell, Charles W. Holtzer, being all the persons known to us to be interested in the subject matter of the establishment of the said building line, and gave notice to them and all other persons and corporations, if any, who may be interested in the subject matter, whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the place of the establishment of the proposed building line as hereinafter described, we do adjudge that common convenience and necessity require that said line be and it is hereby laid out and established as hereinafter described, to wit:—

A building line parallel to and ten (10) feet distant from the exterior line of the easterly side of St. Paul street, between Francis street and property of St. Paul's Church.

For further identification of this description reference is hereby made to a plan made by Alexis H. French, Town Engineer, dated April 11, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

May 2, 1910.

We have estimated the damages sustained by the owners of land, rights and interests caused by the laying out and establishment of the said building line, and do estimate and determine the amount to be paid as follows:—

To Sarah M. Cantwell, \$150, in full for all damages caused by the establishment of said building line. No other awards of damages are made.

All other owners of the lands bordering upon that portion of said St. Paul street, in which said building line is established, have agreed, in consideration of the laying out and establishment of said building line and the acceptance thereof by the town, to waive all claims for damages on account thereof.

The said building line as so laid out, located, described and established is hereby reported to the town for acceptance, and when so accepted, allowed and recorded is to be the established building line for said portion of said St. Paul street, before described.

The said plan and this record have this day been filed in the office of the Town Clerk.

PHILIP S. PARKER,
HORACE JAMES,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,
JOHN A. CURTIN,

Selectmen of Brookline.

Brookline, May 2, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., May 2, 1910.

Tenth Article,—"To see if the town will appoint a Committee to consider the question of establishing building limits in the town and also to consider such changes in the building law as will tend to further diminish undue congestion and the danger of conflagration, and to appropriate one thousand dollars (\$1,000.00) to pay the necessary expenses in connection with the work of such Committee."

On motion of Philip S. Parker,—

Voted, That a committee of five be appointed by the Moderator of this meeting at any time after adjournment thereof, to consider the question of establishing building limits in the town, and also to consider such changes in the building law as will tend to further diminish undue congestion and the danger of conflagration, such committee to serve without pay and to report their recommendations in print at a later meeting; and the sum of one thousand dollars (\$1,000.00) is hereby appropriated to pay the necessary expenses in connection with the work of such committee.*

*The Moderator appointed as this Committee,—Charles H. Pearson, Luther M. Merrill, J. Randolph Coolidge, Jr., Ralph A. Stewart and Frederick H. Perkins.

Eleventh Article,—"To accept and allow Griggs terrace as laid out by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That Griggs terrace, as laid out by the Selectmen, and reported to the town at this meeting, be accepted and allowed as a townway.

The Selectmen reported in print the laying out of Griggs terrace, of which the following is a true copy:

Griggs Terrace.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Griggs terrace, from Griggs road to Griggs road, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Wednesday, February 16, 1910, at 3.55 o'clock p. m., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Thomas B. Griggs, Kathleen C. Holloway, Chas. S. Gooding, John Parsons, Town of Brookline, Carrie J. Conant, Mary H. Russell, Samuel Williams, Griggs Land Trust, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said terrace is laid out is bounded by a line beginning at a point on the southerly line of Griggs road, situated 82.96 feet distant from the easterly line of Washington street at the southerly connection of Griggs road therewith; thence running northerly by a curve to the left having a radius of 757.84 feet for a distance of 420.42 feet; thence curving to the left with a radius of 264 feet for a distance of 802.98 feet; thence running southwesterly by a tangent for a distance of 47.67 feet; thence curving to the right with a radius of 4.63 feet for a distance of 7.27 feet to a point on the easterly line of Griggs road; thence running southeasterly by the said easterly line of Griggs road for a distance of 38.97 feet; thence running northerly by a curve to the right having a radius of 4.63

feet for a distance of 6.97 feet; thence running northeasterly by a tangent 48.96 feet; thence curving to the right with a radius of 234 feet for a distance of 711.73 feet; thence curving to the right with a radius of 727.84 feet for a distance of 264.84 feet; thence curving to the right with a radius of 20 feet for a distance of 44.52 feet to a point on the easterly line of Griggs road; thence running southerly by said easterly line of Griggs road 143.84 feet to the point of beginning.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated February 7, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

February 16, 1910.

No awards are made. The owners of the land abutting upon said street and of the fee of the land over which said street is laid out, in consideration of the laying out and its acceptance by the town, waive all claims to land, grade or other damages.

We take land as follows:—

Name.	Square feet taken.
From Owners of the fee.....	35,267

We give the owners of land taken for the laying out of said street ten days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is \$4,400.00. Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Griggs terrace.

The said plan, profile and this record are this day filed by us in the office of the Town Clerk.

WILLIAM CRAIG,
NATHANIEL CONANT,
PHILIP S. PARKER,
HORACE JAMES,

Selectmen of Brookline.

Brookline, February 16, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., February 16, 1910.

Twelfth Article,—"To accept and allow Dean road from that part of Crafts road reported to the town for acceptance under the Thirteenth Article to Chestnut Hill avenue, as laid out by the Selectmen

On motion of Philip S. Parker,—

Voted, That Dean road from Chestnut Hill avenue to that part of Crafts road which is the subject-matter of the Thirteenth Article in this warrant, as laid out by the Selectmen and reported to the town at this meeting, be accepted and allowed as a townway.

The Selectmen reported in print the laying out of Dean road, as described above, of which the following is a true copy :

Dean Road.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Dean Road from Chestnut Hill avenue to that part of Crafts road this day laid out by us, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, January 24, 1910, at 4.30 o'clock p. m., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Jessie T. Philips, being the only party known to us from whom land is taken or who may be interested in the subject-matter; and gave notice to her, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said road is laid out is described by its centre line as follows:—

Beginning at a point on the westerly line of Chestnut Hill avenue, situated 3.55 feet northerly from the point of curvature in the location of said Chestnut Hill avenue, opposite the part of Dean road accepted by the town, 29 December, 1909; thence running south-westerly by a tangent for a distance of 45.40 feet; thence curving to the left with a radius of 282.95 feet for a distance of 127.78 feet; thence curving to the left with a radius of 1221.42 feet for a distance of 163.55 feet; thence running southwesterly by a tangent for a distance of 80.32 feet; thence curving to the right with a radius of 1,715.06 feet for a distance of 229.66 feet; thence running southwesterly by a tangent for a distance of 100.52 feet; thence curving to the left with a radius of 922.71 feet for a distance of 390.08 feet;

thence running southwesterly by a tangent for a distance of 140.98 feet; thence curving to the right with a radius of 1,077.10 feet for a distance of 179.58 feet; thence curving to the right with a radius of 421.26 feet for a distance of 151.99 feet to the easterly end of Crafts road as this day laid out by us, and including a parallel width of twenty-five (25) feet on both sides of said centre line throughout its entire length.

At the intersection of the northerly and southerly lines of said Dean road with the westerly line of Chestnut Hill avenue the corners are to be rounded with curves each having a radius of fifteen (15) feet and the necessary land is hereby taken therefor.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated January 24, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

February 28, 1910.

The street having been constructed by the owners of the fee is open to the public for travel.

No awards are made. The owners of the land abutting upon said street and of the fee of the land over which said street is laid out, in consideration of the laying out and its acceptance by the town, waive all claims to land, grade or other damages.

Name.	Square feet taken.
From Owners of the fee.....	80,591

Wherever the said Dean road as constructed in accordance with the plans and profiles accompanying this laying out is to be built in embankment, the Selectmen take the right to support said embankment by means of side slopes upon the adjoining land, the upper surface of the said slopes having a rate of slope of one and one-half ($1\frac{1}{2}$) feet, measured horizontally, to one (1) foot measuring vertically, measuring down to the level of said adjoining land, from the grade of the side lines of the street, as shown on said plans and profiles; but we expressly reserve to the owners of the land taken for said slopes and their heirs and assigns the right to use said slopes and the land taken therefor up to the side lines of said way, as hereinbefore defined and shown on said plans and profiles, for building or for any other purpose or use whatsoever incident to the ownership of the fee in the land taken for said slopes, which will not impair the securing of the roadbed of said way.

We give the owners of land taken for the laying out of said street ten days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is \$500.00. Said street so laid out is hereby reported to the town for acceptance, and

when so accepted, allowed and recorded, is to be called Dean road.

The said plan, profile and this record are this day filed by us in the office of the Town Clerk.

HORACE JAMES,
NATHANIEL CONANT,
PHILIP S. PARKER,
JOHN A. CURTIN,

Selectmen of Brookline.

Brookline, February 28, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., February 28, 1910.

Thirteenth Article.—"To accept and allow Crafts road from that part of Crafts road accepted by the town December 28, 1904, to that part of Dean road reported to the town for acceptance under the Twelfth Article, as laid out by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That Crafts road, from that part of Crafts road accepted by the town December 28, 1904, to that part of Dean road accepted by the town under the twelfth article of this warrant as laid out by the Selectmen and reported to the town at this meeting, be accepted and allowed as a townway.

On motion of Philip S. Parker,—

Voted, That an entry for the purpose of constructing such laying out is hereby authorized to be made before all claims for damages by reason thereof shall be finally adjusted and determined.

The Selectmen reported in print the laying out of that part of Crafts road described above, of which the following is a true copy:

Crafts Road.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of the old aqueduct location from that part of Crafts road accepted by the town December 28, 1904, to that part of Dean road this day laid out by us, such notice requiring all persons interested to appear before us at our room in the Town Hall, on January 24, 1910, at 4.30 o'clock p. m., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Estate of Charles V. E. Gallup,

Charles F. Webber, James Comerford, Frederick J. White, Heirs John H. Wright, Jessie T. Phillips, William J. Wright, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said road is laid out is bounded by a line beginning at a point on the northerly line of Reservoir road situated 671.60 feet easterly from the boundary line between Boston and Brookline; thence curving to the left with a radius of 429.98 feet for a distance of 211.73 feet; thence running easterly by a tangent for a distance of 206.01 feet; thence curving to the right with a radius of 782.23 feet for a distance of 451.95 feet; thence running southeasterly by a tangent 182.08 feet; thence curving to the left with a radius of 71.51 feet for a distance of 92.32 feet to the southwesterly end of Dean road this day laid out by us; thence running southeasterly across the location of said Dean road for a distance of 50 feet; thence running westerly by a curve to the left having a radius of 121.51 feet for a distance of 156.87 feet; thence running westerly by a tangent for a distance of 182.08 feet; thence curving to the left with a radius of 732.23 feet for a distance of 423.07 feet; thence running westerly 192.25 feet by a line forming a part of the location of Reservoir road this day laid out by us; thence running northwesterly by a curve to the right having a radius of 2001.06 feet for a distance of 239.57 feet, said line forming a part of the northerly line of the location of Reservoir road, also this day laid out by us.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated January 24, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

February 28, 1910.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests caused by the laying out of said street and the construction thereof, whether by taking land or by injuring property in any manner whatsoever, and

do estimate and determine the amount to be paid to the said parties respectively as follows:

Name.	Square feet taken.	Award.
From Estate of Charles V. E. Gallup	5,250	\$5.00
Charles F. Webber	2,275	700.00
James Comerford	2,020	150.00
Frederick J. White	420	25.00
Heirs John H. Wright	1,810	150.00
Jessie T. Phillips	3,252	5.00
William J. Wright	3,350	150.00
Owners of the fee in Reservoir lane and in the pathway	2,138	

Wherever the said Crafts road as constructed in accordance with the plans and profiles accompanying this laying out is to be built in embankment, the Selectmen take the right to support said embankment by means of side slopes upon the adjoining land, the upper surface of the said slopes having a rate of slope of one and one-half ($1\frac{1}{2}$) feet measured horizontally, to one (1) foot measuring vertically, measuring down to the level of said adjoining land, from the grade of the side lines of the street, as shown on said plans and profiles; but we expressly reserve to the owners of the land taken for said slopes and their heirs and assigns the right to use said slopes and the land taken therefor up to the side lines of said way, as hereinbefore defined and shown on said plans and profiles, for building or for any other purpose or use whatsoever incident to the ownership of the fee in the land taken for said slopes, which will not impair the securing of the roadbed of said way.

We give the owners of land taken for the laying out of said street twenty days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is \$9,500.00 and the awards for land and other damages amount to \$1,185.00. Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Crafts road.

The said plan, profile and this record are this day filed by us in the office of the town clerk.

HORACE JAMES,
NATHANIEL CONANT,
PHILIP S. PARKER,
JOHN A. CURTIN,

Selectmen of Brookline.

Brookline, February 28, 1910.

Received and filed with plan and profile as stated. .

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., February 28, 1910.

Fourteenth Article,—"To accept and allow Reservoir road from Boylston street to that part of Reservoir road accepted by the town March 29, 1905, as laid out by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That Reservoir road from Boylston street to that part of Reservoir road accepted by the town March 29, 1905, as laid out by the Selectmen and reported to the town at this meeting, be accepted and allowed as a townway.

On motion of Philip S. Parker,—

Voted, That an entry for the purpose of constructing the laying out is hereby authorized to be made before all claims for damages by reason thereof shall be finally adjusted and determined.

The Selectmen reported in print the laying out of that part of Reservoir road described above, of which the following is a true copy:

Reservoir Road.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Reservoir lane, from Boylston street to that part of Reservoir road accepted March 29, 1905, under the provision of law authorizing the assessments of betterments, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, January 24, 1910, at 4.30 o'clock p. m., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Esther F. Wright, *et al.*, Mary E. Wright, *et al.*, Heirs John H. Wright, Estate J. W. Pierce, Jessie T. Phillips, Frederick J. White, James Comerford, Charles E. Webber, Town of Brookline, Michael McGrady, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway under the provision of law

authorizing the assessments of betterments and it is hereby so laid out.

The land over which said road is laid out is bounded by a line beginning at the point of curvature on the northerly line of Boylston street, situated next west of the intersection of said Reservoir road therewith; thence running easterly by the prolongation of the tangent situated west of said point of curvature for a distance of 26.47 feet; thence curving to the left with a radius of 10 feet for a distance of 22.46 feet; thence running northwesterly by a tangent for a distance of 190.77 feet; thence curving to the left with a radius of 980 feet for a distance of 293.62 feet; thence running northwesterly by a tangent 852.78 feet; thence curving to the left with a radius of 628.10 feet for a distance of 228.29 feet; thence running west by a tangent for a distance of 181.45 feet; thence curving to the left with a radius of 126.77 feet for a distance of 143.47 feet to a point on the westerly line of the part of Crafts road accepted by the town 28 December, 1904; thence running northerly by the easterly line of the part of Crafts road accepted as aforesaid for a distance of 79.23 feet; thence running westerly by the northerly line of Crafts road accepted as aforesaid for a distance of 88.25 feet; thence running northerly for a distance of 50 feet by the easterly end of Reservoir road accepted by the town 29 March, 1905; thence running easterly by a curve to the left having a radius of 2001.06 feet for a distance of 160.56 feet; thence running easterly 183.48 feet by a tangent forming the southerly line of a part of Crafts road this day laid out by us; thence running southerly by a straight line for a distance of 3.83 feet; thence running southeasterly by a tangent for a distance of 187.57; thence running southeasterly and deflecting to the left $3^{\circ} 56' 23''$ by a tangent for a distance of 938.48; thence curving to the right with a radius of 1020 feet for a distance of 305.60 feet; thence running southeasterly by a tangent for a distance of 236.57 feet; thence curving to the left with a radius of 25 feet for a distance of 20.68 feet to a point on the northerly line of said Boylston street; thence running westerly by said northerly line of Boylston street by two distances measuring respectively 37.75 and 74.27 feet to the point of beginning.

As much of the location of the present Reservoir lane as lies outside of Reservoir road as hereby relocated is hereby discontinued.

Wherever the said Reservoir lane as constructed in accordance with the plans and profiles accompanying this laying out is to be built in embankment, the Selectmen take the right to support said embankment by means of side slopes upon the adjoining land, the upper surface of the said side slopes having a rate of slope of one and one-half ($1\frac{1}{2}$) feet measured horizontally to one (1) foot measuring vertically, measuring down to the level of said adjoining land, from the grade of the side lines of the street, as shown on said plans and profiles; but we expressly reserve to the owners of the land taken for said slopes and their heirs and assigns the right to use said slopes

and the land taken therefor up to the side lines of said way, as hereinbefore defined and shown on said plans and profiles, for building or for any other purpose or use whatsoever incident to the ownership of the fee in the land taken for said slopes, which will not impair the securing of the roadbed of said way.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated January 24, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

February 28, 1910.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests caused by the laying out of said street and the construction thereof, whether by taking land or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively as follows:—

Name.	Square feet taken.	Award.
From William J. Wright.....	36,930	\$2,928.00
William J. Wright and William J. Wright,		
Trustee	6,400	256.00
Heirs of John H. Wright.....	7,500	300.00
Town of Brookline.....	4,300	
Frederick J. White.....	196	40.00
James Comerford	7	1.00
Owners of the fee in Reservoir lane and		
in two private ways.....	36,712	

We give the owners of land taken for the laying out of said street twenty days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is \$12,800.00 and the awards for land and other damages amount to \$3,525.00. Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded is to be called Reservoir road.

The said plan, profile and this record are this day filed by us in the office of the Town Clerk.

HORACE JAMES,
NATHANIEL CONANT,
PHILIP S. PARKER,
JOHN A. CURTIN,

Selectmen of Brookline.

Brookline, February 28, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., February 28, 1910.

Fifteenth Article,—"To appropriate nine thousand five hundred dollars (\$9,500.00) to fill the cut on the old Aqueduct location and to otherwise improve the land owned by the town near and adjoining the Heath School lot."

On motion of Philip S. Parker,—

Voted, To appropriate nine thousand five hundred dollars (\$9,500.00) to fill the cut in the old Aqueduct location and to otherwise improve the land owned by the town adjoining the Heath School lot.

Sixteenth Article,—"To accept and allow Cypress street from Franklin street to High street as laid out by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That Cypress street from Franklin street to High street, as laid out by the Selectmen and reported to the town at this meeting, be accepted and allowed as a townway.

Voted, That an entry for the purpose of constructing such laying out is hereby authorized to be made before all claims for damages by reason thereof shall be finally adjusted and determined.

The Selectmen reported in print the laying out of Cypress street from Franklin street to High street, of which the following is a true copy:

Cypress Street.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Cypress street from Franklin street to High street, such notice requiring all persons interested to appear before us at our room in the Town Hall, on twenty-fifth day of April, 1910, at 4 o'clock p. m., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Katherine Schuler, Thomas J. Kelley and Michael J. O'Hearn, Frederick H. Capper, Alexander and Hannah Strain, Margaret Moran, Boston Elevated Railway Company, West End Street Railway Company, Thomas J. Kelley, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us,

by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said street is laid out is bounded by a line beginning at a point on the easterly line of Franklin street where it is intersected by the northerly line of a private way 40 feet wide, extending from said Franklin street to High street; thence running easterly by a tangent 22.93 feet; thence running southeasterly by a curve to the right having a radius of 465.06 feet for a distance of 346.27 feet; thence curving to the left with a radius of 20 feet for a distance of 40.22 feet; thence running northeasterly by a tangent 24.40 feet to a point on the westerly line of High street; thence running southerly by the said westerly line of High street 173.98 feet; thence running southerly by said westerly line of High street with a radius of 200 feet for a distance of 67.29 feet; thence running northerly by a curve to the left having a radius of 164.71 feet for a distance of 116.59; thence running northwesterly by a tangent 94.03 feet; thence curving to the left with a radius of 405.06 feet for a distance of 96.91 feet; thence curving to the left with a radius of 10 feet for a distance of 22.26 feet to the easterly line of a private way known as Henry street; thence running northwesterly to a point on the westerly line of said Henry street 37.77 feet; thence running northerly by a curve to the left having a radius of 15 feet for a distance of 17.51 feet; thence curving to the left with a radius of 405.06 feet for a distance of 143.23 feet; thence curving to the left with a radius of 16.74 feet for a distance of 27.62 feet to a point on the said easterly line of Franklin street; thence running northerly by the said easterly line of Franklin street for a distance of 78.31 feet to the point of beginning.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated April 11, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

May 2, 1910.

The street having been constructed by the owners of the fee is open to the public for travel.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests caused by the

laying out of said street and the construction thereof, whether by taking land or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively as follows:—

Name.	Square feet taken.	Award.
From the owners of the fee of two private ways	about 18,600	\$5.00
Katherine Schuler	1,081	1,550.00
T. J. Kelley and M. J. O'Hearn (2 parcels)	5,214	3,900.00
Frederick H. Capper	1,541	1,200.00
Alexander and Hannah Strain	8	6.00

We give the owners of land taken for the laying out of said street twenty days from the date of its acceptance by the town in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is \$3,300, and the awards for land and other damages amount to \$6,661.00. Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Cypress street.

The said plan, profile and this record are this day filed by us in the office of the Town Clerk.

PHILIP S. PARKER,
HORACE JAMES,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,
JOHN A. CURTIN,

Selectmen of Brookline.

Brookline, May 9, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., May 9, 1910.

Seventeenth Article,—"To authorize the Selectmen to sell and convey for such considerations and on such terms and conditions as they may deem desirable, any or all of the land lying westerly of Lee street which was conveyed to the town for public park purposes by the Mayor of Boston under authority of Chapter 310 of the Acts of 1903."

On motion of Philip S. Parker,—

Voted, That the Selectmen be authorized to sell and convey, for such considerations and on such terms and conditions as they may deem desirable, all the land lying west of Lee street which was conveyed to the town for public park purposes by the Mayor of Boston, under authority of Chapter 310 of the Acts of 1903.

Eighteenth Article.—"To accept and allow the alteration and widening of Dudley street from Lee street to Warren street as laid out by the Selectmen and reported to the town at this meeting, the street so widened to be called Lee street."

On motion of Philip S. Parker,—

Voted, To accept and allow the alteration and widening of Dudley street from Lee street to Warren street as laid out by the Selectmen and reported to the town at this meeting, the street so widened to be called Lee street.

The Selectmen reported in print the laying out of the alteration and widening of Dudley street from Lee street to Warren street, of which the following is a true copy :

Dudley Street.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out, alter and widen Dudley street from Lee street to Warren street, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, May 2, 1910, at 4 o'clock p. m., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Galen L. Stone, heirs of John L. Gardner, being all the parties known to us from whom land is taken, or who may be interested in the subject-matter, and gave notice to them and all other persons and corporations, if any, who may be interested in the subject-matter, whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out and altered, and it is hereby so laid out and altered.

The land taken for such alteration and widening is bounded as follows: Beginning at a point on the southerly side of Lee street, situated 219.41 feet southeasterly from the point where the boundary line between land late of George F. Fabyan and of the Town of Brookline intersects the said southerly line of Lee street; thence continuing southeasterly by the same course 223.75 feet; thence running southeasterly and southerly by a broken line forming the southwesterly side of Dudley street and measuring as follows: 103.10, 38.22, 33.35, 30.85, and 47.38 feet respectively; thence running southerly by the westerly line of Dudley street 390.53 feet; thence running southwesterly by a curved line connecting the said westerly

line of Dudley street and the northerly line of Warren street, having a length of 15 feet; thence running westerly by the said northerly line of Warren street 281.85 feet to an angle; thence running easterly by the prolongation of the part of said northerly line of Warren street west of said angle and for a distance of 24 feet; thence curving to the left with a radius of 120 feet for a distance of 109.55 feet; thence curving to the left with a radius of 433.05 feet for a distance of 117.25 feet; thence curving to the left with a radius of 355 feet for a distance of 396.65 feet; thence curving to the left with a radius of 614.60 feet for a distance of 313.80 feet to the point of beginning.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated April 18, 1910, approved by us, verified by our signatures and adopted as a part of this record. Said street is to be constructed in accordance with said plan and profile.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

May 12, 1910.

We take land as follows, and we have estimated the damages sustained by the owners of land, rights and interests caused by the laying out, alteration and widening of said street and the construction thereof, whether by taking land or by injuring property in any manner whatsoever, and do estimate and determine the amount to be paid to the said parties respectively, as follows:—

Name.	Square feet taken.	Award.
From Galen L. Stone	51,870	\$9,153.00
Town of Brookline	10	

We give the owners of land taken for the laying out, alteration and widening of said street twenty days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

The estimated cost of constructing the street is \$7,500.00 and the awards for land and other damages amount to \$9,153.00. Said street so laid out, altered and widened, is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Lee street.

The said plan, profile, and this record are this day filed by us in the office of the Town Clerk.

PHILIP S. PARKER,
HORACE JAMES,
GEORGE S. BALDWIN,
EVERETT M. BOWKER,
Selectmen of Brookline.

Brookline, May 12, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., May 12, 1910.

Nineteenth Article,—"To appropriate fifty-five thousand dollars (\$55,000.00) to pay for the cost of construction of the highways laid out, altered or widened by the Selectmen and accepted by the town at this meeting, and for land damages in connection therewith, and to authorize the Treasurer to borrow the same."

On motion of Philip S. Parker,—

Voted, To appropriate fifty-five thousand dollars (\$55,000.00) to pay for the cost of construction of the highways laid out, altered or widened by the Selectmen and accepted by the town at this meeting and for land damages in connection therewith.

Philip S. Parker offered the following:—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow fifty-five thousand dollars (\$55,000.00) appropriated at this town meeting to pay for the cost of construction of the highways laid out, altered or widened by the Selectmen and accepted by the town at this town meeting and for land damages in connection therewith. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

The vote was taken by count. Harvey H. Baker and Emery B. Gibbs, who had previously been appointed by the Moderator and sworn by the Town Clerk, acted as Tellers. The Tellers reported the whole number voting to be sixty-four (64), as follows: "Yes," sixty-four (64); "No," none (0); and the vote was declared passed by more than two-thirds of those present and voting thereon.

Twentieth Article,—"To make an additional appropriation of six thousand dollars (\$6,000.00) for the construction of sewers."

On motion of Philip S. Parker,—

Voted, To make an additional appropriation of six thousand dollars (\$6,000.00) for the construction of sewers.

Twenty-first Article.—"To hear and act upon the reports of town officers and committees."

Twenty-second Article.—"To appropriate and raise, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles."

On motion of Philip S. Parker, at twenty-five minutes past ten o'clock,—

Voted, That this meeting be now dissolved.

In accordance with the provisions of Chapter 201 of the Acts of 1901, accepted by the town at the annual meeting held March 19th, 1902, and the vote passed by the town at the same meeting, registering turnstiles were used at the two entrances to the hall to determine the number of registered voters admitted to the meeting.

The Selectmen appointed Police Officers Emery E. Allen and Charles C. Watterson in charge of the two turnstiles, who made a return in writing, under oath, at the adjournment of the meeting, that turnstile No. 1643 had registered one hundred and seven (107), and turnstile No. 1670 had registered fifty-seven (57), showing that a total of one hundred and sixty-four (164) registered voters had been admitted to the meeting.

Dissolved.

Attest:

EDWARD W. BAKER, *Town Clerk*

GENERAL ELECTION, NOVEMBER 8, 1910.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline qualified to vote in elections to meet at the Town Hall, in said town, on Tuesday, the eighth day of November, 1910, it being the Tuesday next after the first Monday in said month, at six o'clock in the forenoon, to give in their votes for the following National, State and County officers, to wit:—

Governor of the Commonwealth; Lieutenant-Governor; Secretary of the Commonwealth; Treasurer and Receiver-General; Auditor of Accounts; Attorney-General; Representative in Congress of the United States for the Twelfth Congressional District; Councillor for the Second Councillor District; Senator for the Second Norfolk Senatorial District; two Representatives in the General Court for the Second Norfolk Representative District; one County Commissioner for the County of Norfolk for three years; two Associate Commissioners for the County of Norfolk; District Attorney for the Southeastern District; Sheriff for the County of Norfolk for three years.

All to be voted for on one ticket.

For these purposes the polls will be opened at fifteen minutes after six o'clock in the forenoon, and may be closed at thirty minutes after four o'clock in the afternoon.

Hereof, fail not, and make due return of this warrant to the Selectmen, with your doings thereon, seven days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this twenty-seventh day of October, in the year of our Lord one thousand nine hundred and ten.

PHILIP S. PARKER,

HORACE JAMES,

JOHN A. CURTIN,

GEORGE S. BALDWIN,

EVERETT M. BOWKER.

Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, MASS., October 29, 1910.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections to

meet at the time and place, and for the purpose herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode, and also by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done seven days at least before said day of meeting.

WILLARD Y. GROSS, *Constable*.

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Tuesday, the eighth day of November, in the year of our Lord one thousand nine hundred and ten, and were called to order at six o'clock in the morning by Philip S. Parker, Esq., the Chairman of the Board of Selectmen. The Town Clerk read the warrant calling the meeting, and the return thereon of the constable who served the same upon the inhabitants.

Philip S. Parker, Esq., Chairman of the Board of Selectmen, took charge of the meeting after the reading of the warrant, and acted as presiding election officer.

The Town Hall had been fitted up as a polling place, a space railed off, in which were compartments or shelves for the convenience of voters in examining and marking their ballots, and each compartment was supplied with cards of instruction and other necessary facilities. Cards of instruction and specimen ballots were also posted in different parts of the building outside of the rail; all in accordance with the laws of the Commonwealth of Massachusetts governing elections.

The arrangement of the railing was such that four entrances were provided for voters to enter the space inside the rail for the purpose of marking their ballots, with four ballot-boxes to correspond, one for each entrance. The Ballot Clerks were provided with duplicate sets of the list of registered male voters of the town, as prepared by the Registrars of Voters for use at this election. These alphabetical lists of voters were divided to correspond with the four entrances and four ballot-boxes as follows:

Entrance No. 1—A to D inclusive. Entrance No. 3—L to P inclusive.
Entrance No. 2—E to K inclusive. Entrance No. 4—Q to Z inclusive.

The Ballot Clerks and Tellers appointed by the Selectmen, and representing equally the two leading political parties, were sworn and assigned to their duties respectively as follows:

BALLOT CLERKS.

Fred M. Bond,

Francis F. Muldowney.

ASSISTANT BALLOT CLERKS.

Murray T. Edgar,

William F. Foley,

Edwin A. Robart,

Denis T. Harrington,

Robert A. Smiley,

Michael J. McGrath,

Clarence E. Fuller,

James J. Lynch,

D. Edward Beede,

John J. Harrington,

Grant William Nowell,

Edward A. Cahill,

Oliver H. Delano,

Thomas M. Daley,

Robert P. Pree,

John E. Griffin,

Leo R. Armstrong,

John T. Joyce,

Alex. S. Arthur,

Martin J. Cochrane.

CHECKERS AND COUNTERS.

Alfred E. Kenrick,

William J. Love,

Gabriel C. Morison,

James M. Driscoll,

John W. Shields,

Francis J. Murphy,

Alfred H. Clinkard,

John A. McMahon,

James J. Fegan,

James M. Duffy,

Joseph A. Gohl,

Michael F. Fahey,

Thomas B. McCaffery.

The Town Clerk delivered to the presiding election officer a sealed package as received by him from the Secretary of the Commonwealth marked "First Set of Ballots (5,700), Town of Brookline," together with specimen ballots and cards of instruction, and took his receipt therefor in conformity with law. The presiding election officer publicly broke the seal on the package and delivered the ballots to Fred M. Bond and Francis F. Muldowney, the ballot clerks who had been duly appointed by the selectmen.

The election officers stationed at the four entrances and four ballot-boxes were supplied with the list of voters, and with the official ballots, with instructions to deliver such ballots only to voters whose names were found and checked on the lists at the entrances, and to allow no voter to deposit his ballot until his name was found and checked on the lists at the ballot-boxes.

The four ballot-boxes, as inspected and approved by the Secretary of the Commonwealth to be used at elections, were then opened in public meeting, examined by the election officers, and found to be empty. The register of each box

was set at zero (0), the boxes locked, and the keys were retained by James Gleason, the Sergeant of Police at the polling place.

At eight minutes past six o'clock in the forenoon the polls were declared open for the reception of ballots, and were kept open until thirty minutes past four o'clock in the afternoon, when, after due notice, they were declared closed.

By unanimous consent of the election officers, the ballot-boxes were opened several times during the day for the purpose of removing the ballots to be counted.

At the close of the polls the registers of the ballot-boxes read as follows:

Box No. 1, "Ideal"	1,069
Box No. 2, "Ideal"	955
Box No. 3, "Ideal"	949
Box No. 4, "U. S."	991
	<hr/>
	3,964

The ballots taken from the different boxes were counted separately and found to be as follows:

From Ballot Box No. 1, A-D	1,069
Ballot Box No. 2, E-K	955
Ballot Box No. 3, L-P	949
Ballot Box No. 4, Q-Z	991
	<hr/>
	3,964

The Ballot Clerks reported the names checked at the entrances to be thirty nine hundred and sixty-four (3964).

The Ballot Clerks also reported that the number of spoiled and unused ballots deducted from the total number marked on the package received from the presiding election officer indicated that thirty nine hundred and sixty-four (3964) ballots had been cast.

The election officers canvassed the ballots deposited in the ballot-boxes, and the whole number was thirty nine hundred and sixty-four (3964), which were sorted, counted, and recorded, and declaration thereof made in open town meeting, as required by law.

In counting the ballots the blank forms approved by the Secretary of the Commonwealth were used by the election officers.

The votes for State and Country officers were declared at thirty-one minutes after five o'clock, as follows:

Governor.

Eben S. Draper, of Hopedale, Republican, had twenty-four hundred and ten (2410).

Eugene N. Foss, of Boston, Democratic, had thirteen hundred and twenty-four (1324).

Eugene N. Foss, of Boston, Democratic Progressive Nom. Paper, had eighty-three (83).

Eugene N. Foss had seventy-four (74).

John A. Nicholls, of Boston, Prohibition, had eleven (11).

Moritz E. Ruther, of Holyoke, Socialist Labor, had nine (9).

Daniel A. White, of Brockton, Socialist, had twelve (12).

Blanks, forty-one (41).

Lieutenant-Governor.

Thomas F. Cassidy, of Adams, Democratic Independent Nom. Paper, had twelve hundred and seventy-eight (1278).

Louis A. Frothingham, of Boston, Republican, had twenty-four hundred and ninety-four (2494).

Henry C. Hess, of Boston, Socialist Labor, had eight (8).

Patrick Mahoney, of Cambridge, Socialist, had twenty-nine (29).

William G. Merrill, of Malden, Prohibition, had thirteen (13).

Blanks, one hundred and forty-two (142).

Secretary.

Harriet D'Orsay, of Lynn, Socialist, had thirty-three (33).

Charles J. Martell, of Boston, Democratic, had ten hundred and ninety-seven (1097).

Andrew Mortenson, of Somerville, Socialist Labor, had eight (8).

William M. Olin, of Boston, Republican, had twenty-five hundred and sixty-one (2561).

William E. Thomas, of Boston, Prohibition, had twenty-one (21).

Blanks, two hundred and forty-four (244).

Treasurer.

Carl Fredrikson, of Worcester, Socialist Labor, had seventeen (17).

Thomas A. Frissell, of Hinsdale, Prohibition, had twelve (12).

Sylvester J. McBride, of Watertown, Socialist, had thirty-two (32).

Benjamin F. Peach, of Lynn, Democratic, had eleven hundred and sixty-one (1161).

Elmer A. Stevens, of Somerville, Republican, had twenty-four hundred and eighty-three (2483).

Blanks, two hundred and fifty-nine (259).

Auditor.

John Holt, of Worcester, Prohibition, had twenty-two (22).

Jeremiah P. McNally, of Salem, Socialist Labor, had fifteen (15).

Ambrose Miles, of Lynn, Socialist, had thirty-four (34).

Charles C. Paine, of Barnstable, Democratic, had eleven hundred and sixty-nine (1169).

Henry E. Turner, of Malden, Republican, had twenty-four hundred and twenty-four (2424).

Blanks, three hundred (300).

Attorney-General.

Dennis McGoff, of New Bedford, Socialist Labor, had twenty (20).

Harold Metcalf, of New Bedford, Socialist, had forty (40).

John B. Ratigan, of Worcester, Democratic, had eleven hundred and twenty-three (1123).

The returns of the election, for recording which blank forms had been received by the Town Clerk from the Secretary of the Commonwealth, and the Clerk of Courts of Norfolk County, were filled up, signed by the Selectmen and Town Clerk, sealed up in open meeting and delivered to the Town Clerk to be forwarded to their respective places of destination

The meeting was then dissolved at thirty-one minutes after five o'clock in the evening by Philip S. Parker, the presiding election officer.

Dissolved.

Attest: EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., November 10, 1910.

This is to certify that certificates of the election of Joseph Walker of Brookline and Norman H. White of Brookline, as Representatives in the General Court, Second Norfolk District, were delivered by registered mail to the parties named.

Attest: EDWARD W. BAKER, *Town Clerk.*

SPECIAL MEETING, DECEMBER 28, 1910.

WARRANT.

COMMONWEALTH OF MASSACHUSETTS.

NORFOLK, SS.

To any Constable of the Town of Brookline, Greeting:—

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Brookline qualified to vote in elections to meet at the Town Hall, in said town, on Wednesday, the twenty-eighth day of December, 1910, at half-past seven o'clock in the evening, for the following purposes:—

First, To choose a Moderator.

Second, To make an additional appropriation of thirteen hundred and ten dollars (\$1,310.00) for maintaining the public schools, specifically divided as follows:—

Grammar and Primary Schools....	\$800.00
Manual Training.....	150.00
General School Expenses.....	300.00
Vacation Schools	60.00

Third, To authorize the Water Board to contract for water pipe for the season of 1911 to an amount not exceeding seven thousand dollars (\$7,000.00).

Fourth, To make an additional appropriation of thirty-five hundred dollars (\$3,500.00) for a new pumping engine to be installed at the High Service Pumping Station.

Fifth, To authorize the Committee on Planting Trees to contract to the amount of twenty-three hundred and fifty dollars (\$2,350.00) for the purchase of two spraying machines to be used for gypsy and brown tail moth extermination.

Sixth, To make an additional appropriation of three hundred dollars (\$300.00) for planting and preserving trees.

Seventh, To make an additional appropriation of nine hundred dollars (\$900.00) for the support of the poor.

Eighth, To make an additional appropriation of four hundred and fifty-two dollars and ninety-seven cents (\$452.97) for exterior repairs of town buildings.

Ninth. To make an additional appropriation of twelve hundred dollars (\$1,200.00) for lighting streets.

Tenth. To make an additional appropriation of five thousand dollars (\$5,000.00) for the maintenance of highways.

Eleventh. To make an additional appropriation of four hundred and thirty-seven dollars and twenty-five cents (\$437.25) for the construction and extension of parks and public grounds.

Twelfth. To provide for the appointment of a committee which shall report at the next annual meeting upon the annual appropriations to be recommended by the Selectmen and other town officers and committees.

Thirteenth. To see if the town will take such action that the location at the junction of Beacon street and Washington street shall be designated as Washington square.

Fourteenth. To accept and allow Cottage Farm road from Dummer street to Ivy street as laid out by the Selectmen and reported to the town at this meeting.

Fifteenth. To accept and allow Dummer street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting.

Sixteenth. To accept and allow Worthington road from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting.

Seventeenth. To accept and allow Mason street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting.

Eighteenth. To accept and allow Ivy street from its present terminus at Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting.

Nineteenth. To hear and act upon reports of town officers and committees.

Twentieth. To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles.

Hereof fail not, and make due return of this warrant with your doings thereon to the Selectmen, four days at least before the day of said meeting.

Given under our hands at Brookline aforesaid, this nineteenth

day of December, in the year of our Lord one thousand nine hundred and ten.

PHILIP S. PARKER,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,
JOHN A. CURTIN,
HORACE JAMES,
Selectmen of Brookline.

NORFOLK, SS.

BROOKLINE, December 23, 1910.

By virtue of this warrant, I have notified and warned the inhabitants of the town of Brookline, qualified to vote in elections to meet at the time and place, and for the purposes herein named, by causing a printed attested copy of the same to be left at their last and usual place of abode and by posting attested copies of said warrant in three or more public places in said Brookline, all of which was done four days at least before said day of meeting.

WILLARD Y. GROSS, *Constable.*

In pursuance of the foregoing warrant, the inhabitants of the town of Brookline qualified to vote in elections met at the Town Hall in said town on Wednesday, the twenty-eighth day of December, in the year of our Lord one thousand nine hundred and ten, and were called to order at thirty minutes past seven o'clock in the evening by the Town Clerk, who read the warrant calling the meeting, and the return thereon of the Constable who served the same upon the inhabitants.

First Article,—"To choose a Moderator."

The meeting nominated and chose for Moderator Fred H. Williams.

Second Article,—"To make an additional appropriation of thirteen hundred and ten dollars (\$1,310.00) for maintaining the public schools, specifically divided as follows:—

On motion of Philip S. Parker,—

Voted, That an additional appropriation of thirteen hundred and ten dollars (\$1,310.00) be made for maintaining the public schools, the amount to be taken from any unexpended

balances or money in the Treasury not otherwise appropriated, to be specifically divided as follows:

Grammar and Primary Schools.....	\$800.00
Manual Training.....	150.00
General School Expenses.....	300.00
Vacation Schools.....	60.00

Third Article,—"To authorize the Water Board to contract for water pipe for the season of 1911 to an amount not exceeding seven thousand dollars (\$7,000.00)."

On motion of Oscar B. Mowry,—

Voted, That the Water Board be authorized to contract for water pipe for the season of 1911 to the extent of seven thousand dollars (\$7,000.00).

Fourth Article,—"To make an additional appropriation of thirty-five hundred dollars (\$3,500.00) for a new pumping engine to be installed at the High Service Pumping Station."

On motion of Oscar B. Mowry,—

Voted, That an additional appropriation of thirty-five hundred dollars (\$3,500.00) be made for a new pumping engine to be installed at the High Service Pumping Station, the amount to be taken from the unexpended balance of the appropriation made March 30, 1909, for the construction of a covered reservoir on Single Tree Hill.

Fifth Article,—"To authorize the Committee on Planting Trees to contract to the amount of twenty-three hundred and fifty dollars (\$2,350.00) for the purchase of two spraying machines to be used for gypsy and brown tail moth extermination."

On motion of Ernest B. Dane,—

Voted, That the Committee on Planting Trees be authorized to contract to the amount of twenty-three hundred and fifty dollars (\$2,350.00) for the purchase of two spraying machines to be used for gypsy and brown tail moth extermination.

Sixth Article,—"To make an additional appropriation of three hundred dollars (\$300.00) for planting and preserving trees."

No action was taken under this article.

Seventh Article,—"To make an additional appropriation of nine hundred dollars (\$900.00) for the support of the poor."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of nine hundred dollars (\$900.00) be made for the support of the poor, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Eighth Article,—"To make an additional appropriation of four hundred and fifty-two dollars and ninety-seven cents (\$452.97) for exterior repairs of town buildings."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of four hundred and fifty-two dollars and ninety-seven cents (\$452.97) be made for exterior repairs of town buildings, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Ninth Article,—"To make an additional appropriation of twelve hundred dollars (\$1,200.00) for lighting streets."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of twelve hundred dollars (\$1,200) be made for street lighting, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Tenth Article,—"To make an additional appropriation of five thousand dollars (\$5,000.00) for the maintenance of highways."

On motion of Philip S. Parker,—

Voted, That an additional appropriation of seventeen hundred dollars (\$1,700) be made for the maintenance of highways, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Eleventh Article,—"To make an additional appropriation of four hundred and thirty-seven dollars and twenty-five cents (\$437.25) for the construction and extension of parks and public grounds."

On motion of Edward A. McEttrick,—

Voted, That an additional appropriation of four hundred and thirty-seven dollars and twenty-five cents (\$437.25) be made for the construction and extension of parks and public grounds, the amount to be taken from any unexpended balances or money in the Treasury not otherwise appropriated.

Twelfth Article,—"To provide for the appointment of a committee which shall report at the next annual meeting upon the annual appropriations to be recommended by the Selectmen and other town officers and committees."

On motion of Philip S. Parker,—

Voted, That a committee be appointed, consisting of the Moderator of this meeting as Chairman, the Town Clerk as Secretary, the Selectmen and thirty citizens to be appointed by the Moderator of this meeting at any time after the adjournment thereof, to consider the annual appropriations recommended by the Selectmen and other town officers and committees for the next financial year and to report thereon in print at the next annual town meeting.

Thirteenth Article,—"To see if the town will take such action that the location at the junction of Beacon street and Washington street shall be designated as Washington Square."

On motion of Edward Sharp,—

Voted, That the location at the junction of Beacon street and Washington street shall hereafter be designated as Washington Square.

Fourteenth Article,—"To accept and allow Cottage Farm road from Dummer street to Ivy street as laid out by the Selectmen and reported to the town at this meeting."

The Selectmen reported in print the laying out of Cottage Farm road, the reading of which was dispensed with.

On motion of Philip S. Parker,—

Voted, That Cottage Farm road from Dummer street to Ivy street as laid out by the Selectmen and reported to the town at this meeting be accepted and allowed as a townway.

Cottage Farm Road.

We, the undersigned, Selectmen of Brookline, gave written notice

of our intention to lay out a street substantially on the line of a private way known as Cottage Farm road from Dummer street to Ivy street, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, December 12, 1910, at 4.15 o'clock P. M., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Beatrice Bill Talbot, Town of Brookline, Lucile Johnston Richardson, Helen F. Adams, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway, and it is hereby so laid out.

The land over which said street is laid out and which is hereby taken therefor is described by its easterly line as follows:—

Beginning at a point on the northerly line of Ivy street, situated 300 feet from the westerly line of Essex street and measured at right angles thereto; thence running northerly by a line parallel with the westerly line of Essex street for a distance of 675.10 feet to the southerly line of Dummer street, and includes a parallel width of forty (40) feet measured westerly from the said easterly line and extending from said northerly line of Ivy street to the said southerly line of Dummer street.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated November 28, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

December 16, 1910.

The street having been constructed by the owners of the fee is open to the public for travel.

No awards are made. The owners of the land abutting upon said street and of the fee of the land over which said street is laid out, in consideration of the laying out and its acceptance by the town, waive all claims to land, grade or other damages.

We take land as follows:—

Name.	Sq. ft. taken.
From owners of the fee.....	27,004

We give the owners of land taken for the laying out of said street five days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Cottage Farm road.

The said plan, profile and this record are this day filed by us in the office of the town clerk.

PHILIP S. PARKER,
EVERETT M. BOWKER,
GEORGE S. BALDWIN,

Selectmen of Brookline.

BROOKLINE, December 16, 1910.

Received and filed with plan and profile as stated.

EDWARD W. BAKER, *Town Clerk.*

Brookline, Mass., Dec. 16, 1910.

Fifteenth Article,—"To accept and allow Dummer street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That the subject matter of the fifteenth article be referred to the next annual town meeting.

Sixteenth Article,—"To accept and allow Worthington road from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That Worthington road from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting be accepted and allowed as a townway.

The Selectmen reported in print the laying out of Worthington road, the reading of which was dispensed with.

Worthington Road.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Worthington road, from Essex street to Cottage Farm road, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, December 12, 1910, at 4.15 o'clock P. M., and caused such notice to be

actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Helen F. Adams, George H. Phelps, Beatrice Bill Talbot, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons, if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said road is laid out and which is hereby taken therefor is described by its northerly line as follows:—

Beginning at a point on the easterly line of Cottage Farm road, situated 545.50 feet from the southerly line of Commonwealth avenue; thence running parallel with said Commonwealth avenue for a distance of 300 feet to the westerly line of Essex street, and includes a parallel width of forty (40) feet measured southerly from said northerly line and extending from said easterly line of Cottage Farm road to the said westerly line of Essex street.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated November 28, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

ALEXIS H. FRENCH, Town Engineer.

December 16, 1910.

The street having been constructed by the owners of the fee is open to the public for travel.

No awards are made. The owners of the land abutting upon said street and of the fee of the land over which said street is laid out, in consideration of the laying out and its acceptance by the town, waive all claims to land, grade or other damages.

We take land as follows:—

Name.	Sq. ft. taken.
From owners of the fee.....	12,000

We give the owners of land taken for the laying out of said street five days from the date of its acceptance by the town, in which to take off their trees, fences and other property which may obstruct the building of the way.

Said street so laid out is hereby reported to the town for acceptance, and when so accepted, allowed and recorded, is to be called Worthington road.

The said plan, profile and this record are this day filed by us in the office of the town clerk.

Brookline, Mass., Dec. 16, 1910.

Seventeenth Article.—"To accept and allow Mason street from Essex street to Cottage Farm road as laid out by the Selectmen and report to the town at this meeting."

On motion of Philip S. Parker,—

Voted, That Mason street from Essex street to Cottage Farm road as laid out by the Selectmen and reported to the town at this meeting be accepted and allowed as a townway.

The Selectmen reported in print the laying out of Mason street, the reading of which was dispensed with.

Mason Street.

We, the undersigned, Selectmen of Brookline, gave written notice of our intention to lay out a street substantially on the line of a private way known as Mason street, from Essex street to Cottage Farm road, such notice requiring all persons interested to appear before us at our room in the Town Hall, on Monday, December 12, 1910, at 4.15 o'clock P. M., and caused such notice to be actually served according to law by a constable of this town at least seven days before the day so appointed for the hearing, upon Town of Brookline, Lucile Johnston Richardson, Beatrice Bill Talbot, Ruth Talbot Furman, being all the parties known to us from whom land is taken or who may be interested in the subject-matter, and gave notice to them, and all other persons and corporations, if any, who may be interested in the subject-matter whose names are not known to us, by posting up true and attested copies of such notice in three public places in the town seven days at least before the day appointed for the hearing.

Pursuant to such notice, we met at the time and place appointed for the hearing, and heard the remarks and objections of all persons,

if any, who desired to be heard, and having viewed and examined the route of the street as hereinafter described, we do adjudge that common convenience and necessity require that said street should be laid out as a townway and it is hereby so laid out.

The land over which said street is laid out and which is hereby taken therefor is described by its northerly line as follows:—

Beginning at a point on the easterly line of Cottage Farm road, situated 803.10 feet from the southerly line of Commonwealth avenue, thence running parallel with said Commonwealth avenue for a distance of 300 feet to the westerly line of Essex street, and includes a parallel width of forty (40) feet measured southerly from said northerly line and extending from said easterly line of Cottage Farm road to the said westerly line of Essex street.

For a further identification of this description and location reference is hereby made to a plan and profile made by Alexis H. French, Town Engineer, dated November 28, 1910, approved by us, verified by our signatures and adopted as a part of this record.

The foregoing description has been compared with the plan and is correct.

Brookline, Mass., Dec. 16, 1910.

Nineteenth Article.—"To hear and act upon reports of town officers and committees."

Twentieth Article.—"To appropriate and raise by borrowing or otherwise such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles."

No action was taken under the Nineteenth and Twentieth Articles.

At five minutes before eight o'clock,—

Voted, That this meeting be dissolved.

In accordance with the provisions of chapter 201 of the

Acts of 1901, accepted by the town at the annual meeting held March 19th, 1902, and the vote passed by the town at the same meeting, registering turnstiles were used at the two entrances to the hall to determine the number of registered voters admitted to the meeting.

The Selectmen appointed police officers Patrick A. Kelleher and Charles C. Watterson in charge of the two turnstiles, who made a return in writing under oath at the adjournment of the meeting that turnstile No. 1643 had registered forty-six (46); and turnstile No. 1670 had registered zero (0); showing that a total of forty-six (46) registered voters had been admitted to the meeting.

Dissolved.

ANNUAL REPORT

The Selectmen submit the following report for the year ending December 31, 1910:—

The occurrence of the annual meeting with the incidents connected therewith, including the presentation of reports by the various town officials, affords opportunity to those in charge of public affairs to come into closer touch with the citizens, thus obtaining the benefit of their opinions as to matters of municipal administration. The mutual examination of the various reports in detail results in an informal discussion and in an interchange of ideas, which is always helpful to the Selectmen and other Boards in deciding important matters. We are glad of the opportunity given to us by the circulation of this report of conveying our gratitude to all citizens and town officials for their cooperation in our endeavors to give a clean and wise administration. And in this connection we wish to emphasize especially the advantage of cooperation. More still can be accomplished by having the different departments cooperate with each other. The work of the departments overlaps in many instances, and the assistance which one can give to the other is of great value.

Many things worthy of note in town affairs have occurred during the past year. The new public library has been completed and opened, the exercises at the dedication being interesting and appropriate to the occasion. The new covered reservoir on Single Tree Hill has been finished and is ready for use. This work has been constructed under the direct supervision of Mr. Forbes, the Superintendent of the Water Works. He has given the matter his personal attention, and through his skill and ability the town now owns an addition to its water plant which will be of great utility for many years. It is fitting for us to bring the work of Mr. Forbes in this connection into prominence, for the public sometimes loses sight of the benefits which it receives by reason of the ability and untiring devotion to duty of those who serve it. An important com-

mittee has been appointed to study and revise the building law. This committee is expected to report at this meeting. Other matters which might be mentioned are the building of a new school house, the paving at Coolidge's Corner, the opening and construction of a number of important streets in various parts of the town, and an increase in the tax rate from \$10.50 to \$12.50.

The selection of the automobiles for use in various departments was a matter which received careful consideration. It was decided that it was poor economy to purchase machines with inferior engines, and in making our selection we paid especial attention to the quality and durability of the mechanical parts. The benefit received from the automobiles has fully justified the action of the town in appropriating money for them. The work of the departments has been made much more effective by having at their disposal means of quick transportation.

The policy of buying coal in accordance with specifications has proved beneficial. Most of the coal delivered to the town has been tested and proper allowances made. The penalties attached result in greater care being taken by the companies to see that the coal furnished is of good quality.

Valuation and Tax Rate.

The increase in the valuation of real and personal property was \$4,047,900. The valuation of personal property increased \$3,115,400; the increase in real property was \$932,500, due largely to new buildings, as the valuation of land was reduced by \$400,000.

The increase in the tax rate was due largely to the loss of corporation taxes, the increase in the State tax, and the increase in the annual appropriations over the preceding year, chiefly due to the fact that the appropriations for the preceding year were for eleven months only, owing to the change in the fiscal year.

Finances.

There is a balance of free cash at the end of the year amounting to \$38,132.56. This balance is made up of taxes amounting to \$14,353.53 which were collected above the sum that it was fairly estimated would be collected; excess of re-

ceipts, amounting to \$11,836.20, above the sum that was estimated by the assessors; a balance of the annual appropriation unexpended, amounting to \$23,229.13; and a balance unexpended of special appropriations which have been closed, amounting to \$2,184.67. All of these items amount to \$51,603.53, from which there has been taken for additional appropriations under authority of town votes or otherwise the sum of \$13,470.97, leaving the balance of \$38,132.56 above mentioned.

New permanent loans have been made during the year, amounting to \$180,880, one of \$115,900, being for the new Public Library, and the other of \$64,980, being for the purchase of land for public playgrounds. Payments of existing debt during the year, including instalments coming due January first on the last two mentioned loans, amounted to \$200,981. The total direct debt of the town at the end of the year is \$1,538,768, which shows a decrease from the figures of a year ago of \$20,101. Of this amount the sum of \$352,838 is the total debt outstanding for water supply and the separation of sewers and surface water drains, and is debt existing, by authority of law, outside of the limit of indebtedness under the Municipal Indebtedness Act. The total debt which the town can incur under present conditions under the Act is \$3,259,020, or three per cent. of its valuation. The present indebtedness therefore which is governed by this Act is \$1,185,930 (i.e., \$1,538,768 less \$352,838, the amounts mentioned above), or \$443,580 less than one-half the amount which the town is authorized to borrow under the Act for general purposes.

The sum of \$600,000 has been borrowed during the year in anticipation of taxes and has been paid off. There is outstanding authority, which has not yet been availed of, to borrow \$35,000 for land on Westbourne Terrace, \$27,000 for paving at Coolidge's Corner, \$70,000 for new schoolhouse on Westbourne Terrace, and \$49,500 for the construction of highways and for land damages in connection therewith, a total of \$181,500. The debt which will mature during the coming year amounts to \$169,481. Payments of these amounts are provided for in detail, as follows:—

Date Borrowed		1910-	1911
1891-1895	Riverdale Park construction...	\$18,830 00	\$14,830 00
1898-1906	Land for playgrounds.....	9,500 00	9,500 00
1910	Land for playgrounds.....	3,420 00	3,420 00
1901	Corey Hill Park.....	1,150 00	
1903	Old Boston Reservoir.....	5,000 00	5,000 00
1894	Harvard street widening.....	3,750 00	3,750 00
1894	Washington street widening...	3,050 00	3,050 00
1904-1907	Harvard and Washington streets widening	10,000 00	10,000 00
1900-1901	Boylston street widening.....	28,500 00	3,500 00
1907	Hammond street widening.....	4,000 00	4,000 00
1907	Washington and Walnut streets widening	6,500 00	6,500 00
1903	Land and stone crushing plant	1,200 00	1,200 00
1897-1898	Longwood avenue bridge.....	3,750 00	3,750 00
1907	Washington, Walnut and High streets	5,000 00	5,000 00
1894-1895	High School building.....	10,000 00	10,000 00
1901	Land adjoining High School...	1,350 00	
1902-1903	Manual Training High School..	8,000 00	8,000 00
1895	Druce street lot.....	1,500 00	1,500 00
1903	Heath School lot.....	1,800 00	1,800 00
1904	Pierce Primary School.....	8,000 00	8,000 00
1903	Land adjoining Bath House...	1,000 00	1,000 00
1904	Property, Washington, School and Prospect streets.....	5,500 00	5,500 00
1906	Municipal Gymnasium	6,000 00	6,000 00
1906	Heating, Lighting and Power plant	3,500 00	3,500 00
1907	New Engine House A.....	6,000 00	6,000 00
1909-1910	New Public Library.....	12,200 00	12,200 00
1891-1904	Extension water works.....	19,481 00	19,481 00
1909	Covered Reservoir, Singletree Hill	5,000 00	5,000 00
1909	Drain, Saw Mill Brook Valley	3,000 00	3,000 00
1909	Separation Sewers and Surface Water Drains	5,000 00	5,000 00
		<hr/>	<hr/>
		\$200,981 00	\$169,481 00

The debt and interest charges may be briefly classified as follows:—

	Principal Jan. 16, 1911	Interest Charges, 1910	Interest Charges 1911
Parks and Playgrounds.....	\$378,380 00	\$13,950 87	\$12,572 62
Streets and Bridges	214,850 00	9,788 13	7,824 34
Water Supply	312,838 00	11,970 82	11,091 35
Schools and Sites	92,100 00	4,135 32	3,079 54
Public Buildings and Sites...	446,600 00	17,954 45	16,662 90
Sewers and Drains	94,000 00	3,570 00	3,290 00
	<hr/>	<hr/>	<hr/>
	\$1,538,768 00	\$61,369 59	\$54,520 75

The appropriation needed for the current year for interest on the debt now outstanding is \$55,085.75, including \$565 for overdue coupons not yet presented.

Metropolitan Taxes.

The town has a contingent liability for Metropolitan Parks, Boulevards, and Sewers, in addition to its direct debt. It has also a contingent liability for the Charles River Dam and Basin and certain other works in connection therewith. The Commonwealth is now carrying the debt incurred for all of these purposes, and the cities and towns in the Metropolitan District are assessed taxes each year for maintenance, interest and sinking fund charges. The basis of determining the amount of the tax for Sewers has been established by legislative action and is permanent. This basis has been explained in previous reports. Under existing law the proportion which the towns and cities in the District pay for Parks and Boulevards changes every five years and is determined by a commission appointed by the Supreme Court for the purpose. A new commission was appointed in 1910 to determine the apportionment for the period of five years beginning January 1, 1910. The commissioners appointed were Messrs. Ernest H. Vaughan of Worcester, Charles G. Bancroft of Natick, and Fred S. Hall of Taunton. They held many hearings during the summer and fall, at which the Town of Brookline was represented by Hon. James F. Jackson as counsel. The commission has filed its report in the Supreme Court, but it has not yet been heard and approved. When it is approved adjustment will be made of the taxes paid in 1910, for by law these were determined temporarily in accordance with the previous apportionment. The result of the findings of the

commission slightly changes the rules adopted by the previous commission. The previous rule relating to the Park tax apportioned the whole tax among the cities and towns in the District according to their respective valuations. The rule adopted by the new commission apportions sixty per cent. of the tax among all the cities and towns of the District according to their respective valuations; it apportions twenty-five per cent. of the tax among the same cities and towns according to their respective valuations, excepting Braintree, Canton, Dover, Hull, Nahant, Hingham, Westwood and Weymouth; it apportions the remaining fifteen per cent. of the tax among the same cities and towns according to their respective populations, excepting the same list. The result is that Brookline pays a little less under the new apportionment for Parks than it did under the previous one. It is also the province of the commission to make an apportionment of the tax for Boulevards. By law one-half of the interest, sinking fund and maintenance charges for Boulevards is borne by the Commonwealth. The remaining one-half is apportioned. The previous commission apportioned one-quarter of the balance, (or twelve and one-half per cent. of the whole) of the tax for Boulevards on the municipalities in which the Boulevards were constructed and the remaining three-quarters of the balance, (or thirty-seven and one-half per cent. of the whole) on all the cities and towns in the District in proportion to their respective valuations. The rule has been slightly changed by the new commission, which apportions the portion of the tax assessed on the cities and towns in which the Boulevards are constructed according to mileage. The net result of the new rule to Brookline is about the same as in the previous apportionment. The debt incurred for the Nantasket Reservation is also apportioned by these commissions. The rule adopted by the new commission follows the previous one of assessing the tax for this purpose on all the cities and towns in the district and including Cohasset, in proportion to their respective valuations. We have put into the annual estimate about the same amount paid in 1910 for Metropolitan Parks and Boulevards, namely, \$54,900, as it is impossible to ascertain until later in the year the exact amount of the tax for these purposes.

The duty was also placed by law upon this new commission of apportioning the cost of the construction and maintenance of the Charles River Dam and Basin and other work in connection therewith. The total cost of the same to July 1, 1910, approximates \$4,000,000. The commission made certain deductions from the total cost, which are to be paid by the cities of Cambridge and Boston, and apportioned the balance upon the cities and towns in the District according to their respective valuations. Certain deductions are also to be made in the maintenance charges and the remainder apportioned according to the same rule. Apparently Brookline's contingent liability towards the cost of all this work will be about \$80,000, to be met by annual payments towards the sinking fund. No amount is included in our annual estimate for our contribution for these charges, as it is too early to fix the amount with any accuracy. Nothing was paid in 1910, the apportionment not being ready, and in consequence two yearly instalments will have to be paid in 1911. Brookline's contingent liability for Parks, Boulevards and Sewers, under the previous apportionment according to the following table is \$2,150,872.86, and to this should be added the contingent liability for the Charles River Dam and Basin.

	Parks.	Boulevards.	Nantasket.	Sewer So. System.	Total
Gross debt, Dec. 1, 1910.....	\$8,785,000.00	\$2,567,500.00	\$700,000.00	\$8,877,912.00	\$20,930,412.00
Less special app'tionm'ts...	164,485.72*				164,485.72
	\$8,620,514.28				\$20,765,926.28
Sinking Funds, Dec. 1, 1910	2,079,018.70	496,551.16		684,899.72	\$3,260,469.58
	\$6,541,495.58	\$2,070,948.84	\$700,000.00	\$8,193,012.28	\$17,505,456.70
Brookline's Proportion:					
Old apportionment.....	.04988	.03740	.04970	.2090	
New apportionment—(not yet approved).....	(.04653)*	(.03815)	(.05068)		
Net Debt—Old app'tionm't.	\$326,289.80	\$77,453.49	\$34,790.00	\$1,712,339.57	\$2,150,872.86

*Wellesley Bridge, \$12,800.00; Wellington Bridge, \$26,685.72; Alewife Brook, \$125,000.

State Tax.

The State tax increased from \$4,500,000 in 1909 to \$5,500,000 in 1910. This latter was the amount in 1908. Brookline's proportion of the tax in 1910 was \$152,130, or 2.766 per cent. of the whole tax. We have provided the same amount in the annual estimate for the State tax this year. Chapter 651 of the Acts of 1910 provides for the abatement of smoke in the

City of Boston and vicinity. Section 9 provides that the expense of carrying the Act into effect shall be apportioned among the cities and towns in the District, comprised of a part of Boston Harbor and the cities of Boston, Cambridge, Somerville, Everett and Chelsea and the Town of Brookline, in proportion to the amount of their State tax. Under the provisions of this Act, Brookline was assessed in 1910 the sum of \$516.12. We have added the sum of \$517 to the amount provided as above for the State tax, making a total included for these purposes of \$152,650.

By an Act of the Legislature of 1909 it was provided that one-half of the taxes collected on shares of the capital stock of domestic corporations should be paid to the cities and towns where the stockholders resided, and that the other half should be paid to the cities and towns where the business of the corporation was carried on. By an Act of the Legislature of 1910 it was provided that the whole of such taxes should be paid to the cities and towns where the business of the corporation was carried on. By the operation of these two Acts the town has lost over \$100,000 a year in receipts.

County Tax

The County tax for the coming year is \$193,000, and of this amount Brookline pays \$70,557.49. The following table gives the County receipts and expenditures in detail:—

County Receipts and Expenditures.

RECEIPTS:—	Actual, 1909	Actual, 1910	Estimated, 1911
Balance on hand Jan. 1st....	\$36,384 14	\$37,336 46	\$57,343 29

Condition of Current Special Appropriations.

Appropriations carried forward January 1, 1910.

There is nothing further to be done and the appropriations will be closed in the following matters, namely:—

Separation of Sewers and Drains, Howe Lot Improvements, Sanitaries in Village Square, Refitting Vaults in Town Hall.

Nothing has been spent of the appropriation of \$3,000 for the Extension of the Driven Well System, and this amount will be carried forward at the request of the Water Board.

There is a balance of \$15,250.54 of the appropriation for the New Covered Reservoir on Single Tree Hill, which will also be carried forward at the request of the same Board.

A balance of \$5,767.69 of the appropriation for paving Washington street from Village Square to the Parkway is carried forward as all matters in connection with this work have not been settled.

The sum of \$1,254.99 remains from the appropriation provided for the new Public Library and will be carried forward, as all bills in connection with the same have not been paid.

Nothing has been spent from the appropriation of \$61,270.51 standing on the books for the purchase of Public Playgrounds, and the amount will be carried forward for the same purpose.

All claims for land damages in connection with the Hammond Street Widening have not been settled, and the balance of the appropriation, amounting to \$16,783.56, will stand on the books.

There is a balance of \$22,968.57 outstanding for the widening of Washington, Walnut and High streets and improvements in Village Square, and we have carried this amount forward.

The deficit in the appropriation for the sewer in Saw Mill Brook Valley has not yet been provided for as it is uncertain what amount will be necessary to meet land damages. This deficit now amounts to \$4,486.45.

Nothing has been expended from the balance of \$185.78 standing to the credit of the committee on municipal improvements, and it is carried forward.

The same is true of the balance of \$212.80 for the wall and grading at the heating, lighting and power plants, and it is carried forward.

Special Appropriations of 1910.

There is nothing further to be done in the following matters for which special appropriations were made at the annual meeting of 1910 and the special meeting held on June 1st, and the appropriations have been closed, namely: Devotion and Pierce Grammar School renovation, maintenance Law Library, paving Beacon and Harvard streets, suppression Gypsy and Brown Tail Moths, bell in town clock, furniture for new library.

The appropriations for land on Westbourne Terrace, Walnut Hills Cemetery Wall, band concerts, and rent of garage, have all been used.

The sum of \$854.02 has been spent out of the appropriation of \$1,500 for plans for schoolhouse on Westbourne Terrace, and the balance of the appropriation is carried forward.

Only \$19.30 has been spent from the appropriation for the new engine, Water Department, and the balance of \$20,480.70 is carried forward.

Payments amounting to \$20,878.55 have been made on account of the new schoolhouse on Westbourne Terrace, and the balance of the appropriation, namely \$54,121.45, is carried forward.

Nothing has been spent for the publication of Vital Records, and the appropriation of \$200 for the purpose remains.

The same is true of the appropriation of \$150 to pay damages for the Building Line on St. Paul street.

The Committee on Building Limits has used \$16.15 of its appropriation of \$1,000, and the appropriation is carried forward.

The sum of \$1,403.14 has been used for filling the old aqueduct location and the balance of \$8,096.86 is carried forward.

Of the appropriation of \$55,000 for the construction of

highways and for land damages in connection therewith, made at the special meeting of June 1st last, the sum of \$27,999.21 has been spent. The balance is carried forward.

Special Appropriations.

* Carried to general balance. † Overdrawn.

Total amount of special appropriations expended, \$349,908.43.

Appropriations.

The total amount appropriated during the past year for general expenses, including State, County and Metropolitan taxes and payments of funded debt and interest, was \$1,671,-873.93, of which \$1,665,635.55 was spent. Of the total amount of \$590,004.40 carried on the books for special appropriations, the sum of \$349,908.43 has been spent, making a total of \$2,015,543.98 spent by the town for all purposes during the fiscal year.

The sum recommended for general expenses and those proposed for new special appropriations are given in the following tables. The amounts asked for general expenses for Public Schools, Public Library, Water Supply, Public Parks and Grounds, comprising headings A, B and C and the first two items of D, in Table II below, have been recommended by the different Boards having those matters in charge. Reference is made to the reports of those Boards for information in regard to those appropriations. All other amounts included in the tables are recommended by the Selectmen, subject to the comments in this report and in the report of the Board of Health. The total amount proposed for general expenses for the current year, 1911, including State, County and Metro-

politan taxes and payment of funded debt and interest, is \$1,678,516.24, as appears in the following tables. The total of the proposed new special appropriations is \$76,386, of which it is recommended that \$35,000 be borrowed. The balance of special appropriations not to be borrowed, namely \$41,386, added to the amount for general expenses above referred to, makes a total of \$1,719,902.24 to be included in the tax levy.

Annual Appropriations.

Construction of extension of Walnut path and land damages	4,275 00
Construction of widening of Cypress street and land damages	4,175 00
	\$76,386 00

Highway Department.

The town spent \$111,997.64 in 1910 for the maintenance of its highways, including street cleaning, removal of snow and ice, repairs and new work on streets, maintenance of stable and equipment, and superintendence. The sum of \$16,999.38 was spent for the construction and repair of sidewalks, and \$44,512.44 for laying dust. It is becoming more and more apparent all the time that the matter of the construction of highways, in view of the hard usage by automobiles, is one of the most important questions before municipal administrations at the present time. Many new materials for surfacing have been tried, and some have been found to be of little value; others are fairly satisfactory. The problem is working itself out and will be solved satisfactorily, as problems of a similar nature have been solved in the past.

The dust nuisance has never been so satisfactorily handled as in the past year. The appointment of an inspector to take charge of this matter has proved of the greatest value, and the attention and oversight which he exercised produced excellent results. We recommend an appropriation of \$40,000 for dust laying for the coming year.

Reference is made to the report of the Superintendent of Streets and the Town Engineer's report for information as to the laying out and construction of streets during the year, together with statements of damages assessed.

	Recommended 1911	Expended 1910	Expended 1909 (11 mos.)	Expended 1908-9
Street cleaning and sectional care	\$28,750 00	\$26,469 78	\$22,972 54	\$21,802 62

Street Lighting.

Street lighting by gas and naphtha is being done under the contract with the Welsbach Street Lighting Company of America, with the exception of five high-pressure gas lamps in Village Square and one low-pressure gas lamp on Walnut street near the public sanitary, which are maintained by the Boston Consolidated Gas Company. Electric lighting is being done under the contract with the Edison Electric Illuminating Company. The following estimate shows the items of cost for the coming year:—

Estimate for Street Lighting for 1911.

263 Arc lamps (17 Park, 246 street) at \$98.10.....	\$25,800 30
5 High pressure gas at \$95.00.....	475 00
1 Low pressure gas	35 00
6 Tungsten	126 84
992 Welsbach (850 gas, 142 naphtha) at \$27.00.....	26,784 00
Illuminated clocks	150 00
Estimate for new lights.....	1,628 86
Total	\$55,000 00

Police Department.

Our first comment should be on the death of Capt. Albert S. Paige. His untiring devotion to duty and his loyalty to the town deeply impressed all who came in contact with him and afford a worthy example to all public servants. In his death the town has lost a faithful servant, and we think it fitting that we should here pay a tribute to his memory.

The automobile purchased for this department has done excellent work. It has been in constant use since July fifteenth and up to January first it had run eleven thousand miles.

A petition has been received from the patrolmen requesting one day off in fifteen, instead of one day off in thirty. This would require the employment of three new men and an increase in the appropriation for the purpose. The Board does not recommend the additional appropriation necessary for this purpose.

	Recommended 1911	Expended 1910	Expended 1909 (11 mos.)
Chief	\$2,500 00		
Three lieutenants	4,800 12		
Four sergeants	5,599 36

Maintenance of equipment.....	2,961 00	2,160 77	1,232 70
Automobile		1,813 00	
General expenses	3,899 00	3,357 63	3,035 11
Total	\$87,400 00	\$87,568 74	\$78,119 13

Department of Wires and Lights.

The following is the estimate for the expense in this department. Considerable progress has been made in placing wires underground. The Electric Light and Telephone Companies are both cooperating with the Board in this regard and we feel much gratified at the prospect.

	Recommended 1911	Expended 1910	Expended 1909 (11 mos.)
Salary of Superintendent.....	\$2,150 00	\$2,000 00	\$1,833 33
Wages of assistants	2,548 00	2,504 09	2,200 00
Horses, wagons, harness.....		617 08	709 43
Automobile expenses	950 00	280 31	
Supplies and incidentals	600 00	335 13	750 47
	\$6,248 00	\$5,736 61	\$5,493 23
New apparatus and wiring.....	1,000 00	741 56	1,117 15
Underground town wires.....	1,002 00	465 21	1,040 10
New bell			595 80
Two automobiles		3,475 00	
Total	\$8,250 00	\$10,418 38	\$8,246 28

Fire Department.

The Fire Commissioner includes in his recommendation, as will be seen by his report, an item of \$1,848 for the purpose of providing telephone operators at headquarters. The Selectmen are not convinced that conditions warrant this appropriation and feel that the problem which exists in regard to the

telephone service there should be worked out in some less expensive way, either by cooperation with some other department or otherwise.

The Commissioner also states in his report that the men in the department have requested one day off in five. He recommends that they be granted one day off in six, and states that four new men would be required to grant this privilege. Figuring from the first of April next, this would require an increase in the appropriation this year of about \$2,750. The amount required for a full year would have to be larger and ultimately would amount to \$4,800 annually. The Board, by a majority vote does not recommend an increase in the appropriation for the Fire Department for this purpose.

	Recommended 1911	Expended 1910	Expended 1909 (11 mos.)
Commissioner	\$500 00		
Chief	2,300 00		
Assistant chief	1,800 24		
Six captains	9,600 24		
Eight lieutenants	11,202 88		
Two engineers	2,700 88		
Forty-five privates	51,996 17		
Chief's driver	910 00

New Ladder No. 1		5,682 10	
<hr/>			
Total	\$101,575 00	\$104,770 97	\$99,120 15

Building Department.

This department has had a great deal of work on its hands during the past year. Many new apartment houses have been constructed. A thorough inspection of these and other buildings in order to see that they conform to the building laws is most important. The Commissioner for lack of time was not able to give as much inspection to these buildings as he would have liked.

We have therefore included in the appropriation an amount for special inspection, which will allow him to employ assistance when needed. We deplore the erection of unsightly wooden apartment houses in certain parts of the town. An important committee was appointed in June last for the purpose of studying existing conditions and making recommendations towards revising the building law. The recommendations of this committee are awaited with interest. The following is the estimate of expenses for the coming year:—

	Recommended 1911	Expended 1910	Expended 1909 (11 mos.)
Building Commissioner	\$2,450 00	\$2,299 92	\$2,149 33
Inspector of Plumbing	1,950 00	1,800 00	1,650 00
Inspector of Gasfitting	300 00	300 00	275 00
Assistant Inspector of Gasfitting..	1,350 00	1,200 00	1,100 00

Additional inspection	300 00		
Horse, wagon, harness, etc.....	400 00	470 72	477 60
Additional conveyance	725 00	540 00	405 00
Printing, postage, stationery, etc.	195 00	153 70	159 85
Telephone	80 00	77 15	52 86
Carfares		45 55	47 45
Extra clerk			93 33
Total	\$8,500 00	\$7,695 37	\$7,327 09

Sewers and Drains.

The report of the Town Engineer contains full information as to the sewers and surface water drains constructed during the year. At the annual meeting in 1910 the sum of \$23,300 was appropriated for the construction of sewers. At the special town meeting on June 1st, 1910, an additional appropriation of \$6,000 was made. A large portion of the amounts appropriated was used for sewers which were contemplated at the time the appropriations were made. There was a balance from the appropriation of \$3,175.19. There is no special sewer work contemplated during the coming season and an appropriation of \$15,000 will probably cover the unforeseen construction. Most of the work in the separation of sewage and surface water drainage in the territory tributary to the high level sewer has been done. There is a small amount still

to be done, but there is no hurry about it and no appropriation will be asked for this year for the purpose of separation. We recommend an appropriation of \$5,000 for the maintenance of sewers and drains.

The appropriation at the last annual meeting for the construction of surface water drains was \$26,000. Of this there is a balance unexpended of \$7,093.50. We have to provide only for unforeseen work which may arise during the coming year and we recommend \$15,000 for the same.

Municipal Gymnasium.

Dr. Walter Channing, who has acted as Chairman of the Committee on Bath House and Gymnasium, has notified the Board that at the expiration of his present term he will sever his connection with the committee and will not allow the use of his name for reappointment. We take this opportunity to remind the town of the great interest shown by Dr. Channing in the municipal gymnasium and its work. The gymnasium was built largely through his efforts and the place which it now holds in the community life is due largely to his energy and tact. The town can ill afford to lose him from the committee and will undergo a serious loss by not having the benefit of his judgment on all questions connected with this institution. In behalf of the citizens of the town we here convey to Dr. Channing their appreciation for his valuable services as a member of this committee.

Reference is made to the report of the committee in regard to their recommendations for the coming year. An appropriation of \$23,193 is requested. The receipts in 1910 reduced the net cost of running the gymnasium and bathhouse to about \$13,000.

Heating and Lighting Plant

We recommend that this plant be continued under the control of the School Committee and the Committee on Bath House and Gymnasium. These committees appoint a sub-committee of three for its management.

	Recommended 1911	Expended 1910
Wages	\$6,200 00	\$6,365 01
Fuel	5,447 50	5,906 30
Repairs and supplies	2,352 50	1,283 11
Total	\$14,000 00	\$13,554 42

Exterior Repairs and Alterations of Town Buildings.

Reference is made to the Accountant's report for a detailed statement of repairs made during the past year. The pointing of the walls of the Town Hall was the most expensive piece of work done. An appropriation of \$6,000 is recommended for the coming year.

Gypsy and Brown-Tail Moths.

As an appropriation for this work has come to be an annual event, we have included the same in the list of annual appropriations instead of having a special article in the warrant.

The Selectmen appointed as Superintendent of this work in 1910, Mr. Ernest B. Dane, the Chairman of the Committee on Planting Trees, and it has been done most efficiently under his supervision. He recommends an appropriation of \$24,000 for the coming year and the reasons given in the report of the Committee on Planting Trees seem to be sufficient recommendation.

Suits Against the Town.

Cochrane Mfg. Co. vs. Brookline and other Mill Cases. These are cases brought by proprietors of mills on Mother Brook to obtain damages on account of land taken by the town for additional water purposes. The evidence taken before P. H. Cooney, Commissioner, has been concluded and the cases are about to be argued.

Institution for Savings in Newburyport vs. Brookline; Edward J. Clark vs. Brookline. These cases were argued before an auditor on December 23, 1909, but no report has yet been filed by him.

Edward Cooper vs. Brookline. This is an action of tort brought in the Municipal Court of Brookline some years ago. It has never been brought to trial and probably no further action will be taken in the case.

John Lowell vs. Brookline; Thomas C. Cuneen et al vs. Brookline These are cases for land damages for the taking of land for the widening of Hammond street and are pending for trial.

Ario P. Platt vs. Brookline. Mention has been made of this case in previous reports and it is still pending for trial.

Francis A Kerr vs. Brookline; Vernon C. Kerr vs. Brookline. Reference is made to our last report for information as to these cases. The demurrers filed have been argued before the Supreme Judicial Court and are under advisement by the Court.

Holyhood Cemetery Association vs. Brookline. This is a petition for land damages due to the taking for a location of the Saw Mill Brook Valley sewer and is pending for trial.

Agostino De Stephano vs. Brookline. This is a small claim against the town, which has been explained in previous reports. No action has ever been taken since the case was brought and probably nothing further will be done by the plaintiff.

William Cotton vs. Brookline. The County Commissioners sustained the valuation placed on the petitioner's land by the Brookline assessors and dismissed the proceedings.

James F. Gleason vs. Brookline; Annie Connolly vs. Brookline; Mary A. Good vs. Brookline; Mary A. Carroll vs. Brookline; James J. Lynch et al vs. Brookline; Mary E. C. Coleman vs. Brookline; John J. Howard vs. Brookline; Arthur Finnegan, Jr., vs. Brookline. These are petitions for the annulment of betterments levied on land abutting on Hammond street. They have been tried once before a jury, but on account of irregularity in the form of the findings the latter were set aside by the court. The cases are still pending for trial.

John Lowell et al vs. Brookline; Catherine F. Cummings vs. Brookline; Catherine F. Cummings et al vs. Brookline; Thos. C. Cuneen et al vs. Brookline. These are petitions for the annulment of betterments levied on land abutting on Hammond street and are pending for trial in the Superior Court.

John G. Wright vs. Brookline; John G. Wright et al vs. Brookline. These are cases in which a revision of certain sewer assessments, varying in amounts from about \$200 to \$1,100, is sought upon the ground that the assessments are excessive, disproportionate, and unconstitutional. They are pending for trial in the Superior Court.

Sarah M. Cantwell vs. Brookline. This is a petition for damages for the establishment of a building line on St. Paul street and is pending in the Superior Court for trial.

Francis C. Welch, et al., Executors and Trustees, vs. Brookline et al. This is a proceeding in equity brought in the Supreme Judicial Court to determine what municipalities are entitled to the taxes on certain property held by the petitioners as Trustees under the will of Quincy A. Shaw, late of Boston. The town claims a portion of the taxes, on the ground that one of the beneficiaries resides here. The case has been argued before the Full Court, but no decision has yet been handed down.

Kenneth M. Blake vs. Brookline. This case is an action of tort brought for damages to the plaintiff's automobile by reason of its running into a trench on Harvard street where a surface water drain was being laid. The contractor who did the work is defending the case and will hold the town harmless.

Cases Settled During the Year.

Ann J. Harkness vs. Brookline. This case was an action of tort for injuries alleged to have been received by the plaintiff by reason of an alleged defect on Walnut street. It was settled by the payment of \$50 to the plaintiff for a release of all damages.

TOWN OF BROOKLINE POLICE DEPARTMENT

ANNUAL REPORT
OF THE
CHIEF OF POLICE
OF
BROOKLINE
MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1910

BOSTON
PRESS OF E. L. GRIMES CO., 122 PEARL STREET
1911

In Memoriam

CAPTAIN ALBERT S. PAIGE

BORN APRIL 16, 1846—DIED MAY 18, 1910.

APPOINTED ON THE POLICE FORCE
MAY 9, 1876.

RETIRED ON PENSION MAY 9, 1910.

Was he your friend? Then well you know
His friendship was unfeignedly true;
And no reservation mocked the relation.

REPORT

January 1, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—I have the honor to submit herewith my twelfth annual report as Chief of Police for the twelve months ending December 31, 1910.

Department Organization.

Chief	1
Lieutenants	3
Sergeants	4
Patrolmen	55

Stenographer	1
Janitor	1
Janitress	1

Roster.

Rank.	Name.	Date of Appointment.
Chief	Alonzo W. Corey	Oct. 1, 1879
Captain	Albert S. Paige§	May 9, 1876
Lieutenant	B. Frank Bartlett	April 3, 1882
Lieutenant	Joseph J. O'Connell	April 30, 1879
Lieutenant	George E. Stitt*	May 9, 1887
Sergeant	Edward J. Mealy	Jan. 2, 1883
Sergeant	James Gleason	April 3, 1882
Sergeant	Andrew Creelman	Dec. 15, 1886
Sergeant	H. Allen Rutherford*	Sept. 25, 1893
Patrolman	Alden A. Manley†	Nov. 29, 1880
Patrolman	Henry J. Graham	April 3, 1882
Patrolman	George W. Piper	May 9, 1887
Patrolman	Michael E. O'Day	May 9, 1887
Patrolman	Emery E. Allen	Jan. 2, 1888
Patrolman	Fred C. Gordon	June 7, 1888
Patrolman	John J. Sullivan	Sept. 1, 1890
Patrolman	Patrick A. Kelleher	May 13, 1891
Patrolman	Charles C. Watterson	May 13, 1891
Patrolman	James J. Phillips	May 16, 1892
Patrolman	Stephen D. Halloran	May 16, 1892
Patrolman	Wilbur F. Merritt	Feb. 8, 1893
Patrolman	James J. Powers	May 1, 1893
Patrolman	John Johnson	May 1, 1893
Patrolman	John Carmody	May 1, 1893
Patrolman	Michael C. Lynch	May 15, 1895
Patrolman	William Dugan	June 18, 1895
Patrolman	John T. Connor	Dec. 23, 1895

* Assigned for duty in Detective Bureau.

† Detailed at Police Station as House Watchman, from 9 p.m. to 7 a.m.

§ Retired on Pension, May 9, 1910. Died May 18, 1910.

Roster.—Continued.

Rank.	Name.	Date of Appointment.
Patrolman	James McDonald	June 15, 1896
Patrolman	Thomas J. Craig	June 15, 1896
Patrolman	Joseph J. Carroll	June 15, 1896
Patrolman	Michael F. Manley	June 15, 1896
Patrolman	James Comerford	March 8, 1897
Patrolman	James P. Mead	May 17, 1897
Patrolman	Michael F. Fleming	May 17, 1897
Patrolman	John A. Moloney	Oct. 23, 1899
Patrolman	John A. Minahan	Dec. 26, 1899
Patrolman	Henry M. Fogerty	Jan. 26, 1900
Patrolman	William Dalzell	May 7, 1900
Patrolman	Charles B. M. Knowles	May 7, 1900
Patrolman	Robert J. Evans	May 16, 1901
Patrolman	Thomas A. McDonald	May 16, 1901
Patrolman	Frederick C. Munsil	Sept. 30, 1901
Patrolman	Henry F. Pinner	April 21, 1902
Patrolman	James H. Tolman	April 21, 1902
Patrolman	Thomas A. Mahon	July 7, 1902
Patrolman	Peter F. Kelleher	May 6, 1903
Patrolman	Melvin H. Wharton	Feb. 1, 1904
Patrolman	Matthew Moreland	May 1, 1904
Patrolman	Alexander B. Johnston	May 23, 1904
Patrolman	Michael J. Cunniff	April 24, 1905
Patrolman	David Minnis	May 8, 1905
Patrolman	Patrick J. Brogan	Nov. 7, 1905
Patrolman	William J. Smith	April 23, 1906
Patrolman	Thomas J. Hill	Aug. 27, 1906
Patrolman	George A. Kelter*	Oct. 8, 1906
Patrolman	Edward C. D. Munsil	Feb. 20, 1907
Patrolman	James A. Lacey	May 13, 1907
Patrolman	Patrick J. Rutledge	May 13, 1907
Patrolman	William Harris	June 24, 1907
Patrolman	Cornelius F. Larkin	Oct. 14, 1907
Patrolman	James J. Donovan	Feb. 1, 1909
Patrolman	John G. Thompson	April 20, 1909
Patrolman	John F. Donovan	April 20, 1909
Patrolman	Walter F. Johnson	May 10, 1909

Reserve Patrolmen.

Appointed.

Allen Wilson	May 23, 1910
Chester C. Chapman	May 23, 1910
Thomas P. Carroll	June 6, 1910
William P. McCracken	June 6, 1910
Joseph J. O'Connell, Jr.	June 13, 1910

* Resigned December 27, 1910.

Respectfully,

GEORGE E. STITT,
Lieutenant, Detective Bureau.

Police Signal System (Gamewell).

The system has forty-six boxes or stations located as follows:—

Circuit No. 1.

- 121 Tappan street, opposite Gardner road.
- 122 Warren street, corner Cottage street.
- 123 Warren street, corner Clyde street.
- 124 Clyde street, near Newton street.
- 125 Boylston street, corner Heath street.
- 131 Boylston street, corner Hammond street.
- 132 Boylston street, corner Warren street.
- 133 Buckminster road, opposite Holland road.
- 134 Goddard avenue, opposite Rockwood street.
- 141 Norfolk road, corner Middlesex road.
- 143 Grove street, corner South street.

Circuit No. 2.

- 21 Windsor road, near Kilsyth road.
- 22 Colbourne crescent, opposite Addington road.
- 23 Washington street, opposite Fairbanks street.
- 24 Washington street, near Brighton line.
- 25 Winthrop road, near Gardner road.
- 212 Beacon street, opposite Dean road.
- 213 Chestnut Hill avenue, corner Fisher avenue.
- 214 Beacon street, opposite Marion street.
- 215 Washington street, opposite Park street.
- 221 Washington street, corner Beacon street.
- 223 York terrace, near Summit avenue.

Circuit No. 3.

- 31 Naples road, corner Abbottsford road.
- 32 St. Paul street, corner Freeman street.
- 33 St. Paul street, corner Sewall avenue.
- 34 Aspinwall avenue, corner Toxteth street.
- 35 Harvard street, corner Beacon street.
- 36 Harvard street, corner Fuller street.
- 37 Harvard street, opposite Babcock street.
- 312 Harvard street, near Brighton line.
- 313 Beacon street, opposite Kent street.
- 314 Essex street, corner Mountfort street.
- 321 Monmouth street, corner Carlton street.
- 322 Kent street, corner Longwood avenue.
- 323 School street, corner Harvard street.
- 331 Thorndike street, near Winchester street.
- 332 Babcock street, opposite Winslow road.
- 341 Harvard street, corner Marion street.

Circuit No. 4.

- 12 Cypress street, corner Franklin street.

- 14 High street, corner Boylston street.
- 15 High street, corner Cumberland avenue.
- 16 Cypress street, corner Davis avenue.
- 17 Cypress street, corner Walnut street.
- 18 Walnut street, near Walnut path.
- 342 Aspinwall avenue, near Netherlands road.

Number of duty and telephone calls.....	244,904
Number of wagon calls for arrests.....	245
Number of miles run by patrol wagon.....	536
Number of ambulance calls.....	106
Number of miles run by ambulance.....	1,117

Crime.

During the year eight houses, temporarily unoccupied, were burglarized and several apartments entered, also one store; the amount of property stolen was small in the aggregate.

Several persons, one of them a woman, implicated in the above mentioned thefts have been arrested and are now undergoing sentence.

With the above exceptions, general good order has prevailed in the town during the years.

Miscellaneous.

The discipline of the force has in the main been good; one patrolman resigned and I have dealt with a few patrolmen for violating the rules.

The automobile ambulance has fulfilled all expectations and has lessened the time in conveying sick and disabled persons to hospitals more than one-half; in one day between the hours of one and five o'clock, P. M., it responded to five calls, four of which were to Boston.

The runabout automobile has been in almost constant use, and has been run about eleven thousand miles; its utility has been demonstrated in many ways.

Respectfully,

ALONZO W. COREY,

Chief of Police.

TOWN OF BROOKLINE

FIRE DEPARTMENT

ANNUAL REPORT
OF THE
FIRE COMMISSIONER
OF
BROOKLINE

MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1910

BOSTON

PRESS OF E. L. GRIMES CO., 122 PEARL STREET
1911

REPORT

January 12, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—I herewith respectfully submit the annual report of the Fire Department.

The greatest number of alarms of fire have occurred during the year than any records of the Department show. The loss has been quite small in proportion to so many fires, only exceeding last year's loss by \$2,228.64.

The apparatus is in good condition, Ladder 1 having been replaced with a new Truck, which is up to date in all respects, and undoubtedly will be a decided success.

The Automobile apparatus has strengthened the Department materially. Combination A has responded to 104 alarms of fire, and failed once to reach the fire, the cause of which was some defective bolts which connected the shaft and clutch together, which placed the machine out of commission for a short period until new bolts were procured. It has never failed to start when the alarm was sounded.

This machine has been operated 919 miles at the following expense:

Gasoline	\$20 16
Tire repairs	39 07
Oil and grease	2 41
Incidentals	26 96

Making a total operating expense of	\$101 60
There was also expended for extra shoes and inner tubes..	186 98
And an improvement applied to the machine which cost....	65 00

Which makes a total expense to be charged up to
this piece of apparatus from Feb. 18, 1910, to
Dec. 31, 1910, of \$353 58

The Chief's Auto has been operated 4,250 miles, the expense being as follows:

Gasolene	\$34 33
Oil and grease	7 96
Tire repairs	32 32
Incidentals	24 36
Varnishing and painting	40 00
Repairs	10 10
<hr/>	
~ Making a total expense of	\$149 07
Extra shoes and inner tubes	113 94
Improvements	65 00
<hr/>	
Total expense	\$328 01

This machine was placed in commission November 2, 1909, and has been in continuous service, has never failed to reach a fire or to start when the alarm has been sounded.

The horses are in good condition, but some will have to be replaced during the year.

The Stations are in fair repair. Station D should be rebuilt and arranged so that each piece of apparatus could leave the building by a separate door, as the present arrangement is such that a bad accident might occur, although every precaution is taken to prevent it. The sleeping quarters and recreation room could also be greatly improved, and I would recommend this building should be given some consideration relative to the re-building of it or re-locating it and building a new one in the near future.

The members of the permanent force have presented a petition requesting one day off in five instead of one day in eight. To grant this request it would be necessary to add six men to have the same efficiency as now. The additional cost from May 1st to the end of the year would be \$3,675.00. If one day off in six should be granted, four additional men would be required to maintain the same efficiency, and the expense from May 1st to December 31st would be \$2,450.00.

Some of the cities and towns in Massachusetts where a permanent force is maintained, one day off in five has been granted in some instances and in some others one day off in six, and I would therefore recommend that \$2,450.00 be appropriated so as to allow one day off in six.

The telephone has become such a factor in the transmission

of alarms of fire that I think the time has now arrived that we should have an operator at the telephone switch board at headquarters continuously for twenty-four hours; said operators should be persons other than the regular firemen, as there are periods after alarms have been given that the switch board is left without an operator from three to seven minutes, and I therefore recommend that a sufficient sum be appropriated to allow the employment of operators.

Roster of Fire Department.

Fire Commissioner—W. W. Estabrook, Station B, Headquarters.

Chief of Department—George H. Johnson, Station B, Headquarters.

Assistant Chief of Department—John H. Allen, Station A.

Fire Station A, Village Square.

Auto Combination A.

Permanent Men—Lieutenant F. J. Hayes, M. J. Nolan, H. C. Hamilton, Joseph Stranahan, G. H. Murray.

Hose Company No. 1.

Appropriations.

I would respectfully recommend the following appropriations:

Current expenses of the Fire Department.....	\$101,575 00
One day off in six	2,450 00
Telephone operators	1,848 00
	<hr/>
	\$105,873 00

In conclusion, I would thank the officers and members of this department and the Town officials and members of the several departments for assistance rendered to this department.

Respectfully submitted,

WILLARD W. ESTABROOK,

Fire Commissioner.

TOWN OF BROOKLINE

WIRES AND LIGHTS

ANNUAL REPORT
OF THE
SUPERINTENDENT OF WIRES
AND LIGHTS
OF
BROOKLINE
MASSACHUSETTS
FOR THE YEAR ENDING DECEMBER 31
1910

BOSTON
PRESS OF E. L. GRIMES CO., 122 PEARL STREET
1911

REPORT

Brookline, Mass., December 31, 1910.

To the Honorable Board of Selectmen:—

Gentlemen,—I respectfully submit the twenty-second annual report on wires and lights, fire alarm and police signal, the inspection of wires run in buildings, and gas inspection, covering the period of twelve months ending December 31, 1910.

Street Lighting.

2**Arc Lights.**

Under the contract between the town and the Edison Electrical Illuminating Company, which was signed December 14, 1909, it was agreed that all the old General Electric lamps should be changed for the Magnetite Arc lamps on or before January 1, 1911.

This work of changing began May 28 and was completed July 3.

These lights are a great improvement over the old General Electric lamps, giving a much whiter and brighter light.

Four new lights were added during the year as shown in the table.

The location of one light was changed from the corner of Waverly street and Cypress street to the corner of Cypress street and Cypress place.

Several complaints have been made to this department in regard to insufficient lighting of Washington street from Harvard Square to Beacon street. There are several places that are quite dark, one is between Cypress street and Greenough street and between Gardner Road and Fairbanks street and between Fairbanks street and Beacon street.

A complaint was received recently that the easterly end of the southern island on Beacon street at Coolidge corner should be lighted; the party complaining stated that driving up Beacon street at night one could not notice the island until you were right upon it.

Welsbach Gas Lights.

Thirty-seven gas lights were added during the year; thirty-four were for new locations and three were changed from naphtha to gas.

Several petitions were received requesting gas lights to be installed. As the ground was frozen at this time, permits were refused to dig up the street, and naphtha lights were substituted until the frost is out of the ground.

High and Low Pressure Gas Lights.

These lights have given very good service during the year, and the reports for outage have been very few.

There have been times when some of the lights did not start when the pressure was first turned on, but there is always some one to watch them and see that they are put in condition at once.

Welsbach Naphtha.

There is a slight increase in naphtha lights over last year, seven were installed on Middlesex road; as this road had just been resurfaced it was thought best to use the naphtha lights and wait until repairs were needed, then change them to gas.

The light on Walnut street was put in under the condition

that this be changed to gas when the frost is out of the ground.

Fire Alarm.

This system has proven very satisfactory during the year. There have been a few cases of trouble caused by broken wires, and, as these have occurred, the old wires, which have been in use since 1897, have been removed and new wire put in.

There are several places where some of the old wire is still in use, and will probably be changed during the coming year.

Two new boxes were added during the year, and placed in the following locations:

July 14, No. 151, on Kennard road and Boylston street.

July 15, No. 353, on Naples road opposite Clarence street.

No new work on overhead wires was put up this year.

We were fortunate this year in having only few broken wires in our fire alarm, which occurred on circuits 2, 3 and 4.

Police Signal.

No new boxes were added during the year, and no new apparatus was purchased.

Approved apparatus is coming into the field every year, and it is well to keep up with these improvements. I would recommend money be appropriated for the purchase of such improvements if found to be an advantage.

Police boxes are looked over every year when painting, and repairs are made then if necessary.

The number of broken wires on police wires was six, two on No. 1 circuit, two on No. 2 circuit and two on No. 3 circuit.

Fire Alarm and Police Telegraph. (Underground.)

No new work of extending underground wires was put in this year.

July 14 the new fire box 151 was connected, at the corner of Boylston street and Kennard road, and 646 feet of wire was used running up from Cypress street.

July 15 the new fire box 353 was connected on Naples road opposite Clarence street.

New wires were run on Naples road from Harvard street to Abbotsford road to reach the fire and police boxes, which were removed from the wooden poles and set on iron posts.

These boxes were formerly reached by aerial cable, which was attached to poles on Abbotsford road, and after the boxes were connected with the underground wires on Naples road the cable was removed.

A new service pipe was run from the manhole to police box 36 on Fuller street, so that this could be used for a test station.

Police box 312 was removed from the wood pole and set on the iron post at the corner of Harvard street and Kenwood street later on.

Fire alarm box 35 was removed from the wood pole at the corner of Harvard street and Thorndike street and set on the iron post.

The total amount of wire used for repairs and replacing old wire on fire alarm wires was 12,148 feet, and for repairs on police wires 11,627 feet, making about four and three-quarters miles.

Underground Work by the Edison Electric Illuminating Company.

After many conferences with this company they finally agreed when feasible to place all new construction underground, and to expend fifteen thousand dollars each year to place existing wires underground. This work was begun with the intention of placing about one thousand feet on Harvard street from the town line, and would reach to about Thorndike street. This seemed to be a very short distance and it was suggested to the company that they put in all the conduits, manholes, house and pole connections on Harvard street from the town line to Longwood avenue this year, which would save digging up the street at three different times. Next year, 1911, the company place as much wire in their conduits as their appropriation would allow.

Had this work been put in, in three different sections as was their intention, they would have had to run pipes from manhole at the end of the first thousand feet to a pole to reach the wires overhead, and the following year this would all be abandoned. In all probability two thousand dollars would be wasted, and that amount of money would install quite a lot of conduit.

In looking over reports and talking with different people, I find the majority think it would be better to put this work in by distance (say one mile each year) rather than a certain amount of money.

As your committee and the company had agreed on the above arrangements, it may be well to try this. After Harvard street is finished the company will be able to cover a larger territory, as there will be a less number of ducts and cables to be run.

Following is a list of streets in which the Edison Electric Illuminating Company have done underground work this year:

Location	Feet of Conduit	No Ducts	Feet Duct	Kind of Pipe	No Manholes	House Connections	
Clafin Road..	250.7	2	501.4	Fibre	2	1 pole	2 house

Boston Elevated Railway Company.

Cypress street from Boylston street to Franklin street was the last section of overhead feed wires to be removed and placed underground.

This was finished last fall and today the company has all of its feed wires in conduits.

The following is a list of the amount of work done by the Boston Elevated Railway Company this year:

Location	Ft. of Conduit.	No. of Ducts.	Ft. Duct.	Kind of Pipe.	No. of Manholes.	Pole Connections.
Cypress st.	1970	4	7,688.0	T. Cotta	8	2

1,000,000 " " " "	6349
500,000 " " Return Cable.....	7645

New England Telephone & Telegraph Company. (Underground.)

The work of this company is somewhat scattered this year. The longest run on any street was Summit avenue. The others are branches running from Beacon street.

Conduits were placed in Druce street from Buckminster road to Hyslop road, and 326.4 feet of iron pipe run on private property to reach four houses, which was paid for by the property owners.

The following list shows the number of pole and building connections throughout the town.

This is the kind of work that does not show upon the sur-

face, but is the means of removing many overhead wires. With the exception of one short piece of cable, there is none less than fifteen pairs, and from that up to six hundred pairs.

Plans are being prepared which it is hoped will enable the company to clear up much of the overhead wiring in the section of the town between Commonwealth avenue, Winchester street, Beacon street and St. Mary's street. This is a large section and will require some time to accomplish it, as there is a lot of detail work.

U. G. Conduct Placed Jan. 1 to Dec. 31, 1910.

Poles.

Four applications were received from the New England Telephone and Telegraph Company for permission to erect poles on the following streets: Winchester street four poles, and Cypress place one pole. They were given leave to withdraw. Clyde street was for the relocation of one pole, which was granted.

Reservoir lane was for the relocation of three poles, which was referred to the committee for investigation.

The petitions from the Edison Electric Illuminating Company were nine:

Columbia street, two poles were not granted.

Pleasant street near Dwight street was granted, as this necessitated removing one pole which was outside of the curb stone in the extension of Dwight street.

Dwight street at the corner of Pleasant street was granted, as the change on Pleasant street caused the rearranging of wires.

Cumberland road, one pole; Glen road, three poles were granted to reach the arc light between Cumberland road and Atherton road.

One pole location was granted on Fuller street.

Two poles were changed to new locations, caused by the widening of Cypress street.

One pole was granted on Hawthorne road.

A petition for one pole on Manchester road was not granted, as many of the abutters objected.

Poles Removed.

Village square	3 poles
Pleasant street	1 pole
Downing road	2 poles

A petition to remove one pole on Cotswold road was received; this was received too late to finish the underground work, owing to the frozen condition of the street.

Attachment to Poles.

The New England Telephone and Telegraph Company have sent petitions for permission to attach to seventeen poles of the Edison Electric Illuminating Company, all of which were granted.

The Edison Electric Illuminating Company also petitioned to attach to nine poles of the New England Telephone and Telegraph Company; these were also granted.

Aerial Cables.

Petitions were received from the New England Telephone and Telegraph Company for permission to attach aerial cables to fifty-four poles.

One pole on Pleasant street and one on Green street was granted.

Your Board thought it were better to look into the conditions of the other locations and see if these could not be placed in underground conduits.

Town Clock.

By a vote of the town the Board of Selectmen were authorized to expend two thousand dollars for illuminated dials and a bell in the Presbyterian Church tower.

Arrangements were finally made with the Howard Clock Company to furnish the dials and bell.

The work was finished and the clock started and lighted in May.

The bell was connected and in use in June.

After all expenses were paid, which included repairs to the Church tower, plans for a new tower on the Town Hall and other work, there was a balance of \$43.33.

The expenses for lighting this clock from June is \$56.36.

Automobiles.

This year an appropriation was made for the purchase of two automobiles, one of which arrived on August 9th, and has been in commission since that time and done excellent work.

The car which is to be used for a work car arrived on November 10th, but was not put in commission at once as there were a few changes to be made. These were all finished about December 1st, and since that time it has been out nearly every day. Some few things are not quite satisfactory, but will be corrected by the company of whom the car was bought.

Horses and Wagons.

There being no further use for horses and wagons in this department, one horse and the large wagon was turned over to the Tree Planting Committee. The buggy was sold; we now have one buggy harness, one sleigh and one pung. We lost one horse this year, the first one since this department has used them.

Interior Wiring of Buildings.

The number of notices received this year was 970, the most that this department has had since it was organized.

Calls had to be made at the same place three and four times before work was completed and satisfactory.

The apartment house is responsible for much of this work, and as every one was in a hurry to complete their buildings we were obliged to make many calls.

The table following will show the applications received and the various kinds of buildings and apparatus which were wired :

Buildings Wired.

Single houses (new)	80
Single houses (old)	35
Flat houses (new)	94
Flat houses (old)	4
Automobile garages	27
Stores	15
Stables	2
Church	1
Gate house	1
<hr/>	
Total	259

Total number of applications received.....	970
Number of lights connected and in use.....	15,261
Number of additional lights added during the year.....	1,777
Number of lights in new houses.....	13,227
Notices of changes and repairs.....	467
Motors from ½ H. P. to 15 H. P.....	38
Electric heaters	4
Electric signs	4
Are rectifiers	2
Illuminated town clocks	1
Economy coils	2
Twin switches	3

Inspection of Gas Piping and Gas Fixtures.

This branch of the department has had a very busy year, 924 permits having been issued, as compared with 755 for the previous year. Old houses have been piped where gas mains have been extended, also many new apartment houses, which are to use gas only.

The following is a list of buildings piped and other work which has been done during the year :

New buildings	180
Old buildings	44
Instantaneous heaters	34
Gas meters	618
Gas stoves	686
Buildings in which fixtures were hung	209
Changes and alterations	184
Permits granted	924
Number of tests	1,596
Number of inspections	2,408

Respectfully submitted,

EUGENE N. DAVIS,

Superintendent of Wires and Lights.

TOWN OF BROOKLINE STREETS AND SEWERS

REPORT
OF THE
TOWN ENGINEER
AND THE
SUPERINTENDENT OF STREETS
AND SEWERS
OF
BROOKLINE
MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1910

BOSTON

PRESS OF E. L. GRIMES CO., 122 PEARL STREET

1911

REPORT OF THE TOWN ENGINEER

Office of the Town Engineer,
Town Hall, Brookline, January 2nd, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—The following is my seventeenth annual report of the operations and expenses of the Engineering Department for the fiscal year of 1910:

Amount of appropriation.....	\$20,000 00
Amount unexpended.....	4 32
<hr/>	
Amount expended.....	\$19,995 68

Classification of Expenditures.

Salary of Town Engineer.....	3,000 00
Salaries of assistants and clerk	11,743 85
Salaries of inspectors.....	3,305 41
Supplies and incidentals.....	437 94
Telephone	125 11
Instruments and repairs.....	100 59
Board of horse, blacksmithing, motor hire, etc.....	874 40
Traveling expenses.....	158 38
New horse.....	250 00
<hr/>	
\$19,995 68	

Sewers and Drains.

The sewers and drains laid are shown in the appended table.

The following is a list of connections made with the High Level Sewer:

Sewer.	Size.	Date.
Washington street at Greenough street....	8"	28 May, 1910
Columbia street at angle.....	8"	26 May, 1910

All the separation work contemplated when the appropriation of \$50,000 was made two years ago has been completed, and there is an unexpended balance of \$454.11, notwithstanding work in Brookline Village and in Beacon street at Harvard, costing \$7,178.07, has been paid for from the appropriation.

There is a small amount of separation work (in the district tributary to the High Level Sewer) in the part of Walnut street east of Cypress street, which was overlooked in making up the original estimate. Its cost will be about \$2,000.

The separation work of the part of the town which will be tributary to the Low Level Sewer can be entered upon whenever the pollution of the Charles River Basin reaches a point where it cannot be continued with due regard to public health. It is such an extensive undertaking that it should be spread over several years' time in order to avoid breaking up too many streets at once, and to better distribute the cost.

A section of the town lying west of Essex street, and south of Commonwealth avenue, some 44 acres in extent, is in need of drainage, but as a part of the outlet to the Metropolitan Sewer will be beneath the tracks of the Boston and Albany Railroad, and, moreover, lies within the city of Boston, which will eventually drain some of its territory through it, the negotiations have of necessity consumed much time. It is understood that the city has now entered into an arrangement with the Railroad Company by which the work will be done in the early spring, so that the drainage of the Brookline territory in question can probably be furnished by July first.

The open brook channels which should receive the early attention of the town are Village Brook, between Sumner road and the Beaconsfield stables, and from Strathmore road to the town line. Also the open channel in Reservoir Park. These are all so situated with reference to other sections of the same brook channel, which have to a greater or less extent been improved, as to render serious flooding possible in times of freshets.

Streets and Ways.

The data relating to ways laid out and accepted by the town is given in the accompanying table.

Beacon street, from Pleasant street to Centre street, and Harvard street, for 100 feet north and south of Beacon street, have been paved with granite blocks placed on a compressed concrete foundation, and jointed and surfaced with a rich cement grout. The blocks are from the quarries in southern

New Hampshire, and have practically the same degree of hardness as the grout, so that they will wear evenly with it. A similar pavement has been extensively used in Worcester, Massachusetts, with much satisfaction. Much mud has been brought onto the pavement from adjoining streets, but it is a trouble which will disappear either by extending the pavement or by treating the surfaces of those streets with Tarvia, or some other road binder.

Of the streets mentioned in the table, Cypress street and Griggs terrace have been completed by this department, the former having been surfaced with a two-inch wearing coat of crushed stone mixed with Tarvia. Dean road was completed by private interests, excepting for a distance of about 250 feet, next to Crafts road, where the grade was raised. The work of filling has been completed.

Crafts and Reservoir roads have been sub-graded, a large part of the underground work completed and the walks partly graded, so that the work of finishing the pipe laying, doing of surfacing, etc., can be done in the spring. An unusual and expensive item in this work was lowering about 200 feet of the 48-inch Metropolitan Water main in Reservoir road where it crossed Crafts road. This work was made necessary by the fact that the old way in which the pipe was laid had a slope of about fourteen per cent.

A sewer and surface water drain have been laid in Dudley street from Reservoir Park to and across Warren street, the street nearly sub-graded, the sidewalk and planting on the westerly side partially graded, so that the work of laying water and gas pipes, and surfacing can be begun in the spring.

Cottage Farm road, Ivy street, Mason street and Worthington street have all been built by private interests without expense to the town.

Plans and estimates have been made of the cost of widening Boylston street from Village square to Cypress street, of extending White place to Davis avenue, of the extension of Walnut path across the eastern edge of the Lincoln Primary School lot, over the tracks of the Boston and Albany Railroad to White place extension, of widening Ackers avenue,

of a proposed street west of Chestnut Hill avenue, and of the proposed extension of Lee street to Clyde street, besides plans of the various streets which have been laid out and which have been built or are in process of building.

Parks.

The most extensive work done in this department has been the grading of the Beacon Street Playground near Dean road. Four tennis courts, not contemplated in the original plan of grading, are about two-thirds finished. A gymnasium field, 50 x 100 in area, also not contemplated in the original plan, has been partially graded. Of the original plan for grading there still remains the curbstone and paving of the Beacon street entrance, the building of steps from Dean road, repairing of fence along Dean road, tree planting in tree holes already provided, and a few minor matters.

In connection with the building of Reservoir road, considerable work has been done in adapting the Heath School lot to it. There is still considerable work of the same nature to be done.

Of the concrete park seats referred to in my last report, 26 have been placed in the Emerson Garden and 14 in the Parkway.

Two concrete sand boxes have been placed in the Emerson Garden and have been much used.

Plans and estimates of cost have been made for grading the Michael Driscoll School lot.

Bridges.

The part of the Washington street bridge over the tracks of the Boston and Albany Railroad, which supports the tracks of the Elevated Street Railway Company, was rebuilt in 1906, as it was then thought that the old bridge was too weak to safely carry the forty-ton coal cars which the Elevated Company wanted the privilege of using.

The original bridge was built in 1886, and consisted of

fifteen-inch I beams, weighing sixty-seven pounds per foot and spaced four feet on centres, with brick jack arches made of hollow brick and skew-back brick in adjoining arches so designed as to inclose the lower flange of the beams and protect them from corrosion. As the skew-back brick had insufficient strength, they began dropping off soon after the bridge was built, and so long as any remained were a source of danger to passing trains and workmen. Fortunately, however, no serious accidents have happened, as all the bricks which did not drop off have been removed, but we have lost the protection from corrosion which they were intended to give the beams, so that for many years they have been gradually deteriorating. In addition to this, the sand-blast effect produced by the exhaust steam, carrying cinders, especially on the west-bound track, has been to cut away the hollow brick in the arches and the mortar in the joints of the brickwork on the under side of the bridge, so that much of the masonry is in a bad state of disintegration and it is probable that there will be much trouble with pieces of bricks falling from the arches. In places it is probable that the disintegration does not extend very deep into the masonry, but it is very evident that much of the original strength of the masonry has gone. It is also probably true that much of the original strength of the beams has gone from the corrosion of the lower flange. There is no way of determining the extent of the loss of strength, and repairs are difficult, if not impossible, owing to the frequent passing of trains and the close proximity of the tops of the stacks of locomotives to the under side of the bridge. It is quite possible that the bridge will carry the traffic for a few years, but the writer is of the opinion that the safe course would be to rebuild it at an early date, excepting the part rebuilt in 1906, using beams which weigh eighty pounds per foot, spaced three feet on centres, with concrete arches, taking special precaution to protect the lower flanges of the beams from corrosion. The cost will be about \$6,000.

On the other bridges, advantage is taken of every opportunity to clean and paint the steel whenever the timber floors are renewed, a policy which should be kept constantly in mind. Even then, the steel does not receive all the attention

it should, but it is clear to the writer that it is a waste of labor to try to do the work at any other time. The Dean road bridge was cleaned and painted this year.

Miscellaneous.

The foundation of the extension of the wall, sections of which have been built from year to year, on the Allandale road frontage of the Walnut Hills Cemetery, has been carried across the valley to the high land. This part of the cemetery land is much lower than the level of the street. Moreover, there was a considerable deposit of mud in the bottom of the valley, so that the foundation wall, as built, was some of it as much as 22 feet high. The wall may now be completed for a distance of about 480 feet, to the land which is much above the street level.

The "open cut" on land of the town near the Heath School has been largely filled with waste materials from town land in the vicinity and from the surplus on Crafts and Reservoir roads. The Street and Health Departments have also supplied considerable material to the same end. As all the easily available sources of filling, excepting the waste from the Street and Health Departments, are now exhausted, the balance will probably have to be purchased, as was contemplated when the estimates were made. It is the purpose to surface with loam the land over the "open cut" and the adjoining land from which much of the filling was obtained.

Inasmuch as the "open cut" received surface water from an 18-inch drain from Chestnut Hill avenue, it was necessary to lay an 18-inch pipe in the bottom of the "cut" for a part of its length before the filling was deposited, and connect it with the one from Chestnut Hill avenue.

The boundary lines between Newton and Brookline were perambulated and the usual records made.

The department has prepared plans and compiled testimony for the various hearings, also for the use of the Commission in the apportionment of the Metropolitan taxes.

Considerable work has been done on the Town Map, and it is hoped that it can be published this year.

Assistants.

The following is a list of assistants connected with the department: H. A. Varney, F. A. Leavitt, C. J. Wallace, G. S. Whitehead, E. L. Barrows, R. A. Doane, W. A. Devine, H. B. Collins, J. J. Clune, A. E. Spooner, T. J. Moran, W. C. Harbour, A. A. Osborn and C. Lapham.

Respectfully submitted,

ALEXIS H. FRENCH,
Town Engineer.

REPORT OF THE SUPERINTENDENT OF STREETS AND SEWERS

January 14, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—I respectfully submit my thirty-fifth annual report of the work done and the expense incurred in the Highway Department for the year ending December 31, 1910.

The amount appropriated at the annual town meeting for
the support of highways\$110,300 00
An additional appropriation was made at the special town
meeting held Dec. 28, 1910, amounting to 1,700 00

The total amount appropriated was\$112,000 00
The total amount expended was 111,997 64

Balance unexpended \$2 36

The expenditure was for the following:

Street Cleaning.

Cleaning streets, gutters, etc.	\$8,891 17
Sectional care, labor and teaming	16,050 03
Cutting grass, etc.	1,052 10
Tools, brooms, etc.	236 48
New two-horse sweeper	240 00
	<hr/>
	\$26,469 78

Removal of Snow and Ice.

Plowing sidewalks	\$1,255 39
Shoveling snow	15,104 60
Sanding walks	943 92
Picking ice in streets, gutters, etc.	2,234 62
Breaking out roads and levelling.	358 16
Carting off snow	280 77
Repairing equipment	241 30
New tools, etc.	158 42
	<hr/>
	\$20,577 18.

Repairs and New Work.

General maintenance	\$24,630 63
New crossings and repairs	1,882 16
Guide boards and signs	403 72
Crushing stone, including running expenses of crusher and drills..	10,239 42
Permanent repairs on crusher....	594 25
Repairs, fuel and supplies for steam rollers	1,242 10
Broken stone and sand purchased	3,213 73
Holidays: Legal holidays	\$666 96

		<hr/>
		\$2,208 08
		<hr/>
Total		\$111,997 64

For further details of this expenditure reference is made to the reports of the Accountant and the Treasurer.

The streets mentioned in last year's report, which were surfaced with bituminous material, were given a light flushing coat of the same material and covered with stone screenings, which were well rolled in. Excellent results have been obtained from this treatment, except on Beacon street, between Williston and Corey roads, where conditions are not wholly satisfactory.

Beacon street, on the northerly roadway from a point opposite Essex street to a point west of Powell street, was resurfaced in May last, Tarvia X, applied by the penetration method, being used as a binder. From this last mentioned point to St. Paul street, the work was continued, the Tarvia being used in accordance with the so-called "Modern" method, in which a portion of the binder is placed on a sand or gravel cushion on the sub-grade before the surface stone is spread. The weather conditions were very unfavorable, the result being that on this last mentioned piece too much Tarvia was used, which made it necessary to apply sand and stone screenings during the ensuing hot weather until the excess was taken up. Without doubt the final results will be all the better by reason

of this excess, but this part of the road, although perfectly satisfactory for automobiles, was excessively slippery for horses during the autumn. In October the work was continued from St. Paul street to the granite paving at Pleasant street, from 10 per cent. to 15 per cent. of asphalt being added to the Tarvia. There was some apprehension that this part of the road, on account of its grade, might become slippery with this treatment, but I am glad to report that such is not the case.

Longwood avenue from Kent street to St. Paul street was resurfaced with Tarvia and asphalt for a binder. It was intended to continue the work to Harvard street, but weather conditions compelled a postponement until next season.

The extension of Cypress street from Franklin street to High street was treated in a similar manner with very good results.

Brook street, which, by reason of its flat grade, was very difficult to maintain satisfactorily, was resurfaced and treated with Tarvia X and is now in most excellent condition.

In Boylston street, west of Cypress street, new rails were laid by the Boston Elevated Railway Company, and nearly the whole length of the street was resurfaced. Chestnut Hill avenue was also resurfaced, and the Standard Oil Company's "Binder A" was applied on about 1,000 linear feet; it is proposed to continue this work as soon as weather conditions will permit.

The ordinary work of maintenance was largely increased this past season on account of the unusual amount of underground work, due in large measure to the great activity in building operations. In every case of new buildings three excavations are made for water, sewer and gas pipes, and more are frequently necessary. In many cases the public service corporations, as well as the town itself, are obliged to extend their underground structures to accommodate these buildings. After all this digging is done, it is in most cases absolutely necessary to pick over and reshape the street, and this work is generally postponed until we are reasonably sure that no more excavations will be made; it is exasperating to find after the road surface has been again put in good condition, that

some one has been neglectful and that further underground connections are necessary before the buildings can be comfortably occupied.

We have very little trouble with ravelling, but small holes form with great frequency and rapidity under the new conditions of traffic, and it is well known that the cost of repairs increases in a very rapid ratio if they are neglected. These holes were thoroughly patched on many streets with fine stone mixed with bituminous material. About 7,500 gallons were used, and the results were so good that it is proposed to keep a small force constantly employed in this work.

A sample piece of road of about 433 square yards was laid in Tappan street in front of the Municipal Gymnasium, in the construction of which Texas Macadam Binder was used. Another sample piece of about 485 square yards was laid in Gorham avenue in front of the High School, in which Pioneer Road Asphalt was used. Both pieces promise well, and we have on hand a carload of each material for further trial, which was received too late to be used this season.

It must be apparent to the most casual observer that the old type of water-bound macadam is no longer able to stand up under present methods of traffic, and that something more durable must be used on our main thoroughfares and the more important cross town roads. Our streets carry a very large and heavy traffic, which is constantly increasing, and if they are to be kept in their former good condition, liberal appropriations will be necessary. Among other matters requiring attention next season, I would mention the following: The extension of the granite block pavement in Harvard street as far at least as the southerly side of Longwood avenue and the northerly side of Green street, and for this work a special appropriation should be made. The continuation of bituminous surfacing on Beacon street, until one roadway shall have been treated for its entire length. The extension of the Tarvia surfacing on Longwood avenue to Harvard street. Bituminous surfacing on Davis avenue, Cypress and School streets, Aspinwall avenue from Harvard street to Perry street, and parts of Washington and Harvard streets. The streets on the northerly slope of Aspinwall Hill,

including University road, were the most injuriously affected by building operations last season, and need reshaping and resurfacing. I would suggest also the advisability of paving Washington street from Fire Station G to Beacon street, and the southerly portion of Washington square, with grouted granite block like that at Coolidge corner.

By vote of the town, December 28, 1910, the intersection of Washington street and Beacon street was designated "Washington square."

The guide-boards, heretofore reported to the town, which we are obliged by law to report upon each year, are maintained in sufficient number to meet the requirements of the law. Within a few weeks several of these guide-boards, as well as many street signs, which are in a dilapidated condition, will be replaced.

Street Crossings.

It is very difficult to keep the street crossings, and the roads adjacent thereto, in good condition. Many persons, particularly automobilists, would like to have them completely eliminated, but that, of course, is not to be seriously considered. Perhaps they serve a useful purpose in checking the speed of the motor cars. More than the usual amount of labor was spent on them this season, and in addition sixteen crossings of coal tar concrete and one of bricks were laid.

Permits.

During the year 1910 the following permits were issued:

Occupying streets for building purposes, erecting canopies, setting up cleaning machines, etc.....	368
Crossing sidewalks.....	178

Excavations:

Boston Consolidated Gas Company.....	293
Edison Electric Illuminating Company.....	158
Brookline Water Department.....	236
Sewers: constructing new sewers, surface drains, sewer connections, etc.....	177
New England Telephone & Telegraph Company	51

Laying granolithic, repairing sidewalks, etc.....	65
Boston Elevated Railway Company.....	57
City of Boston.....	12
Miscellaneous	29
	<hr/> 1,078
Total number of permits.....	1,624

Building Line.

At the Town Meeting, held June 1, 1910, a building line, parallel to and ten feet distant from the exterior line of the easterly side of St. Paul street, between Francis street and the property of St. Paul's Church, was accepted and allowed, and \$150.00 was appropriated to pay for land damages in connection therewith.

New Streets.

Griggs Terrace was accepted as a public way June 1, 1910. This street is thirty feet wide, and runs from a point in Griggs road, not far from Washington street, around the playground, coming out again into Griggs road at the westerly side of the playground.

Dean Road, from Chestnut Hill avenue to an extension of Crafts road, was accepted as a public way June 1, 1910. This street is fifty feet wide, and was constructed two years ago by the owner of the land, with sidewalks and planting spaces, and a stone and gravel roadway; a sewer and surface water drain, and gas and water pipes were also laid. It was offered to the town free of cost, and the owner has contributed the estimated cost (\$500.00) of its connection with the extension of Crafts road, and also \$700.00 towards the construction of the latter named street.

Crafts Road was accepted as a public way June 1, 1910. This street is fifty feet wide, and runs from that part of Crafts road accepted by the town as a public way December 28, 1904, to that part of Dean road just referred to. It has been partially constructed.

Reservoir Road was accepted as a public way June 1, 1910. This street is fifty feet wide, and runs from Boylston street northwesterly, substantially over the old Indian trail known as Reservoir lane, connecting with Reservoir road as accepted by the town March 29, 1909. Most of the sub-grading has been done, and the sewer is nearly finished. Gas and water pipes, and possibly other underground structures, are yet to be laid before the surfacing of the street can be undertaken.

Cypress Street, from Franklin street to High street, was accepted as a public way June 1, 1910. This street is sixty feet wide, and has been finished with edgestones and cinder sidewalks, and a Tarviated macadam roadway.

Dudley Street. An alteration and widening of Dudley street, from Lee street to Warren street, was accepted by the town June 1, 1910. This portion of Dudley street was widened to a minimum width of eighty feet, chiefly for the purpose of providing room for a sewer and surface water drain and other underground structures which may become necessary, and as a beginning of an important system of roads and drains which are needed for the present use and the future development of the large area east of Clyde street. It is proposed to change the name of this part of Dudley street to Lee street. The sewer and drain have been finished, and the construction of the road is under way.

An appropriation of \$55,000.00 was made to pay for land damages and the construction of the foregoing streets, and reference is made to the reports of the Treasurer and Accountant, and to that of the Town Engineer for details of the expenditure.

Cottage Farm Road, between Dummer street and Ivy street,

Worthington Road, from Essex street to Cottage Farm road,

Mason Street, from Essex street to Cottage Farm road, and

Ivy Street, from its former terminus at Essex street to Cottage Farm road, were accepted as public ways December 28, 1910.

These four streets are situated in the David Sears estate,

lying west of Essex street. They are all forty feet wide, and are finished with sidewalks, tree lawns and macadamized roadways. Sewers and surface water drains, with necessary catch-basins, were laid, as well as gas and water pipes and conduits for electric wires. The streets were constructed by the owner in a thorough manner, and were offered to the town free of cost, excepting, of course, the sewers and surface water drains.

Village Square and Washington Street.

Six driveways were laid in Washington street, and one street crossing was laid in Walnut street near Elm place, and were paid for from these special appropriations. It is desirable that certain work shall be done near the town line and in Walnut street, which should be paid for from these special appropriations rather than from the appropriation for Highways, and I therefore suggest that these accounts be kept open for the coming year.

Paving Beacon and Harvard Streets.

The most important work done in 1910 was the paving of Harvard and Beacon streets at their intersection and for a considerable distance on either side. After viewing similar work in Worcester, and comparing it with brick and other paving, it was decided to use small New Hampshire blocks, well grouted and laid on a cement base, put down according to the Hassam formula. After advertising for proposals, the contract was awarded to the Simpson Brothers Corporation for \$3.24 per square yard for the completed pavement. The contractor was to furnish everything and to do the sub-grading. The material excavated was to be delivered where directed within one-half mile, overhaul being paid for at the rate of one cent per cubic yard for each one hundred feet beyond the half mile. The town was to reset all curbstone necessary, and to furnish and set all new curbstone, repair and rebuild catch-basins, manholes, etc.

The pavement was laid in Harvard street from 100 feet south of Beacon street to 100 feet north of Beacon street,

and in Beacon street in both roadways from the end of the car reservation at Pleasant street to the easterly line of Centre street, covering an area of 8,926 square yards. It has proved very satisfactory, and many requests to have the same style of pavement laid in other places have been made. It is particularly desirable that the work shall be extended in Harvard street, southerly to Longwood avenue, and northerly to Green street. A special appropriation will be needed for this, and an estimate of the cost will be submitted.

The material excavated was used in the construction of Griggs terrace and in resurfacing York terrace and part of Pleasant street.

Laying Dust.

The amount appropriated at the annual meeting for watering streets and laying dust was \$45,000.00, of which \$44,512.44 was expended for the following:

Watering streets, paid contractors.....	\$17,112 96
Calcium chloride.....	8,266 56
Standard Oil Emulsion.....	1,459 25
Standard Oil Binder A.....	282 95
Texas Road Oil.....	1,175 95
Headley's Good Roads Dust Preventive.....	519 75
Asphaltoilene	2,169 42
Dustoline	4,311 64
Gulf Refining Co.'s "A" Oil	380 11
Tarvia "A" and "B".....	793 75
Tarvia "X".....	2,724 45
Tarite Asphalt.....	553 09
Sand	360 05
Pea stone.....	182 87
Two new watering carts.....	650 00
One A. T. C. Distributor.....	204 58
Repairs of equipment.....	65 62
Miscellaneous	474 37
Material now on hand—	
4,000 gallons Oil Emulsion.....	\$200 00
78 drums Calcium Chloride.....	227 10
	<hr/>
	427 10
Salary of Inspector.....	650 00
Automobile and equipment.....	1,624 00
Maintenance of automobile.....	223 97
	<hr/>
Total	\$44,512 44

Seventeen double teams were hired from contractors for watering those streets on which other materials were not used or where it was necessary to supplement their use with water. The rate paid was the same as heretofore, viz.: \$125.00 per team per month, and \$6.00 for each day before and after the regular season, which began May 1st and ended November 1st.

Mr. Thomas F. Cook, who had previously served for several years as clerk in the Building Department, was appointed Inspector of Street Watering, June 13, at a salary of \$100.00 per month. His services have been characterized by an unusual degree of faithfulness, and he has shown good judgment and firmness in the discharge of his duties. An improvement in the manner of doing the work was at once manifest, and complaints have been comparatively few. An automobile was bought for his use, which has enabled him to keep a close oversight on the work at all times.

Calcium Chloride was extensively used in the purely residential streets, and with a proper use of water when the humidity was low, gave satisfactory results. It has cost this year for each application about \$.0025 per square yard; nine applications per season would make the cost per square yard, exclusive of water, about \$.0225; adding the cost of watering makes the total cost per square yard for the season about \$.035.

Standard Oil Company's Emulsion has been used on part of Washington street, Heath and Hammond streets, Woodland road and a few other places. It has been successful in keeping the dust laid, but there is much objection to its use near houses. It cost us last year about \$.004 per square yard for each application.

Four loads of Standard Oil Company's Binder "A" were used late in the season on Chestnut Hill avenue, covering about 1,000 feet northerly from Boylston street. This was done just before the ground froze, and no judgment can yet be passed on its merits in this place, but it has proved very satisfactory in other places. The total cost per square yard was \$.064.

Texas Road Oil was used on Boylston street westerly from

Clinton road with satisfactory results; it is open to the same objections as the emulsions, but it does not require such frequent applications. An accurate statement of the cost per square yard for the season cannot be given at this time, but a single application cost \$.013 per square yard.

Asphaltilene was used on Newton street from a point near the High Service Pumping Station to the Newton line, covering 14,200 square yards, costing \$.06 per square yard in addition to the cost of cleaning the street and covering the oil with sand; 4,500 gallons were used in repairing work done in 1908 and 1909, in addition to 2,000 gallons which were supplied without charge to make good some unsatisfactory work done in 1909.

Dustoline, which proved so satisfactory in 1909, was used in much larger quantity this year with excellent results; it is easy of application, and lasts from three to eight weeks. Single applications cost on an average \$.004 per square yard, the first costing much more than subsequent applications.

Gulf Refining Company's A Oil was used on the northerly roadway of Beacon street between St. Mary's street and Essex street extended. The results were not wholly satisfactory, although doubtless in a less exposed road, with a smaller amount of traffic, they would be better. The same conditions were noticed here as have been noticed on park roads. The part of the road most used by automobiles irons out smoothly, while the part used by horse-drawn vehicles gets muddy, forms into ruts and frequently disintegrates.

The experience of the past year, like that of the year preceding, has been very valuable. The time has been too short to enable one to say absolutely what is best for each locality, but it has been long enough to show that some form of bituminous treatment is necessary and that the smaller the amount of water used the better for the roads.

Most of the stand-pipes are now fitted with underground valves, so that watering may be done promptly in cold weather, when weather conditions permit.

Two new watering carts and one American Tar Company's distributor were added to the equipment.

Sidewalks.

In addition to a very considerable amount of repairs and repaving, resetting edgestones, etc., by our own small force, the following work on sidewalks was done by contract, viz.:

Edgestones furnished and set (straight).....	3,366 lin. feet
Edgestones furnished and set (circular).....	594 " "
Edgestones reset.....	1,752 " "
Coal tar concrete (new).....	3,848 sq. yds.
Coal tar concrete (renewals and repairs).....	8,333 " "
Granolithic sidewalks.....	4,025 " "
Gutters, cobble stone and granite blocks.....	1,599 " "
Gutters, coal tar concrete.....	121 " "

The appropriation for sidewalks was \$17,000.00, and the expenditure, given in detail in the Accountant's and Treasurer's reports, was for the following:

Edgestones	\$4,529 55
New coal tar concrete walks.....	2,067 93
Repairing and renewing coal tar concrete walks.....	4,378 36
Plank walks, repairs, renewals and extensions.....	4,696 57
Rebuilding and repairing steps in public paths.....	309 61
Gravel walks, grading and sundries.....	1,117 36
Total	<u>\$16,999 38</u>

The allowance towards the cost of granolithic walks was fixed at 63 cents per square yard. By the terms of the contracts under which these walks are laid, payment is not due until after the work has stood the test of at least one winter's use. Nowhere, perhaps, is the unusual activity in building operations for the past year shown more clearly than in this matter of sidewalks; 4,024.9 square yards of granolithic walk have been laid, on which there will be due as soon as the winter is over \$2,535.78.

Almost all the brick sidewalks in Harvard and Village squares will need considerable attention during the coming season, and already the demand for plank walks exceeds that of all last year.

Care of Sewers.

The appropriation for the care and maintenance of sewers and drains was \$5,000.00, and \$4,193.75 was expended, most

of which was for work of the usual routine character, consisting chiefly of cleaning catch-basins, inspecting, cleaning and flushing sewers, repairing manholes, catch-basins, etc., and cleaning the various storm water channels.

The expenditure was divided as follows:

Cleaning catch-basins.....	\$2,210 31
Cleaning and repairing sewers and surface water drains	1,021 32
Inspection of sewers.....	290 32
Rebuilding and repairing catch-basins and manholes..	217 11
Labor on drain in Beacon Street playground, etc.....	241 11
Two new iron carts.....	213 10
<hr/>	
Total	\$4,193 75

JOSEPH DONOVAN

DIED

AUGUST 13, 1910

While engaged in cleaning out the siphon in the sewer in Washington street east of the railroad bridge, Joseph Donovan, an old and faithful employee of the Sewer Department, was overcome by sewer gas, and died before he could be brought to the surface of the ground. All efforts at resuscitation were of no avail. His body was recovered by members of the Fire Department, two of whom risked their lives in their efforts to rescue him. Mr. Donovan had been employed in this and similar work for more than fifteen years, and his untimely death was greatly regretted.

Surface Drainage.

Practically all the work of constructing new drains and catch-basins and new sewers is done by contract under the direction of the Town Engineer. Six catch-basins and four railroad track catch-basins were built by this department at a cost of \$670.03.

Collecting Ashes and Waste Material.

The cost of collecting ashes and refuse waste was \$25,370.26, which sum included \$4,330.36 credited to the Highway Department for use of horses, and \$1,426.73 paid for new equipment.

The expenditure was for the following:

Collecting ashes.....	\$13,897 39
Collecting paper and rubbish.....	8,060 91
Care of dumps.....	1,882 31
Repairs of carts, etc., and signs.....	102 92
New equipment, viz:	
Two new horses.....	\$605 00
Four new paper carts.....	460 00
One caravan and sideboards.....	301 95
Canvas covers.....	59 78
	<hr/>
	1,426 73
	<hr/>
Total	\$25,370 26

The increase in the amount of ashes and rubbish collected, as well as the cost thereof, is quite noticeable as compared with previous years; 22,287 loads of ashes and 10,761 loads of combustible refuse were collected, and the cost, exclusive of the new equipment, which will last for several years, was \$23,943.53, as shown above. The increase in the amount collected was due, of course, to the large number of houses completed and occupied this year. The increase in the cost is attributable partly to the larger amount of work, partly to the higher wages paid since July, and partly also to the fact that five important dumping places have been closed to us, necessitating a much longer haul. The paper and other combustible refuse is still hauled to the ledge on Hammond street,

which is quite remote from the centres of collection. It will be well, I think, to consider whether a saving cannot be effected by the use of a motor truck in conveying the loaded carts to the Hammond street lot.

No action has yet been taken on the proposition to have the waste barrels removed from backyards by the town men. Hearings have been given, and the matter is now under consideration.

The City of Boston is considering the question of a more sanitary disposition of its refuse, and parties who have made a proposition to the city have suggested that Brookline, at the proper time if conditions warrant, may be disposed to avail itself of their facilities. The incineration of our waste material is not a new subject, nor is the idea of co-operation with the city a new one. The proposition deserves careful consideration and investigation.

Sundries.

The work of petrolizing the catch-basins, pools, etc., for the extermination of the mosquitos, was done as hitherto under the direction of Mr. J. Albert C. Nyhen, the Assistant Bacteriologist, at a cost for labor of \$1,120.73, which was charged to the Health appropriation.

Sundry other work, amounting to \$249.20, was done, and the cost was charged to the various appropriations to which it belonged.

The inventory of property belonging to the department is filed with the Town Accountant.

Respectfully submitted,

MICHAEL DRISCOLL,
Superintendent of Streets.

TOWN OF BROOKLINE BUILDING DEPARTMENT

REPORT
OF THE
BUILDING COMMISSIONER
OF
BROOKLINE
MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1910

BOSTON
PRESS OF E. L. GRIMES CO., 122 PEARL STREET
1911

REPORT OF BUILDING COMMISSIONER

Brookline, Mass., December 31, 1910.

To the Board of Selectmen, Brookline, Mass.:—

Gentlemen,—I herewith submit the twenty-second annual report of the Building Department, for the year ending December 31, 1910.

The year has shown a still further increase in building operations over late years, particularly in number and value of brick apartments, but more especially in number, far more of these having been erected the past year than any previous year.

The permits for wood and frame buildings were 32 more than for last year, with an additional cost of \$286,165. Fourteen more permits for brick and stone were issued, with smaller cost of \$102,650, this decrease of cost being because of fewer large public buildings, for which permits were issued during 1910.

The total cost of building operations was \$120,495 more than 1909, and the total permits 118 more.

The work of inspection has been far more difficult than it ever has been, owing chiefly to the larger number of apartment houses built, and the fact that so many new builders started operations in Brookline under, to them, new laws, and also because of the increased use of concrete. If the year 1910 is to be a sample of what we are to expect in the future, I would strongly urge that there be an appropriation for special inspection, to be used when necessary, rather than more permanent inspectors, as in speculative building the builders usually build at the same seasons in the year.

There continues to be many new garages erected, both private and public, and probably there will be a steady increase in this class of buildings each year, and I hope and expect that the committee on the new building law will recognize this fact and provide more stringent laws, especially in regard to the public garage.

The elevator inspection has been done as usual, and very little trouble been found and these soon remedied.

Hotels and lodging houses have been inspected and some few changes made.

Several old buildings, reported as dangerous, have been condemned, and will be removed, and there are a number of others with which it is only a question of a short time before something will have to be done.

The following is a classified list of permits issued during the year:

One-Family.—Wood and Frame.

Stephen F. Johnston	39 Adams street
Julius E. Rugg	213 Babcock street
George W. Johnston	1146 Beacon street
Essie J. Earle	(not built) 92 Beals street
Florence E. Gibson.....	151 Buckminster road
A. Dudley Dowd	17 Chesham road
Emma J. Mayo	226 Clinton road
Franklin C. Henderson	229 Clinton road
Irving W. Ireland	249 Clinton road
Irving W. Ireland	255 Clinton road
A. Dudley Dowd	271 Clinton road
J. Henry Thorpe	125 Coolidge street
Nellie A. Hutchins	19 Copley street
James E. Thomas	25 Cotswold road
Dr. Z. B. Adams	43 Cottage Farm road
George A. Sagendorph	107 Crafts road
Stephen F. Johnston	16 Crowninshield road
Arthur P. Bonney.....	50 Crowninshield road
Queen J. Newkirk	57 Crowninshield road
John Lally	5 Dale street
Leonard H. Rhodes	9 Downing road
Mrs. Edward Densmore	26 Downing road
Michael J. Fahey.....	2 Elm street
Philip B. Bruce	15 Evans road
Oscar Johnson	18 Evans road
L. L. Elden	66 Evans road
Josephine F. Smith	93 Evans road
Everett M. Bowker, M. D.	322 Harvard street
R. M. Adams	447 Harvard street
W. M. Warren	28 Hawthorne road
Robert Richardson	717 Heath street
Joseph P. Burke	806 Heath street
Mrs. P. H. Lombard	Hillside road

Howard Gilmore	97	Holland road
Mrs. Stewart Burchard	84	Hyslop road
Maria Joel	51	Kilsyth road
C. A. Isenbech	109	Longwood avenue
C. A. Isenbech	115	Longwood avenue
George W. Wightman	16	Monmouth street
W. P. Knight	15	Oakland road
August Vogel		Oakland road
August Vogel		Oakland road
August Vogel		Oakland road
August Vogel		Oakland road
W. P. Wright	53	Powell street

Plumbing.

The report of the Inspector of Plumbing is as follows :

Mr. Ernest Lyon, Building Commissioner:—

Dear Sir,—I herewith submit my eighteenth annual report for the year ending December 31, 1910.

The whole number of permits issued to do plumbing was 348, a gain of 86 over the previous year. Of this number 98 were for new brick and stone buildings, 97 were for new wood and frame buildings, 131 were for additions and repairs, and 22 were for improving the drainage.

The total cost of the above plumbing was \$206,305.00, as against \$157,306.00 in 1909, a gain of \$48,999.00. This increase is due primarily to the larger number of plumbing permits issued for new buildings, 195 as compared with 110 in 1909, and incidentally to general prosperity in the building line during the past season.

The summary of the water fixtures installed in the various buildings the past year is as follows :

Water closets.....	887
Baths	756
Bowls	830
Sinks	682
Trays	432
Other fixtures.....	30
Total	3,617

Tests and inspections have been made as follows :

Water tests.....	418
Peppermint tests.....	51
Others	0
<hr/>	
Total	469
Inspections	1,639

The past year has been one of continual activity for this division of the Building Department, and much effort has been required on the part of the Inspector to meet the demands of contractors and others for information, inspections and tests.

It is believed the service rendered has been satisfactory, as no complaints have been heard.

In no previous year in the history of the Building Department have so many water fixtures been installed, 3,617, an excess of 1,211 over 1909, and of 857 over 1903, the former record year.

More inspections were required and made than ever before.

In view of the above gratifying showing, it is somewhat disappointing to state that there has been a shortage of \$5,624.00 in total cost as compared with the banner year 1903.

There was reason to believe that the past year would prove a record breaking one in point of cost as well as in installations; that our expectations were not realized is chiefly due to the fact that comparison has been made with a year notable for the number of its large and costly installations. It may be stated that installations of the latter kind were very few in number the past year.

During the year there were more permits issued to do plumbing in apartment houses than in buildings of any other class. The quality of the work done in such buildings was about the same as that of previous years; that is, as high a standard as the laws require, and very seldom any higher.

It is the writer's experience that the average builder of apartment houses is not at all fastidious about the quality of the work executed in his buildings; as long as it is done quickly and is passed by the Inspector, he is usually satisfied.

A large number of pressure boilers, as well as automatic gas water heaters, have been installed during the year.

These appliances seem to be growing in popular favor and are fast supplanting the old reliable tank fed boiler.

During the year much attention was given to seeing that all safety valves attached to pressure boilers were properly located and set.

Investigation has disclosed that within the last few years, owing chiefly to poor construction and light-weight material, several copper boilers (pressure boilers) have been torn apart by the expansive force of the hot water, although protected by safety valves.

In view of these occurrences, it seems proper to remind property owners that where conditions are similar to those just mentioned, casualties are likely to happen if safety valves are set to carry a pressure exceeding 125 pounds per square inch.

As in other years, much of the plumbing of the past year was done by persons from outside cities and towns; these people have been aided by many helpful suggestions and much valuable advice.

Mention has been made in these reports of the past few years that our present plumbing code was in need of revision; at the time of its adoption, May 22, 1903, it was thought by men experienced in such matters to compare favorably with many of the best codes in the State.

Since then considerable advances have been made in sanitary plumbing, and quite a number of changes are necessary to bring it abreast of the times.

At this writing the present code is in the hands of a committee for revision, and the time seems not far distant when the old code, having served its purpose, like every other material thing, must make its exit.

Before another of these reports appears it is confidently believed that a new code, embodying the latest and best sanitary ideas, will be in effect.

The laws have been generally well observed; but two violations of importance have come to our knowledge during the year.

Satisfactory corrections have already been made in one in-

stance, and have been deferred at the request of the householder until after the first of the New Year in the other instance.

As both transgressions appeared to be due to ignorance, rather than to any intentional desire to offend, prosecution seemed unnecessary.

Respectfully submitted,

MICHAEL DUFFLEY,
Inspector of Plumbing.

Gasfitting.

There have been no serious violations of the regulations this year. Several minor violations have occurred, which have been due to carelessness rather than intent, and were readily changed.

The whole number of applications received for permits to do gasfitting work was 924. They were divided as follows:

Changes and alterations.....	184
Buildings in which fixtures were hung.....	209
New buildings piped.....	180
Old buildings piped.....	44
Instantaneous heaters installed.....	34
Miscellaneous work.....	273
<hr/>	
Total	924

The above applications included the connecting up of 686 gas stoves and ranges, and 618 gas meters.

The Examining Board of Gasfitters did not certify anyone to me for a license. The expenses of the Board were \$5.00, paid over to the third member, as required by law.

Report of the Examiners of Gasfitters.

The following report of the Examiners of Gasfitters for the year ending December 31, 1910, is respectfully submitted:

The Board organized with the choice of Horace James as chairman, and Alfred G. Sanborn as clerk.

One meeting was held for the examination of applicants for licenses, on September 13, 1910. One applicant was ex-

amined for journeyman's license, but he failed to obtain the required percentage.

HORACE JAMES,
ERNEST LYON,
ALFRED G. SANBORN,

Board of Examiners of Gasfitters.

The following is a list of the appropriations and expenditures for the year ending December 31, 1910:

Respectfully submitted,

ERNEST LYON,
Building Commissioner.

TOWN OF BROOKLINE WEIGHTS AND MEASURES

REPORT
OF THE
SEALER OF WEIGHTS AND
MEASURES
OF
BROOKLINE
MASSACHUSETTS

FOR THE YEAR ENDING DECEMBER 31

1910

BOSTON

PRESS OF E. L. GRIMES CO., 122 PEARL STREET

1911

REPORT

Brookline, Mass., January 12, 1911.

To the Honorable Board of Selectmen:—

Gentlemen,—I herewith respectfully submit my twelfth annual report of the work of this department for the year ending December 31st, 1910.

Scales, weights and measures sealed as correct	3,526
Scales, weights and measures adjusted and sealed .	267
Scales, weights and measures condemned	35
<hr/>	
Total inspected	3,828
Store inspections	413
Peddlers' wagon inspections	81
Milk wagon inspections	58
Weighed-out packages tested at stores	209
Weighed-out packages tested at office	48
Complaints investigated	53
Ice weighings made	17
Computing scale charts verified	4
<hr/>	
Total additional inspections	883
Scales, weights and measures tested at stores	1,231
Fees collected for same and paid to the Treasurer . .	\$67.10

The above does not include some 200 berry baskets and ice cream boxes tested at the office during the year, many of which were sent by manufacturers to ascertain if their output would pass local inspection.

I have given in the foregoing table only such inspections as were recorded in the routine work of the department; many additional inspections were made in connection with my other town duties, thus adding to the efficiency of the service.

Slot Weighing Machines.

Owing to complaints against these troublesome machines, I have refused to allow them placed outside buildings in certain sections of the Town, and also in places where they would not receive adequate protection from abuse.

Office Work.

The bringing of commodities to the office by citizens for reweighing has proved of considerable assistance in pointing out where corrective measures should be applied. The increase in office hours has also greatly added to the efficiency of the department.

Changes in the laws have made it necessary to send to dealers affected thereby, several sets of circular letters, and to revise the schedule posters giving the weight and measure under which certain fruits and vegetables should be sold; these are in process of distribution, and a letter of instructions to merchants is being compiled, which, if followed, will protect them from prosecution.

Store Inspection.

The store inspections have been responsible for ferreting out many losses to the dealer as well as to the consumer, the detecting of defects in weighing and measuring devices, and the stimulating of our merchants to a greater degree of care.

Of the 209 packages tested, 36 were short in weight. With few exceptions, these were mingled with those of over-weight, indicating carelessness rather than intention.

The State Department.

This department is doing an important work in prohibiting the manufacture and sale of underweight merchandise, the accomplishing of which naturally calls for more work on the part of the local Sealers.

Coal Inspection.

Inspections for certificates of weight made	344
Loads found not certified to by a sworn weigher ..	4
Errors and omissions found on certificates	11
Loads weighed	10
Bags weighed	27
Loads found short	2
Bags found short	4

The shortage on the two loads was but forty pounds each, and considering the tolerance allowed, the coal was no doubt correctly weighed at the wharf. Some of the loads re-weighed ran as high in over-weight as 140 pounds on 4,000, 175 pounds on 3,400, and 275 pounds on 4,500 net, indicating defective scales, while the balance was enough over to show extreme caution on the part of the sworn weigher. The four bags were but a trifle short.

The law requiring coal dealers to deliver with each load a certificate of weight signed by a sworn weigher has proved most effective.

Practically all our coal comes from the city of Boston, where the strictest supervision over its weight is maintained, which, combined with the further attention given it through State and local inspections, insures our citizens unusual protection in the weight of this commodity. The town is practically free from small coal vendors, many of whom, owing to conditions of their trade, are tempted to charge exorbitant prices or give short weight. I have, therefore, discouraged the peddling of coal.

Analysis of Coal Furnished the Town.

A new form of contract was adopted by the Selectmen last April, under which all coal, excepting buckwheat, purchased by the town was subject to analysis and corrections in price for variations from an established standard of ash in the anthracite, and ash and B. T. U.'s in the bituminous. The enforcement of the terms of the contract was referred to me, and although it entailed considerable additional responsibility, the results have proved to be of immeasurable benefit to the town.

This work was started in June. After conferring with coal and fuel experts I selected P. S. Burns, Ph.D., for many years Instructor of Mechanical Chemistry at the Massachusetts Institute of Technology, as the chemist to do the analytic work

Summary of Work Done.

Anthracite.

Samples analyzed for ash values	24
Tons of coal represented	1812
Additional samples analyzed for verification	3
Samples subjected to a mechanical analysis	3
Corrections in favor of the town	\$395.75
Corrections in favor of the contractors ..	4.40

Bituminous.

Samples analyzed	6
Samples now in hands of Chemist	2
Tons represented (gross tonnage)	625
Samples subjected to a mechanical analysis	1
Corrections in favor of the town	\$99.30
Corrections in favor of the contractors	39.13

Twenty of the twenty-four samples of anthracite, representing 1,802 tons, to which the analysis applied, was practically all the furnace and stove coal furnished the town with the exception of the Water Department. Three of these samples were subjected to an additional mechanical analysis, the reports showing that although containing a fairly high percentage of ash, it was comparatively free from undesirable proportions of silica and lime, and consequently would not fuse unduly in burning. Three others from small lots were not considered, owing to error in sampling.

One sample from 107 tons of buckwheat, not purchased under the terms of the contract, was taken to ascertain if the town was receiving a good quality. This showed an ash value of 18.05 per cent.

Eighteen of the twenty samples referred to showed ash above the established standard, varying in value from 0.53 to 6.30 per cent., while two were 0.60 and 1.33 per cent. below.

It must not be inferred from the foregoing that the coal which contained ash in excess of the established standard was necessarily poor coal, for coal may contain a seemingly high percentage of ash and be free from other undesirable qualities, but as it requires more of such coal to maintain the heat efficiency, the ash must be considered as the potent factor

in determining its commercial value. Neither must it be inferred that the ash standard established is too exacting for fair competition, for the quality enters so largely into the competitive price as to adjust it accordingly, thereby giving contractors equal opportunity to bid upon a stated basis, at the same time eliminating competition with coals of inferior grades by making it unprofitable for a dealer to substitute them.

The six samples of bituminous coal represented practically all the soft coal furnished the Heating and Lighting Plant and the larger part of that furnished the Highway Department. The ash of these samples were all in excess of the established standard to the extent of 1.16 per cent. to 7.06 per cent., and the B. T. U.'s varied from 940 below to 1,020 above, while the volatile matter and moisture were so low as to show a higher B. T. U. value than the ash implied. The coal represented by two samples was subject to a correction in favor of the contractor, while that of the remaining four, in favor of the town.

The results of the analysis as referred to above indicate that the soft coal came from the same mine, was of relatively high heating value and of good quality, except when it contained excessive slate and lime.

In view of the applications received at this office to test the quality of coal furnished consumers, it seems advisable to state that work of this nature is entirely a commercial problem, and therefore is not eligible for consideration by a town officer.

Measurer of Wood and Bark.

On complaints, I have measured five lots of kindling wood, two of split wood, two of manure, two of loam and one of gravel. Two lots of kindling wood resulted in corrections favoring the purchasers.

In addition, I have measured several lots of kindling and split wood in order to stop sharp practices in the sale of these commodities.

Inspection of Petroleum.

As Inspector of Petroleum, I have had no requests for testing petroleum products the past year, but have endeavored to see that such products were properly stored. In only one case have I had any difficulty in getting the dealer to make such changes in storing as seemed advisable for the protection from accident and fire, and again I recommend that some town by-law be enacted which would place petroleum and its products under a closer supervision.

Respectfully submitted,

WILLARD E. WARD,

Sealer of Weights and Measures.

TOWN OF BROOKLINE GYMNASIUM AND BATHS

FOURTEENTH ANNUAL REPORT
OF THE
GYMNASIUM AND BATHS

AUGUSTA G. WILLIAMS, M. D.

REPORT

Brookline, Mass., December 31, 1910.

To the Honorable Board of Selectmen:—

Gentlemen,—The Gymnasium and Baths Committee respectfully present their fourteenth report, which covers a period of twelve months. The total number of baths was 68,890. For eleven months in the previous year, the number was 62,770, as against twelve months in the present year, showing an increase of 6,120. The attendance at the gymnasium was 24,410, a loss over the previous year. The grand total of attendance was 93,300. This does not include attendance of high school pupils at the gymnasium.

Expressing	275 33
Laundry supplies	110 83
Soap (for bath house use)	128 00
Gymnasium apparatus	475 34
Furniture	203 75
Total	\$22,695 99

Expenditures and Receipts.

The total appropriation for the year, beginning January 1st, 1910, and ending December 31st, 1910, was \$23,711.00. Of this amount, \$22,695.99 was expended, leaving an unexpended balance of \$1,015.01. The total receipts were \$9,302.20 and crediting \$766.67, which represents the laundry work done for the town, we get a total of \$10,068.87. Deducting this amount from \$22,695.99 we find the net cost to the town, exclusive of lighting and heating, was \$12,627.12.

Sunday Attendance at Bath House.

The Bath House was opened Sunday mornings in July and August with a total attendance of 446, or an average of 49 5-9.

Report of the Work Done for the Little Children at the Bath House.

The fifth season was as satisfactory as the earlier ones. A large number of small boys came during the periods for other boys in the large tank. This is the second season that these baths have been given. The number of periods was seventeen. The total number of baths 1714; 646 being girls and 1068 boys.

This beneficial work, which was begun by Dr. Augusta G. Williams, as a private means of helping the little children, has now been taken over by the committee.

Estimate of Appropriation for 1911.

Salaries	\$15,745 00

Brookline Gymnasium Athletic Association.

The Association has had a successful year, taking part in many athletic events, and winning a creditable number of prizes. The directors and the Director of the Gymnasium and Baths have been able to keep the management of its affairs on a high plane. If they can prove that athletic competitions can be freed from professionalism, and conducted as a means of recreation for gentlemen, they will be doing a service to the public. The effort of the Director to make athletics a part of a general scheme of physical training, or a means to an end, and not an end in itself, is most commendable, and must receive our hearty endorsement. The affiliation of the Association with the Gymnasium and Baths affords a practical means of co-ordinating all the activities of that organization that would not be easily possible otherwise, and the committee will be glad to co-operate in any way that may be in their power.

Repairs and Improvements.

The most important things done during the past year have been altering and repairing electric lights and fixtures; repairing and renewing wood-work in the Bath House; carpenter work, plumbing, and general repairing in the Gymnasium and Bath House; refinishing the floor in the Gymnasium, and laying new floor in the exercise-room. There must of necessity be many small repairs in buildings which receive such constant and severe usage. This is especially true in the Bath House, which is subjected to the injurious effects of steam and heat practically every week-day in the year. To prevent a considerable outlay for large repairs, minor repairs must be faithfully made at once when occasion demands.

The Use of the Parks for Recreation and Play.

The Park Commissioners are making most commendable efforts to further develop the Parks for recreation and play. Several years ago, before the erection of the Gymnasium, the Chairman of this committee suggested a plan for bringing physical training in the schools; sports and plays on public playgrounds and parks; general town athletics and the work of the gymnasium and baths, into one organization, with the gym-

nasium as the central point of management. While such a plan has so far not been feasible, in the future it may be worthy of consideration. At present we should do all in our power to co-operate with the Park Commissioners, and if they so desire, assist them in the development and supervision of the work. We have already indicated our willingness to aid them by a vote passed at our December meeting.

General Remarks.

We recommend that the town by-laws pertaining to the appointment of a committee on Gymnasium and Baths be changed so that the committee appointed by the Selectmen for this purpose shall consist of not less than three, or more than five members, as the Selectmen may determine, instead of nine members as at present.

During the year, the Gymnasium and Baths have been visited daily by hundreds of persons. They have been veritable beehives of activity, little realized by those who have not seen it. Little children, large children, adults, pupils from the high school, come and go morning, afternoon and evening. A large number of athletes make full use of the exercise room and the various facilities. The room for the athletic teams, often filled with enthusiastic groups of boys, has been a pleasant sight, as illustrating one of the many uses to which a gymnasium can be put.

The Baths have been more popular than ever, as shown by the increased number in attendance, and the interest in swimming has been stimulated by the recent appointment of Mr. Matthew Mann as Instructor in Swimming.

Eight exhibitions altogether have been held in both departments. Thousands of persons have attended them, and there would have been many more, if there had been room for them.

Physical education is still in its infancy, but is rapidly becoming more and more important as a means of preparation for life. We should be able and ready to meet all reasonable demands of those who seek help to improve their physical condition. The Gymnasium and Baths should be the most popular centre of interest in the town, for health and happiness go together.

Mr. Matthew Mann assumed charge of the swimming instruction in the summer, and in the early winter was appointed instructor. In November Miss Beatrice K. A. Street resigned as swimming instructor, a position she had held a large part of the time since the opening of the Bath House. Mr. Radford J. McCormick resigned in the summer after a service of several years.

The Committee and Director are always much pleased to have citizens of the town visit the Gymnasium and Baths and will regard it as a privilege to explain what is being done, and what it is hoped to do.

Full particulars of the work may be found in the report of the Director.

Very respectfully,

WALTER CHANNING, *Chairman.*

AUGUSTA G. WILLIAMS, *Secretary.*

JOHN A. CURTIN,

Gymnasium and Baths Committee.

RETIREMENT OF DR. WALTER CHANNING AS CHAIRMAN AND MEMBER.

The members of the Brookline Gymnasium and Baths Committee, upon the retirement of Dr. Walter Channing as Chairman and member, wish to express their hearty appreciation of all that he has done for this community in leading and co-operating in all matters connected with the development of our municipal baths and gymnasium. As a leader of the best thought in bringing a community to realize the importance of health and hygiene he has taken in this country a place which is perhaps best recorded by calling attention to the splendid municipal plant built by the citizens of this town largely as a result of their acceptance of the advanced thought which he has so continuously and untiringly prevailed upon his fellow townsmen to adopt.

His civic service should be an inspiration to the thousands of youths of both sexes, who are to benefit from the institution of which he has been the head for so many years, that they may in a public-spirited manner serve in whatever community they may hereafter live.

AUGUSTA G. WILLIAMS, M. D.,	MICHAEL J. O'HEARN,
H. LINCOLN CHASE, M. D.,	G. LORING BRIGGS,
ALFRED D. CHANDLER,	ELIN A. LUNDBERG,
FAYETTE F. FORBES,	JOHN A. CURTIN.

Standing Committees.

Almshouse, Miss Train, Miss Edgerly, Mr. James, Dr. Bowker.
Sick Poor, Miss Edgerly, Dr. Bowker.

REPORT

At the Town Meeting held on December 28, 1910, it was necessary to ask for an additional appropriation of nine hundred dollars for the support of the poor for the reasons stated in the report on the article, as follows:—

The average attendance at the Almshouse has been slightly larger than was anticipated, and more has had to be spent for out-door relief. Also it has been necessary to purchase a new horse to do the work at the Almshouse and the contagious hospital, \$125.00, or a part of the price, being charged to this appropriation. Some immediate repairs and renovations were needed at the Almshouse upon the change of administration in September last.

The Almshouse.

The number of inmates of the Almshouse is the same as at the beginning of last year, twelve men and four women. There have been several changes among them, however. Three persons have been admitted for the first time during the past year, and three others have been discharged or transferred to the State Hospital at Tewksbury. The average daily attendance is somewhat larger than last year.

On September 1st, 1910, the resignation of Mr. and Mrs. Esty, who had filled the position of warden and matron for twelve years very satisfactorily, took effect, and they left Brookline to take up their residence in a neighboring town. The Board has been fortunate in securing the services of an excellent man and his wife, Mr. and Mrs. William R. Pulley. They have had a varied experience in institutional work and since their appointment they have proven to be efficient and satisfactory in every way in their respective departments.

The Almshouse was built twenty-seven years ago and as an old building needs from time to time some extensive repairs and some changes and improvements to bring it up to the requirements of the times and the number of inmates, which shows a slow but steady increase. It is partly on account of

such repairs and improvements that the expense of maintaining the Almshouse the past year has been greater than usual.

Out-Door Relief.

The number of families who have received out-door relief is about the same as last year but the amount expended is somewhat larger. The Board has in several cases found it wise to increase the amount of orders for groceries in consideration of the prevalence of the higher prices of food.

During the year five families, consisting of a widowed or deserted mother and children, who have been aided for several years, have been able to dispense with out-door relief and are now self supporting.

Sick.

This part of our report shows a larger increase over former years, both in number and expense, forty-one persons having received aid on account of sickness. Of these a very large proportion are persons who have a settlement in Brookline but are not living here at present. For this reason the Board has very little power to regulate this class of expenditure.

Children.

Two children have been cared for by the town during the year, one of these will probably in future be self supporting. There are two Brookline children at the School for the Feeble Minded at Waverley, now cared for by the State.

District Nurse.

A part of the salary of the District Nurse has been paid by the Overseers of the Poor.

Chapter 412 of the Acts of the Legislature of 1910 prohibits the publication in the report of the names of persons assisted in any way by the Poor Department, and therefore the names of the inmates at the Almshouse and those otherwise receiving aid are omitted this year.

Summary of Expenditures and Receipts, 1910.

Almshouse	\$3,854 80
Children	265 71
Outdoor relief, regular	\$1,549 53

*The reimbursements for Poor are not credited to the appropriation.

Appropriation.

An appropriation of ten thousand dollars is recommended for the ensuing fiscal year. The total appropriations made last year for the support of the poor were \$8,900.00. It will be necessary to have this amount this year and in addition about eleven hundred dollars to provide for some necessary alterations, repairs and furnishings at the Almshouse.

Respectfully submitted,

REPORT

January 1, 1911.

Work Accomplished During 1910.

Maintenance.

Last year's report contained a full account of the methods adopted by the Board for killing insect pests which have during recent years attacked the woodlands and trees and shrubs of the town.

The work of spraying was continued along the parkway and in public grounds and in portions of Putterham Woods.

The receipts for spraying grounds outside of those under this department amounted to \$596.49.

There is evidently no other means by which our trees can be saved than by spraying. The Elm-tree beetles have been more numerous than ever in the town during the past season, and unless their ravages are checked by some natural enemy or climatic condition, it is apparent that the Elms in Eastern Massachusetts which are not sprayed must perish in the course of a few years through the destruction of the foliage by these insects. The injury to trees has been increased by the small rainfall of the last two or three seasons.

The brown-tail moth is, on the whole, less abundant than it was a few years ago, but as the moths are light and are carried a long distance by the wind, an inroad of them into the town may be expected during the month of September of any year. Large swarms of the moths were blown during the past year into Jamaica Plain and other parts of Boston, which had been free of this pest for a number of years.

While many of the large colonies of the gypsy moth have been destroyed in the town, it is probably true that this insect is more generally scattered through the town than it ever

has been before, single nests or small colonies being found almost everywhere. Your Commission has depended entirely on spraying for keeping this insect in check, and in the last two years has not undertaken to destroy the egg-clusters, except in the case of small isolated colonies in the interior of the Putterham Woods. So far as we have been able to observe, the natural enemies of this insect have not increased, and we shall have to depend on spraying to keep it in check.

The preliminary thinning of the trees on the town property at the corner of Newton and Hammond streets has now been finished. All the dead, diseased and most of the misshapen trees have been cut out. A good deal of pruning must be done on the trees which are left, and there will be a few trees to cut from time to time. The thinning of these woods will make it easier to destroy insects in them by spraying if they are ever seriously invaded by the gypsy and brown-tail moths. Planting open spaces in these woods with young White Pines and Hemlocks has been begun on a small scale during the year, and this can be continued with advantage.

Your Commission takes much satisfaction in the condition of the trees planted along the parkway from the corner of Chestnut street to St. Mary's street. There are many fine young Oak trees in this plantation, including Red Oaks, Pin Oaks, Scarlet Oaks, Black Oaks, White Oaks, Swamp Oaks, Bur Oaks and Chestnut Oaks. These trees have grown rapidly, and if they are cared for during the next fifty years we believe that Brookline will have reason to be proud of its park trees.

Special Work.

Beacon Playground. In 1909 this playground, which is in the rear of All Saints Church, at the corner of Dean road and Beacon street, was stripped of its loam and prepared for grading. A masonry conduit to carry the flow of the brook which passes through the length of the grounds had been previously constructed by the town. The filling of the low portions of the playground was then begun; this filling cost the town very little, as it was contributed from the surplus of the excava-

tions by the Metropolitan Water and Sewerage Board, in the neighborhood and from sewer trenches. In 1910 the excavation of the higher portions of the grounds was commenced, under the direction of the Town Engineer, and the playground gradually brought to a practically level grade. Loam from the original loam piles was respread and additional loam purchased to complete the surface. While construction was in progress, it was determined to add the feature of tennis courts, these having been frequently urged by many citizens. The playground, which is the largest one in Brookline, prepared for use, contains 5.7 acres. Some work still remains to be done, and the funds necessary to carry it out are described under the head of Appropriations.

Steam Roller. A small Buffalo Pitts Tandem Steam Roller was purchased early in the year, and has performed valuable and economical work in rolling driveways and playgrounds.

Heath School Lot. An important improvement has been made in the Heath School grounds in connection with the rebuilding of

Reservoir Lane. The deep gully to the north of the school has been partly filled, and a portion of the grounds near Boylston street has been raised to the level of the street. The work is not yet completed.

Emerson Garden. This attractive garden has been opened to the public and has been much appreciated. Several concrete settees of special design were placed around the walk, and a large number of shrubs and some trees planted. It is the intention of the Board to plant a few more trees there during the coming spring, but the construction account has been closed. The grounds are intended for particularly young children and those desiring a quiet resting place, and not for rough games.

Skating.

Opportunities for skating have not been as numerous as is desirable, and the Board has given much time and consideration to this important question. There are not many sports

available during the winter in Brookline. Among them there is no exercise which should be more encouraged than that of skating. It brings health to the body and refreshing vigor to the mind. No pains should be spared in cultivating its enjoyment in as many parts of the town as practicable.

The addition of Brookline Reservoir has proved valuable for skating, but this reservoir, owing to its great depth, is often dangerous and is exposed to the full sweep of the winds.

Snow often obstructs all the efforts of the Board to maintain a skating surface. A considerable amount of money has been expended in the endeavor to provide skating on the Cypress Street Playground, but these attempts have never, for a variety of reasons, proved successful.

Towards the latter part of the year, however, a new experiment was made under the charge of Mr. A. W. Bannwart, who believed that he had solved the proper method of creating and maintaining good skating on any fairly level surface. At his suggestion the Board laid a 2½-inch pipe from Tappan street to the centre of Cypress Street Playground. The pipe was laid below the frost and was provided with proper shut-off valves. At its terminus the pipe was brought to the surface and so arranged that a hose could be attached. An electric pole, carrying a powerful arc light, was also provided at this point. On cold nights the surrounding ground was sprayed, and in the morning the ice so formed was ready for skating. As there is no water under the ice, the smallest children are perfectly safe, and large numbers have enjoyed the sport already. The Board is convinced of the success of the method and its comparatively low cost, and has included the sum of \$2,000 in the Maintenance appropriation for extending this method of providing skating to other portions of the town.

Saddle Path.

During the past year, and at the request of a number of citizens, a saddle path has been opened through the Putterham Woods under charge of the Board. This is a beautiful path about a mile in length. One end opens from Newton

street at the Jerry Bond place, nearly opposite South street, and the other end is on Hammond street, not far from the Crusher Plant, between Woodland road and Newton street; it extends over some of the most picturesque and best wooded knolls in this area. A very little more work will finish the path. There are probably comparatively few citizens who are aware of the beauty of the Putterham Woods which were purchased some years ago. A comparatively short walk from the Country Club will bring the visitor to the path, and it leads through a charming wilderness. There are several spots where the birches, hemlocks and pines combine to heighten the enjoyment of the lover of nature.

	Total.....	6,967,967	160.0	\$338,729 49
TOTAL COST OF LAND FOR PARKS.....				\$273,149 47
TOTAL COST OF LAND FOR PLAYGROUNDS.....				436,597 44

* Construction and other expenses \$387,881.89, making total cost of Riverdale Parkway \$518,822.95.

† In addition to this amount \$50,000 was contributed by abutters.

Besides Brookline Reservoir, 292,000 sq. ft. of land was included in this purchase near Reservoir Lane.

‡ \$12,800 were contributed by abutters in addition, making total cost of \$30,800.

The Devotion lot has been left out of the above table because it was purchased for school and other purposes.

In addition to the above land purchased by the town and abutters, a considerable amount of land has been given to the town. In 1893 Mr. Leonard Stone gave to the town the "Horse Shoe Lot," so called, on Linden place. This land, containing 9,500 square feet, was afterwards filled, graded and improved. On December 27, 1897, the Heirs of Marshal Stearns contributed Saint Mark's square at the corner of Park and Marion streets. On May 25, 1899, Linden park, containing 14,200 square feet, a triangular piece of land on Linden place, was given to the town for a park, and was accepted April 11, 1900. On November 20, 1901, the residents around Upland road triangle, containing 11,861 square feet, contributed \$2,500.00, and the town \$2,500.00 towards the purchase and transfer of this valuable piece of land to the town. In 1902 the Heirs of David Sears gave to the town the following parcels to be used as parks, "but not as playgrounds or as sites for public buildings":

Longwood square	112,586 sq. ft.
Winthrop square	46,465 " "
Knyvet square	122,160 " "
Mason square	48,000 " " "
<hr/>	
Total	329,211 " "

On June 19, 1902, the town appropriated \$2,000.00 and the abutters contributed the remainder, for the purchase of two triangles on Babcock street, one containing 6,247 square feet at the junction of Freeman street, and the other 6,700 square feet at the junction of Dwight street.

APPROPRIATIONS.

The appropriations required for the coming year are as follows:

Maintenance.

For maintenance of Parkway, Parks and all Public Grounds.

Last Year.	This Year.	Increase.
\$19,000	\$18,000	\$1000
	2,000 extra for skating	

Total.....\$20,000

Construction.

1. For grading and preparing the grounds connected with the Michael Driscoll School on Westbourne Terrace.....	\$23,000
2. For finishing Beacon Street Playground and erecting a house thereon	10,500
3. For building a wall and planting the grounds around the New Public Library	8,628
4. For building a Band Stand	6,000
5. For grading and finishing Heath School grounds in connection with the building of Reservoir Lane	1,200
6. Improving school grounds and miscellaneous	1,200
Total	\$50,328

The total amount asked for under the head of Maintenance is \$1,000 in excess of that appropriated for the past year, due to the fact that skating upon the Cypress Street Playground has proved to be such a popular and successful recreation that it is the intention of the Board, with the consent of the town, to extend the facilities for skating to several of the playgrounds during the coming year. The sum of \$2,000 for this purpose has been included in the estimate, leaving \$18,000 for the usual maintenance of all the public grounds in the town, which is \$1,000 less than the amount appropriated for the present year.

Construction.

Michael Driscoll School. \$23,000. The site of this new schoolhouse, now under construction, is on the lower slope of Corey Hill. The land was secured at a very low price

considering its central location, but owing to its slope it will require the expenditure of a considerable sum to grade and finish it in a first-class manner. After mature consideration it was determined that it was much better for the town to do all the work necessary to make all the land around the school owned by the town available for a playground at once, rather than to leave any part unfinished. The advantages are obvious; the total cost to the town will be less and the children will have the advantage of an excellent playground rather than one of restricted dimensions, to say nothing of the advantages accruing to the town from creating at once attractive surroundings for the school. The plan by the Town Engineer includes the building of a masonry wall around the lower portions of the area, against which would be filled the materials excavated from the higher portions to provide a playground as nearly level as practicable. From Westbourne terrace a slope would descend to the playground. Owing to the difficult situation of the school it will be necessary to grade and finish a liberal area of driveway and walks, and to pass in a substantial manner that portion used for the delivery of coal. On the westerly portion the plan includes a small and attractive playground for girls. A substantial iron fence around the whole area has been included in the estimate. The Board considers this fence necessary on the wall for safety of the children, and on the northerly portion to protect the grounds. With the suitable planting of the grounds the grading and finishing of the area will be left in a suitable and finished condition. The cost is somewhat increased by the fact that there is no loam upon the site.

Beacon Playground. \$10,500. The estimate for completing the grading of this playground proved insufficient last year because a bank of very hard gravel, which it was necessary to remove, was encountered and its removal cost considerably more than the estimates had provided for. The cost was further increased by the grading needed for three tennis courts. The Park Commissioners have received numerous requests to build tennis courts in Brookline. They are much needed, as those who are fond of this popular game are obliged to go long distances to secure courts within their means. The

central position of the Beacon Playground and its ample size seem to make tennis courts on this playground especially desirable. The courts here are now sub-graded, and it is proposed also to established near them an open-air gymnasium plant. Before the tennis courts and this gymnasium can be used a sanitary building is an absolute necessity. There is no sanitary of any kind on the playground, where it is also needed by boys playing ball in summer and skating in winter. In addition to sanitary arrangements the building should contain lockers used by tennis players, an opportunity for persons to check small bags, bundles, etc. A plan and estimates have been made for such a building, and the sum of \$7,000 has been added to the \$3,500, which are necessary to complete the tennis courts, supply gymnastic apparatus and otherwise finish the playground.

Public Library Grounds. \$8,628. The grounds around the Public Library building recently completed, require to be planted, and there are certain other improvements which the Park Commissioners recommend. The principal of these is the construction of a suitable wall with coping around those portions of the grounds not now supplied. The Town Hall and the Police Station and the immediate front of the Library are now provided with walls, and the continuation of these walls all around the remaining portions of the town land as far as the Pierce School will be necessary to complete the effect and to protect the grounds from persons who desire to pass in every direction. It has been decided, after careful investigation, to discontinue the driveway on the easterly portion of the grounds and to turn this area into lawn. At the junction with the playground of the Pierce School a still more important improvement is contemplated. The restricted area now provided for this school has been the frequent subject of criticism. It is proposed to add to the school grounds all that portion of the Library lot lying between the brick walk and the playground and to build a wall surmounted by an iron fence upon the outside line of the walk. The sum of \$2,500 is which has been added to the estimate for planting, loaming, seeding and finishing the grounds.

Band Stand. \$6,000. The necessity for a permanent and suitable band stand for the town has been the subject of numerous discussions and petitions. After earnest solicitations the Board two years ago presented a plan for a fine fire-proof band stand, which will be in keeping with the requirements of the town, present and prospective. This structure included a basement for various requirements, and its size was sufficient to provide for a large number of performers. With the size reduced and by practicing other economies the Park Commissioners believe that a suitable structure can be erected for \$6,000, and they have included this sum in the estimates.

Heath Street Grounds. \$1,200. The construction of Reservoir lane will require some grading upon the adjoining land connected with this school, and the placing of loam. The Town Engineer's estimate for completing this work is \$1,200.

School Grounds, Etc. \$1,000. The sum of \$500 is generally included in these estimates, for work which is likely to be called for in the way of fencing or improving school grounds; to provide a contingent fund for matters which are likely to arise unexpectedly during the year the sum of \$500 is added.

Respectfully submitted,

DESMOND FITZGERALD,

CHARLES S. SARGENT,

ALBERT L. LINCOLN,

Park Commissioners.

COMMITTEE ON PLANTING TREES.

Organization, 1910.

(Elected Annually.)

ERNEST B. DANE, *Chairman*,

EMMA G. CUMMINGS,

D. BLAKELY HOAR.

DANIEL G. LACY, *Superintendent*.

HELEN M. RICK, *Stenographer*.

REPORT OF THE COMMITTEE ON PLANTING TREES

Brookline, Mass., January 2, 1911.

During the year 1910 the work of pruning and taking out worthless trees was continued, and good progress was made, the trees in approximately one-third of the town having been cared for.

The Committee wishes to continue this work another year, believing it wise to spend most of the appropriation in caring for the trees that we now have, setting out new trees only along new streets and replacing those dead or injured, and we recommend an appropriation of \$7,500 for planting and preserving trees.

Gypsy and Brown Tail Moths.

Spraying operations were carried on during part of the months of May and June, as suggested in the year 1909; that is, in 1909 the residential or the easterly section of the town was carefully sprayed, and in 1910 the westerly part of the town was sprayed.

The Committee felt that it could well afford to spray half of the area each year, thereby saving expense and giving the trees one year's rest. The result has been as anticipated; that is, in the section of the town where spraying operations were carried on in 1909 there were not sufficient caterpillars to do any damage in the year 1910, but enough to produce large quantities of egg-clusters in the fall of 1910. With this in view and with the increased efficiency of the work, your Committee feels that during the year 1911, with the addition of two new sprayers, the greater part of the town can be sprayed. We therefore advise an increase of \$9,000.00 over last year's appropriation of \$15,000.00 to purchase and operate the additional equipment necessary, making a total appropriation of \$24,000.00, which we recommend to carry on the gypsy and

brown tail moth work during the ensuing year. We receive more requests each year to do work on private property, most of which is paid for by the owners, the money so paid going directly into the Town Treasury.

During the past year \$6,257.27 was paid in this way, and during the ensuing year it is likely that work done on private property will amount to \$10,000 or \$12,000.

Research work is still being carried on by the Government officials and by Harvard College. In June the fungus parasite of the gypsy moth was planted in two different sections of the town, and we hope to see good results this coming season.

We enclose copy of Superintendent Lacy's report for the work of the past year.

Respectfully submitted,

ERNEST B. DANE,

EMMA G. CUMMINGS,

D. BLAKELY HOAR.

REPORT OF SUPERINTENDENT.

Town Hall, Brookline, January 2, 1911.

To the Committee on Planting Trees:—

The following is the annual report of the work done and the expenditures for the fiscal year ending December 31, 1910.

Appropriation for planting and preserving trees.....\$7,500 00

Expenditures:	1910.
Superintendence and office supplies.....	\$1,234 56
Pruning and removing trees.....	3,914 11
Preparing holes and planting trees.....	820 98
Teaming	201 06
Wire guards	271 62
Watering trees	98 94
Automobile, one-half expense.....	230 20
Holiday time	190 86
Injured men	57 75
Tools, poles and emergency work.....	474 46
Total amount expended.....	\$7,494 54
Balance unexpended	5 46

The roadside trees were pruned in the section of the town south of Beacon street from St. Mary's street to Clyde street.

Early in the season a careful examination was made of all the trees in the district bounded by St. Mary's, Beacon, Park and Washington streets, and the Committee directed the removal of a number of worthless trees. The removal of these trees has very much improved the appearance of the streets and affords the remaining trees a better opportunity for proper development as roadside trees.

Roadside trees were planted on Downing and Atherton roads, York terrace and on those streets where, through accident, trees were injured and had been removed.

Tree holes have been prepared so that planting can be done early next season on Mountfort and Essex streets, and on Spooner road.

The elm leaf beetle still continues to be a serious menace to our elm trees; the infestation this past season necessitated spraying the elms a second time. This work was done in the latter part of June, in conjunction with the spraying for gypsy and brown tail moths and was paid for from this appropriation. The results accomplished by this second spraying justified the additional expenditure, and I would recommend that provision be made for spraying the elm trees twice during the coming year.

The Leopard Moth has made its appearance in Brookline. This moth begins to appear during the early part of June and continues his work until September. The eggs are placed in the crevices of the bark of the trees. The caterpillar makes its way through the bark into the woody tissue, and always bores towards the main trunk. The caterpillar is usually detected after having girdled the small branch where he entered. These branches as soon as girdled break off very easily. It requires two years for the caterpillar to attain its full size. This insect does not feed on the foliage, and consequently arsenical poison is ineffective. The past season we have carefully examined the trees during pruning operations, and wherever the limbs were girdled and hanging, careful search was made for the caterpillar by probing.

In some sections of the town the phenacoccus (mealy bug) infests the maple trees. During the early spring these trees will be treated with the proper emulsion used for sap suckers.

The attention of the Edison Electric Light Company was called to the dangerous conditions resulting from the insulation being worn off the heavy voltage wires running through the trees. Satisfactory arrangements have been made with the company whereby, at its expense, proper insulators will be placed on the wires and trees, thus preventing in a large measure further damage.

The need of placing wires underground is believed by this department to be more imperative each year. There are a number of streets where the leaders of roadside trees are

just reaching the height of the wires. This condition results in some very well developed trees losing their leaders and consequently gives the trees a "headed in" appearance.

The drought of the past summer was very severe, and brings forcibly to our consideration the question of whether it would not be well to include about \$300.00 additional in our appropriation for watering the recently planted roadside trees. With the methods now adopted for constructing roads and sidewalks, roadside trees find it very difficult to secure enough nutriment, and I believe that the results accomplished will justify the expenditure of this amount.

A horse and wagon formerly used by Mr. Davis of the Wire Department was transferred to our department in December. With the addition of this equipment the efficiency of the work will be very much increased.

Warren Tree Fund.

Amount of income on hand.....	\$151 79
Paid Bernard Malone, for loam.....	149 91
Balance	\$1 88

Comparison of Estimates for 1911 with Expense of 1910.

	Recommended 1911.	Expended 1910.

Holiday time		190 86
	<hr/> \$7,500 00	<hr/> \$7,499 79

Suppression of Gypsy and Brown Tail Moths.

The work of suppressing gypsy and brown tail moths was continued as recommended by the Committee in its last annual report. The department is equipped with three large Church

power sprayers, one Olds power sprayer and last season had the use of one large Church power sprayer, the property of Ernest B. Dane, Esq., who kindly loaned it for use in connection with our regular work. Spraying operations were begun on May 17, and were continued until about June 25. We had considerable rainy weather during the spraying season, and it was found advisable to spray some of the trees a second time. All the roadside trees were sprayed as well as the section of the town bounded by Warren and Boylston streets, Chestnut Hill avenue and the railroad location south. In addition to covering the above mentioned territory all requests for spraying in the residential section of the town were attended to. Considerable work was also done by the owners of large estates, who had their own spraying apparatus.

The operations were carried on with two shifts of men, the first crew going to work at 4 A. M. and working until noon, and the second beginning at noon. Each shift worked eight hours only. It was the long hours during which the spraying operations were continued that enabled the department to cover so much more area than was originally outlined, and should we in another year find the infestation a very serious one the same policy with satisfactory results can again be carried on.

During the coming season I believe that with the present equipment owned by the town, and with the addition of two new power sprayers, the purchase of which was authorized at the town meeting on December 28, the entire town can be sprayed, beginning the work as we did two years ago in the residential section.

In our notice sent to property owners regarding the gypsy moth situation, a paragraph is always inserted requesting the owners of property, should the work be done by private parties, to notify this department so that the premises may be inspected. In following out this plan it gives the town an opportunity to place definitely any responsibility for poor work, thus enabling the department to act accordingly.

This past summer we had a very extensive flight of brown tail moths. The infestation is very serious in the residential

part of the town, and particularly on the north side of Beacon street along the Brighton line.

The amount appropriated at the annual town meeting for the suppression of gypsy and brown tail moths was \$15,000.00, and the comparison of the expenditures of the past year follows, with an estimate for the ensuing year :

	Recommended 1911.	Expended 1910.
Superintendence, clerk and office supplies	\$1,800 00	\$1,742 86
Spraying, labor and material.....	14,850 00	9,036 13
Hose, etc.	1,300 00	200 00
Creosoting and removing brown tail moths	3,000 00	2,622 47
Automobile, one-half expense.....	200 00	290 69
Inspection		50 16
Two sprayers (new)	2,350 00	
Miscellaneous, tools, teaming, burlapping	500 00	1,046 05
	<hr/>	<hr/>
	\$24,000 00	\$14,988 36

The amount of the bills rendered for work done on private property during the past year was \$7,201.59, and the amount paid up to January 1st, 1911, was \$6,274.76.

There is a balance due the town from property owners amounting to \$926.83, and work has been done during the past two months on private property amounting to \$959.77, bills for which will be rendered July 1, 1911.

The inventory of the property belonging to the department will be filed with the Town Accountant.

Respectfully submitted,

DANIEL G. LACY,
Superintendent.

GEORGE H. FRANCIS.....Term expires 1911

ZEPH. R. FORBES, *Registrar and Clerk*.

FAYETTE F. FORBES, *Superintendent of Works*.

RICHARD J. FLINN, *Engineer of Low Service*.

WILLIAM B. WEBBER, *Engineer of High Service*.

REPORT

The Brookline Water Board herewith submits its thirty-fifth annual report, it being for the fiscal year ending December 31, 1910.

As in former years, the reports of the Superintendent of the works and the engineers at the pumping stations, with pumping statistics, are appended.

At the annual town meeting held March 2, 1910, Timothy J. Burke was re-elected a member of the Board for three years.

The Board organized with the choice of Oscar B. Mowry as Chairman. Z. R. Forbes was appointed Registrar and Clerk, and F. F. Forbes Superintendent of the works.

All petitions received by the Board during the past year for extension of street mains have been granted. It has been possible to do this work promptly, thus obviating any delay in furnishing water for new buildings, as the stock of pipe purchased during the winter was ready for immediate use at the opening of the season. The total amount of street mains laid was six thousand, nine hundred and seventy-seven feet, which exceeds the amount laid the preceding year by about three hundred feet.

The number of service pipes laid the past year was one hundred and seventy-eight, which exceeds the number laid the previous season by forty-three.

The New Covered Reservoir.

The building of a new covered reservoir for the purpose of providing suitable storage facilities for the rapidly growing high service district was authorized by the town at the annual meeting, 1909. As mentioned in our last annual report, the plan adopted by the Board was to build a reservoir on Single-

tree Hill, circular in shape, 180 feet in diameter and 23 feet deep, of concrete masonry with steel re-enforcement.

During the season of 1909 the necessary land was procured on very advantageous terms, a roadway from Boylston street to the reservoir site built and the changes in the force-main made. When cold weather finally prevented further work, the main walls of the reservoir were finished, together with a greater portion of the interior excavating.

At the commencement of the present season the work of excavating was continued, and on its completion the bottom and roof, both of which were constructed of re-enforced concrete, were laid. The roof was covered with 14 inches of cinders and 10 inches of loam. The embankments, constructed wholly of the material excavated from the interior of the reservoir, were brought to a proper slope and covered with loam. Both the embankments and the top of the reservoir have been seeded and the adjoining grounds put in proper shape so far as is possible at the present time.

The work of construction was so planned that over 95 per cent. of the earth excavated from the interior of the reservoir was handled only once, it being placed in the embankments immediately on its removal. It was also so planned that the material excavated would form the proper embankments without surplus and that the loam removed the previous season would be sufficient to cover the slopes and top. These plans were fully realized and no surplus remained after the embankments and grading had been done and the amount of loam on hand was found to be ample for all the present needs.

The entire reservoir, with the exception of plastering the interior walls with cement, was built by day labor, under the personal supervision of the Superintendent, and the work has been done in a thoroughly substantial manner.

It is expected to partially fill the reservoir during the month of January, and that it will be ready for use during the early spring of 1911.

The cost of this work is well within the appropriation, as will be seen on referring to the financial statement which accompanies this report.

New Engine for the High Service System.

The matter of providing a high duty pumping engine for the high service system, for which an appropriation was made at the last annual meeting, has been under consideration during the past year and various types of machines, operated by steam, gas and electricity, have been studied. These studies showed that a possibility existed of using a pump driven by a gas engine, while it was quite evident from the first that the high cost of power would eliminate the electrically-driven machines. Specifications were accordingly prepared and proposals solicited for pumps to be operated by either steam or gas. Bids were opened on November 3, 1910, five being received for pumps operated by gas engines and three for the regular type of steam engines. Various hearings were given the bidders for the purpose of thoroughly investigating the merits of the different types of machines offered, and it became apparent that the high cost of fuel would prevent the adoption of the gas engine unless a gas-producing plant was installed. This would necessitate the erection of a special building and machinery, which, considering the cost, seemed unadvisable. It was therefore decided to reject all proposals for gas engines on account of the greater cost of fuel and other reasons, such as noisy machinery, objectionable odors, etc.

The bids received for steam pumping engines were found to be in excess of the appropriation, which was based on preliminary estimates furnished by expert pump manufacturers. This matter was, therefore, brought before the town at a special meeting, held December 28, 1910, together with an explanatory report, and an additional appropriation of \$3,500.00 secured. This amount was taken from the unexpended balance of the appropriation made March 30, 1909, for the construction of the new covered reservoir on Singletree Hill. It is expected that the contract for a steam-driven pump will be awarded to the lowest bidder in the near future, and that the machinery will be installed during the coming season.

Water Supply.

During the past year the amount of water pumped exceeded that of the preceding year by over 59,000,000 gallons. This increase, together with the extreme dryness of the summer months, taxed the resources of the filtering galleries and driven wells to their utmost. In order to obtain the greatest amount of water possible it was found necessary to employ a considerable force of men throughout the driest summer months to free the driven wells from accumulations of sand, which impeded their yield.

From the difficulties experienced during the past year, and in fact for several previous years, in maintaining the water supply during dry weather it is clearly evident that, in order to meet the requirements of the town for both public and private use, extensions of our supply system must be made.

The Board had hoped to obtain an additional supply by extending the present driven well system, but experiments, extending over a period of two years, have shown conclusively that we are at present drafting all the water that can be secured, without lowering the quality, in the vicinity of this system. An appropriation of \$3,000 was made two years ago for such an extension, but for the reasons above stated it was deemed unadvisable to proceed with the work.

The town owns sufficient land on the banks of Charles River, located at considerable distance from the pumping station, which would furnish an ample additional supply, but the expense of establishing an auxiliary pumping station and laying the mains would be very large. For this reason the Board do not recommend this measure at the present time and have therefore considered and approved of another plan whereby the present filtering galleries can be extended and the supply increased.

The Board recommend that an appropriation of \$15,000.00 be made at the annual meeting for this purpose in order that the extension can be made the early part of the coming season and thus be made available for use during the dry weather.

Appropriations Required.

For general extensions.....	\$25,000 00
For general maintenance.....	39,000 00

Special Appropriation.

For extension of filtering galleries.....	\$15,000 00
---	-------------

The amount recommended for general extensions is the same as that appropriated for this purpose last year.

It will be necessary to increase the appropriation for general maintenance. As previously mentioned in this report, the amount of water pumped the past year exceeded that of the previous year by over 59,000,000 gallons, and about 120 tons of coal extra was consumed. The amount of water to be pumped the coming year will unquestionably exceed that pumped last year. To accomplish this the pumps at the low service station must be run 24 hours each day, which will necessitate the employment of an extra fireman from about the first of next May. The wages of this fireman, the additional cost of coal and the natural increase of maintaining other portions of our plant will be, as near as can be ascertained, \$2,500.00, the amount recommended to be added to the maintenance account for the coming year.

The proposed extension of the filtering galleries has been fully reported upon under the head of "Water Supply," to which attention is called.

OSCAR B. MOWRY,
TIMOTHY J. BURKE,
GEORGE H. FRANCIS, M.D.,
Water Board.

SUPERINTENDENT'S REPORT.

Brookline, Mass., December 31st, 1910.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present herewith the annual report of the Superintendent for the year ending December 31st, 1910.

Extension of Street Mains.

(1) Extension to Low Service.

Cypress street extension.....	402.0 feet	10-inch pipe
High street	50.0 feet	10-inch pipe
Emerson extension	353.5 feet	6-inch pipe
Mason street	321.0 feet	6-inch pipe
Salisbury road	584.0 feet	6-inch pipe
Windsor road	53.0 feet	6-inch pipe
Regent circle	314.5 feet	6-inch pipe
Dummer street	246.0 feet	6-inch pipe
Cottage Farm road.....	701.3 feet	6-inch pipe
Worthington road	330.0 feet	6-inch pipe
Warwick road	374.0 feet	6-inch pipe
Griggs terrace	851.0 feet	6-inch pipe
Ivy street extension	331.7 feet	6-inch pipe
Villa lane	198.3 feet	6-inch pipe
Dwight street extension.....	194.0 feet	6-inch pipe

Total laid during the year.....5304.3 feet

(2) Extension to High Service.

Crafts road extension	806.4 feet	8-inch pipe
Hillside street	867.0 feet	6-inch pipe

Total laid during the year.....1673.4 feet

Service Pipe.

Number laid as per last report.....	4,596
Laid the past season.....	178

Total laid 4,774

A brief summary of the work done the past season is as follows:

Street mains were laid in seventeen different streets scattered quite generally over the town. The total length in feet was somewhat more than that of the previous year.

The number of service pipes laid was much larger than for any other year since 1900, and exceeded those added in 1908 by 72 per cent., and those added in 1909 by 32 per cent.

A correspondingly larger number of meters was set, as each new service pipe required a meter.

The extension work in general shows a marked increase over that of the previous year.

Work on the new High Service Reservoir progressed favorably during the season, although some delay was occasioned by the failure of the contractor for sand and gravel to deliver these materials as fast as required. It can be said, however, that the haul from Boylston street to the summit of the hill was a very hard one—so hard that the contractor had great difficulty in securing suitable teams. The major part of the construction work was completed early in December. No water-proofing of the concrete was done except that of plastering the walls and bottom with cement mortar, and washing these afterwards with three coats of neat cement.

There is a possibility that some slight cracks may occur in the bottom, caused by contraction of the concrete in hardening and by change in temperature, and in such a case some elastic water-proofing may have to be used. Whether anything of this kind will happen cannot be told until the reservoir has been filled and drawn off. The appropriation is sufficient to cover any such emergency.

All work except plastering the walls was done by the day, and as far as possible by citizens of the town.

The reservoir will be filled about January 15 of this year. The work remaining to be done is that of grading the grounds, building a small concrete shelter for the indicator, running the wires of the indicator to the High Service Pumping Station, building steps to the top of the reservoir, putting a concrete cap on the small retaining wall, repairing the way to Boylston street and laying a 16-inch pipe in the way to Boylston street,

and possibly water-proofing the bottom of the reservoir.

A full description of the reservoir for permanent reference will be made in the next annual report. The reservoir at that time will have been thoroughly tested.

The department was put to quite an expense for changing gate boxes and fountains at Coolidge corner, made necessary by the paving of Beacon street at that place. Concrete boxes were substituted for those ordinarily used, and were made large enough to allow the gates to be repaired without digging up the street. This kind of gate box will last as long as the street paving, and probably much longer. Three new drinking fountains of the bubble kind have been set in different parts of the town, in response to the request of citizens. All the water cart hydrants which were not equipped with a valve for winter use, have been so changed that they can be used during the entire winter if necessary. The cost of the above work has been charged to extension, and adds quite a little to the amount expended on this account.

No leaks have occurred in the street or force mains. A few services have broken or rusted out, but the expense of repairs has been small.

The usual care has been taken of the hydrants, gates, etc. Every hydrant was carefully examined late in the fall, and in most cases the spindles repacked.

Covered reservoir No. 1 was drawn off in October and some slight repairs made on the bottom by adding a little concrete at the easterly and westerly ends where the floor joins the main walls.

The buildings of the department are in good repair, and very little has been done on them the past year. Some painting will be required the coming season. The pumping engines at both stations have done their work well. As will be seen by the report of the engineer at the Low Service Pumping Station, the crack in the valve chamber of engine No. 4 has not increased the past year, but it would seem wise to purchase new chambers at once and have them on the ground ready for use in case the crack enlarges and thus causes the engine to be put out of service.

The customary care has been taken of the grounds.

The motor wagon purchased early last spring for general jobbing has proved that the investment made was a paying one. During the busiest part of the season it enabled one man to do the work of two men and two teams. It is also of great use in emergency calls when speed is the most important thing. It was expected that by the use of the motor wagon the number of horses could be reduced, but the work of the season has been so much greater than that of any before it that it was found unwise to dispose of a single horse.

The rainfall of the past year has been exceptionally small—smaller in fact than that for a great many previous years, and consequently the demand for water for use on lawns and on streets has increased. This, added to the growth of the town, which was unusually large, has caused quite an increase in the amount of water consumed—nearly sixty million gallons. The extra amount of coal required was about 120 tons, and the cost of keeping the wells in condition to furnish the extra amount of water was larger than ever before.

Our experience of the past season has made it very evident, in fact conclusive, that extension must be made at our source of supply the coming season. Several tests wells were driven, and further studies made of ways of increasing the supply, and the results of these studies and investigations has changed somewhat the original plans for securing more water. It is hoped that work can be commenced on this extension as early in the spring as the conditions on Charles River Meadows will allow.

The 12-inch High Service main which now ends on Gardner road by Winthrop road, should be carried the coming season to connect with the main on Corey Hill to insure adequate fire protection to this section of the town. Several fire hydrants should be placed in those parts of the town where building has been extensively done of late. The requirement of water for public and domestic uses is increasing, and it is the desire of the department to be able to meet all reasonable demands.

I subjoin the following tables, etc., all of which is respectfully submitted.

FAYETTE F. FORBES,
Superintendent of Water Works.

List of Stop-Gates Set in 1910.

Twelve-inch gate:—

One on Clyde street, corner Newton street.

Ten-inch gates:—

One on Cypress street, corner Franklin street.

One on Cypress street, corner High street.

Eight-inch gates:—

Two on Crafts road, near Reservoir road.

One on Crafts road, near Taylor street.

Six-inch gates:—

One on Davis avenue.

One on Mason street, corner Essex street.

One on Mason street, corner Cottage Farm road.

One on Salisbury road, corner Corey road.

One on Windsor road, corner Salisbury road.

One on Hillside road, corner Warren street.

One on Henry street, corner Cypress street.

One on Dummer street, corner Essex street.

One on Cottage Farm road, corner Ivy street.

One on Cottage Farm road, corner Dummer street.

One on Worthington road, corner Cottage Farm road.

One on Worthington road, corner Essex street.

One on Warwick road, corner Beacon street.

One on Warwick road, corner Salisbury road.

One on Griggs terrace, corner Griggs road.

One on Crafts road, near Reservoir road.

One on Ivy street, corner Essex street.

One on Villa lane, corner Morss avenue.

One on Dwight street, corner Pleasant street.

Water-Cart Feeders.

Total number now set..... 102

Total number now set 14

List of Hydrants.

Number set as per last report connected with Low Service.... 486

Number set as per last report connected with High Service.... 188

Total to date 674

The following hydrants have been set in 1910:—

(1) Hydrants set connected with Low Service:—

- One on Mason street, near Cottage Farm road.
- One on Salisbury road, near Corey road.
- One on Salisbury road, near Williston road.
- One on Windsor road, near Salisbury road.
- One on Regent circle.
- One on Worthington road, near Cottage Farm road.
- One on Warwick road.
- One on Griggs terrace.
- One on Villa lane, 200 feet from Morss avenue.
- One on Dwight street extension.

Total now supplied by Low Service..... 496

(2) Hydrants set connected with High Service:—

- One on Hillside road, 300 feet from Warren street.
- One on Hillside road, 800 feet from Warren street.
- One on Crafts road extension.

Total supplied by High Service..... 191

Total to date 687

LOW SERVICE ENGINEER'S REPORT.

Low Service Pumping Station,

Brookline Water Works,

West Roxbury, Mass., December 31, 1910.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present the annual report of the Engineer for the year ending December 31, 1910.

The amount of water pumped during the year was 903,712,656 gallons, over fifty-nine million gallons more than last year. The coal consumption shows an increase of 149,051 pounds, and the pumping time an increase of 564 hours.

Boilers.

The boilers are in good condition. Several internal and external inspections have been made by the station engineers and by the Hartford Steam Boiler Inspection and Insurance Company. The furnace of boiler No. 1 has been relined and the gate surface increased to 30 square feet.

Engines.

The pumping engines are in good working order. The copper joints in the valve chambers of engine No. 4 have been overhauled and re-caulked. A special rubber gasket and retaining ring has been fitted over the joint in the low pressure suction valve chamber of engine No. 4, forming an elastic joint and completely stopping the leak. I would recommend this form of gasket for the other joints if they should start to leak again.

The crack in the low pressure suction valve chamber is tight and shows no sign of extending, but it would not be safe to carry a much greater pressure in this chamber than the maximum pressure observed at the contractor's test of the engine

in 1903. During this test, when pumping at the rate of five million gallons per 24 hours, the head pumped against was, approximately, 240 feet, and in order to obtain this head it was necessary to partially close the gate on the 20-inch force-main. During the past year the average delivery of the pumps, when in operation, was at the rate of 3,600,000 gallons per 24 hours, but owing to the increased friction in the force-main, the head pumped against was nearly as great as when the engine was operated at its full capacity of 5,000,000 gallons per 24 hours in 1903. Experiments which I have made indicate that it would not be advisable to operate the engine at its rated capacity, as the increase in pressure would be so great as to lower the factor of safety of the valve chamber to the danger point.

A Blake & Knowles feed water heater has been purchased. The lighting plant is in good running order.

I subjoin tables showing the record of the pumping engines, all of which is respectfully submitted.

RICHARD J. FLYNN,

Engineer.

HIGH SERVICE ENGINEER'S REPORT.

High Service Pumping Station,

Brookline, January 1, 1911.

To the Brookline Water Board:—

Gentlemen,—I have the honor to present the report of the Engineer of the High Service Pumping Station for the year ending December 31, 1910.

The exterior of the buildings should be painted and some small repairs made the coming season.

The new boiler installed in this station January last has been in constant use since, and has proved to be satisfactory in every way.

Boiler No. 2 is in good repair.

Nearly all the pumping has been done by engine No. 1, and it has continued to work well. The repairs required have been done by the engineers of this station and were of a minor nature. The engine seems to be in as good condition as it was one year ago. The same can be said of engine No. 2.

The water pumped at this station shows an increase of over 11 per cent. in comparison with that pumped the previous year.

The following table shows the record of this station for the year just passed.

Respectfully submitted,

WILLIAM B. WEBBER,

Engineer,

HIGH SERVICE PUMPING STATION.

RECORD OF ENGINE NO. 1 FOR YEAR ENDING DECEMBER 31st, 1910.

	Hours and Minutes Work.		Average Pumping Time.		Total Gallons Pumped.	Total Head Against Pump.	Coal Consumed for While Pumping.	Coal Consumed for Heating Building and Blankng Fires.	Duty in Hoor-lbs. per 100 lbs. of Coal.	Gallons Pumped per 1 lb. of Coal.

* Includes fly nuisance. ** Includes assistance.

In recent years the policy of fighting disease by keeping everybody in as healthy condition as possible has been followed in all departments of medicine and hygiene. This policy is growing in esteem more and more, and is being pursued with greater diligence in all matters pertaining to the public health. Greater preventive measures are being taken everywhere, and everything that tends to produce disease and unhealthiness is being sought out and driven from the community with unrelenting energy. Suggestions and recommendations with this end in view are continually brought to the attention of the Board of Health, and arguments are presented for their adoption with force and ability. Every new precaution means additional expense. The Board recognizes that its function is not only to preserve the public health, but also to scrutinize all new suggestions with great care in order to determine whether they are worth while and to use discretion in deciding whether new policies or the further extension of those in practice justify additional expenditure of the people's money. Brookline is well to the front in modern methods. We recognize that the appropriation for the preservation of the public health here is a large one and is increasing from year to year. Whether this large expense is justified is for all to consider. Perhaps the best commentary on this question is the record in regard to the number of deaths occurring during the past year. There was one death from typhoid fever, one from diphtheria, none from scarlet fever, and eleven from tuberculosis. This is a remarkable record in a population of over twenty-seven thousand people, and in view of it who can say that the money expended for the preservation of the public health has not been well spent? The appropriation presented for the coming year is still larger, owing partly to the natural growth of the town and partly for reasons which will be explained.

More attention has been given to sanitary inspection during the past season than heretofore. The work accumulated during the spring to such an extent that an assistant to the sanitary agent was employed in the summer months. Heretofore the work has been done efficiently by Mr. Michael Duffley, the inspector of plumbing, but we feel that the time

has come when a man should be employed who would be able to give much more time to it. Owing to the greatly increased work in connection with the inspection of plumbing, sufficient attention to sanitary inspection by Mr. Duffley is not possible. The position of sanitary inspector is a difficult one to fill, and requires firmness and tact on the part of the inspector in order to accomplish desired results. Owners of land should understand that their premises must be kept in a clean and healthful condition, and this can be accomplished only by thorough and persistent inspection. We have therefore included in the estimate an item to provide for an inspector who shall have this work in charge.

The bacteriological laboratory continues to be of great assistance to physicians in diagnosing suspicious cases as well as in other ways. The work done there is most important.

The sanitary in Village square was opened in January. From February 1 to December 31 there were 500,433 visits by men and 132,065 visits by women. This large attendance shows that the sanitary has served its purpose, and that its erection was not in advance of the needs of the public. The appropriation for the coming year is larger than last year. Part of the increase is to provide for repairs which may be needed and it is also proposed to install a separate heating apparatus. The heating from the boiler in the engine house has not been wholly satisfactory, and it is thought that better results will be obtained from a separate heater located in the engine house but to be used for heating the sanitary only.

The maintenance of the Contagious Hospital continues to cost about the same. It must be remembered that the receipts from the hospital are not credited to the appropriation, but go into general receipts, and that therefore the net cost of the hospital is about half as large as the amount of the appropriation.

The inspection of milk, animals and provisions is, we believe, conducted in a thorough manner, and is work of the greatest importance. While it is true that it should not be carried so far as to make the conditions imposed too great a hardship on the producers, there is no doubt but that the taking of ordinary precautions to prevent uncleanness in our

milk supply is fundamental. The Board, through its inspector, knows the condition of every dairy which supplies milk in Brookline. This milk is brought in by a large number of distributors and dealers, but every dairy from which milk is obtained undergoes thorough inspection, and supplies are shut off when proper precautions are not taken. The facilities for conducting such inspection are inadequate. The inspector often has to order milk dealers to furnish him with conveyances in order to take him to the dairies from which they collect milk. Oftentimes inspection is delayed by lack of proper means of transportation. Quick action is often necessary to prevent epidemics. In this work, as well as in the other branches of health work, we feel that a suitable conveyance would add greatly to the efficiency of the department. We have, therefore, included in the appropriation an item for a new automobile and its maintenance, to be used not only by the inspector of milk and his assistants, but also by the other officials of health work.

The work of mosquito extermination has been carried on in the past season with good results, and those in charge of the work have also given a great deal of attention to the suppression of the fly nuisance. The result of this work has been to clear up hundreds of nuisances in the shape of broken garbage cans and barrels, exposed piles of manure, unsightly dumps and other foul places. This of itself, being an incident in the work of fly suppression, is enough to justify the expense involved. We propose to carry this work a little further in the line of thoroughness, and have provided for it in the appropriation.

The collection and disposal of ashes and rubbish is one of the most important matters before any board of the town at the present time. The available dumps are fast disappearing, and very soon we shall not know what to do with the ashes. All papers and other combustible waste are now carried to the town lot off Hammond Street and there disposed of. The haul is a long one and therefore expensive. In fact, the expense of the collection of ashes and rubbish and their disposal is increasing each year very fast, owing to the long hauls mentioned, and to the increased number of buildings,

especially apartment houses. The estimate for this purpose has been increased this year from \$25,000 to \$34,000.- Of this increase \$5,000 is the sum necessary to add to meet present conditions and the natural growth during the coming year. More equipment must be purchased and more labor will have to be employed. A petition has been received and heard by the Board of Health for having the waste removed by town employees from back yards as far as possible, so as to avoid having waste barrels standing out on the sidewalk. This request has been urged very strongly, and by a large number of people, who give as reasons the unsightly appearance of the barrels standing along the streets and the danger to health arising therefrom. We all agree that this condition is undesirable and that there is a good deal of force in the arguments presented. We are not yet convinced, however, that it is wise or feasible to adopt measures regulating this matter, and we hesitate to increase the cost of this work because of its present size. The Board is now considering the subject, and if it is finally deemed advisable to adopt regulations tending to remedy this condition more money will have to be expended. The Board is willing to carry such regulations into effect if a majority of the citizens wish it, and we have therefore added \$4000 to the appropriation to be placed at the disposal of the Board and to be used in this manner during the coming season if it is decided to change the present system.

The new automobile ambulance has fully justified itself and we believe has saved a number of lives. Between June 16, 1910, when it was put into operation, and January 1, 1911, it has responded to seventy calls.

We refer to the reports which follow for more detailed information in regard to the work done in the different branches of the department.

Selectmen of Brookline.

Attention is called to the following orders of the Board of Health and the list of notifiable diseases:

ORDERS OF THE BOARD OF HEALTH.

(Readopted March 7, 1910.)

1. *Ordered*, a. That no child be allowed to attend school from any household in which there is or has been a case of scarlet fever, for a period of six weeks from the commencement of the last case in the household (except as provided in section "d" of this order), and until a certificate has been presented from the attending physician, the Board of Health or its Agent, that all danger of conveying the disease by such child is passed.

b. That no child who has visited a house in which there was at the time a case of scarlet fever shall attend school until the expiration of two weeks following exposure, unless he has already had that disease.

c. That no child who has diphtheria be allowed to attend school for a period of one week from the date of the second successive negative bacteriological culture from both nose and throat (except as provided under section "d" of this order) and until a certificate has been presented from the attending physician that all danger of conveying the disease by such child is passed; and that no well child be allowed to attend school from any household in which there is or has been a case of diphtheria until the same precautions have been taken, with the exception that but one negative bacteriological culture, from both nose and throat, is required.

d. That the Agent of the Board of Health may, if circumstances warrant (for example, removal of the patient to hospital), give to children not infected in a household in which there is or has been scarlet fever or diphtheria, a special permit to return to school as soon as he considers it safe for them to do so.

e. That no child from any house where there is a case of scarlet fever or diphtheria shall be allowed to mingle with persons from any other house until after the removal, recovery, or death of the patient and the disinfection of the premises.

f. That every house infected with diphtheria, scarlet fever, or smallpox shall have affixed on or near the front and rear doors a card, furnished by the Board of Health, stating the disease to be avoided; and any unauthorized person removing such a card shall be liable to a fine not exceeding one hundred dollars.

2. *Ordered*, That no child who has chicken-pox or German measles be allowed to attend school until a period of two weeks has elapsed from the first appearance of the eruption and until a certificate to that effect from the parent has been presented.

3. *Ordered*, That no child found to be ill with consumption, and a menace to the health of others, be allowed to continue in school.

4. *Ordered*, That no child who has mumps be allowed to attend school until a period of three weeks has elapsed from the first signs or symptoms of the disease and until a certificate to that effect from the parent has been presented.

5. *Ordered*, That no child who has measles be allowed to attend school until a period of two weeks has elapsed from the first appearance of the eruption and until a certificate to that effect from the parent has been presented; and that no child in a household in which there is a case of measles shall be allowed to attend school

within two weeks from the appearance of the rash in the last case in such household, without a certificate from the parent stating that such child has already had the disease.

6. *Ordered*, That no child with whooping-cough be allowed to attend school until a period of eight weeks has elapsed from the beginning of the cough and until a certificate to that effect from the parent has been presented; and that no child in a household in which there is a case of whooping-cough shall be allowed to attend school within eight weeks from the beginning of the cough in the last case in such household without a certificate from the parent stating that such child has already had the disease.

7. *Ordered*, That no child be allowed to attend school from any household in which there is or has been a case of cerebro-spinal meningitis until a certificate has been presented from the Board of Health or its Agent.

8. *Ordered*, That such rooms and such articles in any house, as in the opinion of the Board of Health have been subjected to infection or contagion from smallpox, scarlet fever, diphtheria, cerebro-spinal meningitis, or consumption, shall be disinfected by the Board. The attending physician or the Agent of the Board of Health shall decide in each case as to the proper time for disinfecting, and shall then notify the Board; but in no case of scarlet fever shall disinfection be done in less than four weeks from the commencement of the last case in the household (except by special permit of the Agent of the Board); and in diphtheria disinfection shall not be done until after at least two successive negative bacteriological cultures from both nose and throat have been obtained; and in all cases a certificate of the attending physician shall be required, stating that all danger of infection from the patient is passed; said certificate in case of diphtheria to be based on the result of bacteriological examinations as above prescribed. Disinfection by the Board shall also be done in every case after a death from consumption, and after the removal of a consumptive patient, whenever in the opinion of the attending physician or of the Agent of the Board, disinfection is necessary.

9. *Ordered*, That no public funeral shall be held over the remains of any person who has died of smallpox, scarlet fever or diphtheria or cerebro-spinal meningitis without the written permit of the Board of Health, and under such regulations as may prevent the spread of either of said diseases. *Ordered*, further, that the remains of any person who has died from either of said diseases shall at once be placed in a tight or sealed coffin, and shall not thereafter be exposed to view or disturbed except for burial.

10. *Ordered*, That the undertakers of the town be notified to warn families, in the case of the death of a member from contagious disease, against a public funeral.

11. *Ordered*, That no person infected with diphtheria, membranous croup, or scarlet fever, shall leave the Board of Health Hospital until the Board of Health or its Agent shall find and certify that all danger of communicating such disease has passed.

12. *Ordered*, That no person, other than patients, physicians, and nurses, shall enter the Board of Health Hospital, except with the special permission of the Board or of its Agent.

13. *Ordered*, That visiting the grounds of the Board of Health Hospital shall be allowed daily between the hours of 2 and 3 P. M. only, except with the special permission of the Agent of the Board; but in no case shall children be allowed to visit the premises.

14. *Ordered*, That no article of food be sent to the patients in the Board of Health Hospital excepting fruit, which must be left with the nurse in charge.

15. *Ordered*, That in the case of death where the deceased had not been attended by a practising physician, the certificate of death shall be issued by the Medical Examiner.

16. *Ordered*, That no dead body of any person shall be carried to any cemetery, or from one place to another within the town, in any public vehicle other than a hearse or undertaker's wagon provided for that purpose.

17. *Ordered*, That the use of "wall draperies" in any room or place used for a funeral or for the preparation or retention of any human body before or in connection with such funeral be and the same is hereby forbidden.

18. *Ordered*, That no person shall spit upon the floor of any public conveyance, shop, store, hall, church, schoolhouse, railroad station, or other public building in said town, or upon the steps of any of said conveyances or buildings, or upon the sidewalk (spitting into the gutter or street is not forbidden) of any public way of said town.

19. *Ordered*, That no person or corporation shall keep or allow to be kept upon any premises in his or its possession, within the limits of this town, any swine or more than one cow, without securing a permit from the Board of Health to do so. Such permit shall expire on the first day of May, annually.

20. *Ordered*, That no person or corporation shall use any building as a stable for horses or cattle, unless such building is properly lighted and ventilated; has a tight floor and roof; good drainage, connecting wherever practicable with the public sewer; a supply of pure water, and not less than one thousand cubic feet of air space for each animal.

21. *Ordered*, That manure shall not be allowed to accumulate in the neighborhood of barns, and that no manure heap shall be allowed within 100 feet of any dwelling unless so covered or screened as not to prove offensive. Yards surrounding buildings where cows are kept must be well drained and free from standing water and filth. The barns shall be kept as clean as possible and the floor shall be sprinkled before being swept.

22. *Ordered*, That neither hogs nor manure shall be kept in cellars of cow stables, except by special permit of the Board of Health.

23. *Ordered*, That animals kept for the production of milk shall not be fed upon swill.

24. *Ordered*, That a person having any infectious disease (the board considers consumption to come within the meaning of the statutes in regard to infectious diseases), or having recently been in contact with any such person, shall not be allowed to milk cows or handle cans, measures or other vessels used for milk intended for sale, or in any way take part or assist in the sale of the same, until the Board of Health is satisfied that all danger of communicating such disease is passed.

25. *Ordered*, That the milk cans or jars of milk dealers shall not be left at any house in which there is a case of diphtheria, scarlet fever, or smallpox, but the milk shall be poured into receptacles furnished by the customer.

26. *Ordered*, That premises where animals or fowl are kept shall be open at all times to inspection by the Board of Health, or its appointed officer.

27. *Ordered*, That upon satisfactory evidence being furnished to the Board of Health of violation of any of the above regulations, the permit will be revoked.

28. *Ordered*, That any person having reason to suspect the presence of glanders or farcy among horses, or any contagious disease among any domestic animals, shall immediately report that suspicion, together with the street and number of the premises at which the animal is kept, to the Board of Health, when the Inspector of Animals will at once make an investigation. (The more ordinary symptoms of glanders and farcy are: A discharge from the nostrils, enlargement and hardness of the glands under the lower jaw; or nodular enlargement of the skin with or without ulceration.)

29. *Ordered*, That barns, stables, or any of the contents thereof, which in the opinion of the Board of Health have been subjected to infection or contagion from glanders, farcy, tuberculosis or other animal disease, shall be disinfected to the satisfaction of the Board of Health.

30. *Ordered*, That no vault or cesspool shall be emptied by any other than the odorless process, nor by carts not of the Odorless Excavating Company, except permission be first obtained from the Chief of Police. It is further ordered that neither night soil nor the contents of cesspools shall be dumped within the limits of the town.

31. *Ordered*, That the manure from livery stables shall not be removed between the hours of sunrise and sunset.

32. *Ordered*, That all store keepers and householders be required to keep the waste material set out by them for removal by the town in separate receptacles.

(1) One or more of such receptacles shall be used exclusively for garbage or swill and shall be water tight, and have tight fitting covers. (An old pork barrel, beer keg, or lead cask makes an excellent swill barrel and may advantageously be kept in a tight garbage locker.)

(2) A second receptacle or receptacles, preferably made of iron, shall be used exclusively for ashes, tin cans, bottles, and other incombustible waste.

(3) A third separate set of receptacles shall be used exclusively for dry combustible waste, such as paper, old shoes, house sweepings, and such other waste material as it is customary for the Health Department to remove.

33. *Ordered*, That no person shall overhaul the contents of receptacles for waste material set upon the sidewalks to be removed by the town.

34. *Ordered*, That no person shall throw upon the sidewalk, or into any public street or catch-basin, any paper, tin can, house sweepings, lawn rakings, old shoes, orange peel, banana skin, dead animal or other waste material.

35. *Ordered*, That all barber shops, together with all furniture, shall be kept in a cleanly and sanitary condition. Mugs, shaving brushes, razors, scissors, clipping machines, pincers, needles and other steel instruments shall be sterilized either by immersion in boiling water or in alcohol of at least sixty per cent. strength, after each separate use. Combs shall be thoroughly cleaned with soap-

suds and brush after each separate use. A separate clean towel shall be used for each person. Alum or other material used to stop the flow of blood shall be applied only on a towel or other clean cloth. The use of powder puffs and of sponges is prohibited, except that a sponge owned by a customer may be used on him. Every barber shop shall be kept well ventilated and provided with running hot and cold water. No person shall be allowed to use any barber shop as a sleeping room. Every barber shall thoroughly cleanse his hands immediately before serving each customer. Every barber shop shall be inspected at least twice annually by the Sanitary Agent of the Board. A copy of this order shall be kept posted in plain view in every barber shop.

36. *Ordered*, That no person, by himself or by his servant or agent, or as the servant or agent of any other person, firm or corporation, shall in the town of Brookline sell, exchange, or deliver, or have in his custody or possession with intent to sell, exchange, or deliver, any milk, skimmed milk, or cream which contains more than 300,000 active bacteria per cubic centimeter, or 300,000 inactive bacteria per cubic centimeter, or which has a temperature higher than 50 degrees Fahrenheit.

37. *Ordered*, That all milk sold in the town of Brookline other than from wagons shall be delivered to the purchaser in original sealed jars, or from a milk cooler which has been approved by the Board of Health.

38. *Ordered*, That premises, compartments or rooms used for the storage and sale of milk in the town of Brookline shall be kept cleansed in a manner satisfactory to the Board of Health.

39. *Ordered*, That no person by himself or by his servant or agent, or as servant or agent of any other person, firm or corporation, shall in the town of Brookline sell, exchange, or deliver, milk, skimmed milk, or cream produced upon premises where there is a case of contagious disease, without the written consent of the Board of Health.

40. *Ordered*, That bodies of deceased animals which cannot be conveniently incinerated or buried shall be reported to the Board of Health within twenty-four hours after death, or upon discovery of such dead bodies.

41. *Ordered*, That every person engaged in the sale of food stuffs shall cause his wares to be properly protected by screens or otherwise against contamination by flies or street dust.

42. *Ordered*, That no food stuffs intended for sale shall be kept in any room used for living or sleeping purposes.

A true copy.

ATTEST:

EDWARD A. McETTRICK,
Secretary.

NOTIFIABLE DISEASES.

The following diseases have been declared to be "dangerous to the public health," and are, therefore, notifiable under the provisions of sections 49 and 50 of chapter 75 of the Revised Laws as amended by chapter 251 of the Acts of 1905 and section 52 of chapter 75 of the Revised Laws as amended by chapter 480 of the Acts of 1907.

Actinomycosis,	Ophthalmia Neonatorum (In-
Anterior poliomyelitis,	flammation of eyes of new-
Asiatic cholera,	born),
Cerebro-spinal meningitis,	Scarlet fever,
Diphtheria,	Smallpox,
Dog-bite requiring anti-rabic	Tetanus,
treatment,	Trichinosis,
Glanders,	Tuberculosis (all forms),
Leprosy,	Typhoid fever,
Malignant pustule,	Typhus fever,
Measles,	Varicella (chicken pox),
	Whooping cough,
	Yellow fever.

In addition to the above notifiable diseases the Board of Health of Brookline requires that malaria be reported.

NOTIFIABLE DISEASES IN ANIMALS.

The following diseases are notifiable under Section 28 of Chapter 90 of the Revised Laws as amended by Chapter 6 of the Acts of 1911:

Actinomycosis,	Mange,
Anthrax or anthracoid diseases,	Rinderpest,
Contagious pleuro-pneumonia,	Rabies,
Farcy,	Sheep scab,
Foot-and-mouth disease,	Tuberculosis,
Glanders,	Texas fever.
Hog cholera,	

REPORT OF AGENT OF THE BOARD OF HEALTH.

Office of the Board of Health,

Brookline, Mass., Dec. 31, 1910.

To the Honorable Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending Dec. 31, 1910.

Mortality.

During the year there was one death from typhoid fever, 1 from diphtheria, none from infantile paralysis, none from scarlet fever and 1 from whooping cough; but there were 11 from tuberculosis.

The total number of deaths reported from the above mentioned communicable diseases the past year was 14, as against 21 the previous year. Among the deaths from other diseases 24 were reported from pneumonia and 35 from cancer.

The number of deaths in Brookline from all causes the past year was 335, which includes 65 deaths of persons temporarily sojourning here, e. g., patients in various hospitals. The number of Brookline residents who died away from Brookline the past year was 86. Adding the latter number to the number of deaths, 335, that actually occurred here and deducting the number of stillbirths, 14, we have a total of 407. This number of deaths, with a population of 27,792, as found by the U. S. census, gives a mortality rate of 14.16 per 1000 inhabitants as against 14.14 in 1909. But confining our computation to the number of deaths that actually occurred here, including the 65 of non-residents who died here, the mortality rate was 11.55 per 1,000 inhabitants.

Infectious Diseases.

During the year there were reported to the Board 33 cases of diphtheria, 71 cases of scarlet fever, 19 cases of typhoid fever, 6 cases of malarial fever, 167 cases of measles, 91 cases

of chicken pox, 15 cases of whooping cough, 27 cases of tuberculosis, no cases of smallpox, nor of cerebro-spinal meningitis, and but one case of infantile paralysis.

The cases of these diseases occurred as follows:—

	Diphtheria	Scarlet Fever	Typhoid Fever	Malarial Fever	Measles	Tuberculosis	Chicken Pox	Whooping Cough	Infantile Paralysis
January	6	9	0	0	8	1	11	0	
February	4	2	0	0	8	3	4	1	
March	5	2	0	0	20	2	2	0	
April	4	9	1	0	19	3	7	1	
May	5	12	2	0	36	1	12	3	
June	3	7	1	1	46	2	1	1	
July	0	10	1	1	24	1	1	0	
August	1	1	5	0	1	2	0	0	
September	0	2	2	4	1	5	0	0	
October	1	6	2	0	1	2	17	1	
November	1	4	4	0	1	3	28	6	
December	3	7	1	0	2	2	11	2	1
	—	—	—	—	—	—	—	—	—
	33	71	19	6	167	27	91	15	1

The following table shows the number of cases of diphtheria, scarlet fever and of typhoid fever reported during the last 11 years, and the number of cases of tuberculosis since reporting of that disease was first required in March, 1902. From 1902 to 1906, inclusive, only pulmonary and laryngeal forms of tuberculosis were required to be reported; since 1907 the other forms, e. g., tuberculosis of the bones, glands and others organs, are also required by the public statutes to be reported.

	Diphtheria.	Scarlet Fever.	Typhoid Fever	Tuberculosis.
1900.....	247	29	16	
1901.....	158	27	26	
1902.....	64	61	20	20
1903.....	55	54	17	27
1904.....	33	29	21	32
1905.....	40	66	14	21
1906.....	50	80	30	39
1907.....	35	47	16	46
1908.....	60	50	23	40
1909.....	65	47	25	21
1910.....	33	71	19	27

Diphtheria.

The number of cases of diphtheria, 33, was 32 less than during the previous year. The disease was most prevalent in January, when 6 cases occurred. The effects of the more general use of bacteriological cultures and of antitoxin for the early diagnosis and effective treatment of this disease are now recognized more generally than ever, and in a few years diphtheria should wholly disappear.

Scarlet Fever.

The number of cases of this disease, 71, was 24 more than during the previous year. The disease was most prevalent in May, when 12 cases occurred.

Typhoid Fever.

The number of cases of typhoid fever, 19, was 6 less than during the previous year. The average number of cases for the previous ten year was 208. The attention of physicians and nurses is called to the successful anti-typhoid inoculations recently made in the U. S. Army* and recommended by Dr. Mark W. Richardson, Secretary of our State Board of Health, for persons in civil life when exposed to typhoid fever.

Tuberculosis.

The number of cases of this disease reported during the year was 27, an increase of 6 over that of the previous year. I refer again to this disease in another part of my report.

Smallpox.

It is worthy of note that no case of this disease has been reported in the town the past year, though in 2 instances the writer was informed by health officials of neighboring municipalities of exposure of Brookline residents, and in each case investigation was promptly made and such further action taken as seemed necessary. The same method of protection against

* See Boston Medical and Surgical Journal, Jan. 12, 1911, page 63.

this disease as in the past has been relied on, namely, careful vaccination and re-vaccination, which is making quarantine against this disease less and less necessary. The old building at our Board of Health Hospital that was formerly used to shelter occasional smallpox patients and which had become unfit for use was burned the past year under the supervision of the Chief of the Fire Department.

Measles and Chicken Pox.

Measles and chicken pox were both more prevalent than in 1909, the number of cases of the former the past year being 167, and of the latter 91, as against 98 and 53 respectively the previous year. In June the largest number of cases of measles was reported, 46, and in November the largest number of cases of chicken pox, 28.

The importance of calling a physician to the first patient in a household believed to have chicken pox should be remembered, for not infrequently mild cases of smallpox, especially in adults, have been supposed at first to be chicken pox and only after other persons exposed had taken the disease, and in a dangerous form, has the correct diagnosis been made.

Malarial Fever, Mosquitoes and Flies.

The number of cases of malarial fever reported to the Board the past year was 6, as against 7 the previous year. The same methods, in the main, as those employed here in former years were used to prevent mosquito breeding in the more populous districts of the town.

Certain well tested measures for the prevention of fly breeding were also in force throughout the season, for it is now well known that the common house fly is an active transmitter of typhoid fever, diphtheria, tuberculosis and other diseases. In my report of last year* is a description of the methods used. As in previous years Mr. Nyhen, the Assistant Bacteriologist of the Board, directed the field work and has written a very interesting detailed report which may be consulted at the Board of Health Laboratory. The results of this work seem to be

*Pages 269 and 270 of Town Report

very satisfactory to all, especially to those residents of the town who spend the summer at home.

Infantile Paralysis.

This disease, generally appearing in June, increasing till the end of August and disappearing in December, seems almost to have passed by our town, for no case was reported till December.

The one patient reported in Brookline, an infant, whom I saw with the family physician, had comparatively mild symptoms and made a prompt and complete recovery.

Since statistics* show that Massachusetts has only one-tenth as many cases of infantile paralysis as of scarlet fever, and since only 4 per cent. of the children between the ages of one year and ten who have infantile paralysis die, we should not worry over the disease the coming summer and fall but should try to exercise common sense in the care of children, keeping them away from possible sources of infection, especially by preventing close contact with children ill with indefinite ailments and by not allowing them to go to miscellaneous indoor gatherings where cases of communicable diseases may be met with.

Health of School Children.

Since children of school age are compelled under the law to attend school it is the plain duty of those in charge of them to see to it that the more or less artificial environment that they are subjected to during school hours shall not spread communicable disease nor in any other way tend toward impairment of health. School life, in the earlier years especially, should be so arranged as to reduce to the minimum the dangers arising from too close confinement, impure air, and especially of air that lacks the normal amount of moisture since such air often causes irritation and consequent disease of the upper respiratory apparatus, namely enlarged adenoids and tonsils, so common in school children, besides generally impaired health.

*Dr. R. W. Lovett of State Board of Health.

The tubercular tendency that many children have is diminished or increased according to the intelligent and faithful care that the school child receives or fails to receive in the too often overcrowded school room. Efforts are being made to improve conditions in our schools and in the reports of the School Department of the past two years I have taken up the matter in more detail.

Collection of Dry Waste Material and of Garbage.

Certain features of the problem of proper disposal of the waste material of the town have forced themselves into prominence the past year.

The best manner of collection and disposal of dry waste material, mainly paper and ashes, and that of garbage and swill, can only be determined at any given time by a careful study of the local conditions and requirements. At present these matters are attended to respectively by the Superintendent of Streets and by a resident contractor. The present unsightly condition of many streets and sidewalks caused by the omission of a part of the work of collection of waste paper and of ashes,—a part of the work which some neighboring municipalities have for years deemed it wise and expedient to have done for their citizens by the regular ash collection force,—has recently been called to the special attention of the Board of Health. Two hearings have been held and the question is receiving the attention of a special committee consisting of the Superintendent of Streets and a member of the Board of Health, and the conditions needing correction will doubtless be attended to.

The Dust Nuisance.

The abatement of this nuisance has continued to receive the attention of the Superintendent of Streets and is mentioned in his report.

The Board of Health Hospital.

This may be regarded not only as a place needed for the proper care of persons ill with dangerous communicable disease, but since it is the policy of the Board to protect the town

against costly epidemics of preventable disease, providing for the removal of the first cases of such disease, whenever such removal seems necessary, the hospital is really a form of insurance. Eighty patients were cared for in the hospital the past year. For an account of the year's work the reader is referred to the report of the Superintendent of the Board of Health Hospital.

Improved Housing Conditions.

The past year this question has received attention from a committee appointed by the Brookline Friendly Society and also by a committee appointed by the town to revise our building laws. In a preliminary report of the first named committee, a summary of which may be found in The Brookline Chronicle of January 14th, 1911, valuable facts and suggestions are given in regard to the problem, and its solution, with all of which I heartily agree. If we are really in earnest in our efforts to stamp out tuberculosis we can't afford to neglect unsanitary housing conditions and unhygienic living conditions in the houses. The majority of the people now afflicted with tuberculosis are improperly housed and fed and we must remember that just as in the making of criminals environment is the dominant factor, so also is environment, rather than heredity, the principal determining factor in the causation of tuberculosis and of a number of other preventable diseases. In this matter we are facing a most serious problem, but it is one that the people of our town can solve as well as those of any other, if only each citizen will try and do his full share of the work of actually making living conditions what they should be for each and all of our population.

The General Health.

Mention should be made of the providing of sanitary drinking fountains the past year in various parts of the town, also of the successful operation of the new public comfort station or sanitary at the Village Transfer Station.

The completion of our high-service covered reservoir on Heath street, a most important feature of our public water system, deserves mention. It has a capacity of over 4,000,000

gallons and is an additional guarantee of the purity and adequacy of our water supply, thus protecting the public health. It was constructed under the direction of the Superintendent of Water Works, to whose report the reader is referred for details.

The model automobile ambulance specially built for the Health Department and in the immediate charge of the Police Department and used for conveying injured and sick persons to their homes or to hospitals has been of service to a great many people. The general health of the children and of many older citizens continues to be promoted by the use of our municipal gymnasium and public baths; the attendance at the latter the past year, over 68,000, was the largest yet, showing that the bathing habit is as popular as ever. Through the generosity of a few public-spirited citizens we have been enabled to put up in the offices of both the gymnasium and the bath house book racks containing booklets for free distribution on some eighteen subjects relating to health, such as "The Boy and the Cigarette," "The Efficient Worker," "Sex Hygiene for Young Men," "Prevention of Tuberculosis," and "When to Call a Physician," and there is a gratifying demand for this literature on the part of the young people.

Acknowledgments.

In closing I wish to thank the members of the Board, the various town officials, the physicians and the many other citizens who the past year have in various ways assisted me in my work.

Respectfully submitted,

H. LINCOLN CHASE, M. D.,

Agent, Board of Health.

REPORT OF MEDICAL SUPERINTENDENT OF BOARD OF HEALTH HOSPITAL.

Brookline, Mass., Dec. 31, 1910.

To the Honorable Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending Dec. 31, 1910:

The number of patients admitted during the year was 77 as against 73 the previous year. This number, with the 3 patients remaining in the hospital at the beginning of the year, made the total number cared for 80. The hospital was in use all the year except from Sept. 10 to Oct. 19th.

The following table shows the number of patients admitted to the hospital each month:—

1910.	
January	9
February	2
March	2
April	12
May	18
June	10
July	11
August	1
September	0
October	3
November	3
December	6

—
77

The number of resident patients admitted was 54, and of non-resident patients 23. Of the 77 patients admitted 8 were private-room patients. There are now remaining in the hospital, Dec. 31, six patients.

During this year there was but one death, that of a little boy

who had been ill at home with diphtheria nearly a week, and without treatment by a physician. On entrance to the hospital his condition was practically hopeless and in spite of every effort to save him he died the next day.

The following table gives the principal statistics as to the patients:—

Patients in hospital January 1, 1910.....	3
Diphtheria patients admitted	16
Scarlet fever patients admitted	55
Measles patients admitted	3
Chicken pox patients admitted	1
Mumps patients admitted	1
Erysipelas patients admitted	1
Resident patients admitted	54
Non-resident patients admitted	23
Men patients admitted	5
Women patients admitted	15
Boy patients admitted	32
Girl patients admitted	24
Total patients treated during year.....	80
Patients remaining in hospital December 31, 1910.....	6
Days of treatment given.....	2,300

The total cost of maintenance of the hospital the past year, as calculated by the town accountant, was \$9,183.43, as against \$9,175.24 the previous year. The reimbursements from paying patients, to date, amount to \$3,102.00. The details of expenditures may be found in the report of the Town Accountant.

In cases of ear complication Dr. C. R. C. Borden and Dr. D. H. Walker have given valuable assistance, and Dr. F. P. Deny has attended at the hospital when the writer was unable to do so. Quite a number of physicians have visited their patients from time to time during their sojourn in the hospital.

During the summer some repairs were made, and an additional piazza for the benefit of the scarlet fever patients and their visitors was built.

The old building used for smallpox patients having become unfit for use and beyond repair, it was set afire and burned down under the supervision of the Fire Department.

During the summer and fall, as in the two previous years, a part of the hospital grounds and one of the wooden buildings

was used by the Day Camp for Tuberculous children. As in the past, this camp for children, to which a few adult patients also were admitted, was financed and administered jointly by the Health Department, the Brookline Friendly Society and the Brookline Anti-Tuberculosis Society. A total of 23 patients attended, and the results were about the same as in the two previous seasons. The total expense was about \$900, of which \$500 was paid by the Health Department.

Dr. A. A. Cushing served as physician, Miss Henry as nurse, Mr. A. A. Wordell as treasurer and the writer as medical supervisor by direction of the Board of Health.

The past year the Board of Health Hospital has had gifts of flowers, books, games and toys, for which all connected with the hospital are very grateful.

In closing I take this opportunity to express my appreciation of the interest and support of the members of the Board, of the Head Nurse, the Bacteriologist, and of the physicians, parents and others who have assisted in promoting the welfare of the patients in the hospital.

Respectfully submitted,

H. LINCOLN CHASE,

Medical Superintendent and Visiting Physician.

REPORT OF THE BACTERIOLOGIST.

To the Board of Health:—

Gentlemen,—I have the honor to submit the following report for the year ending December 31st, 1910.

The routine work of the laboratory has consisted of:

(1) The examination of cultures and swabs from suspected cases of diphtheria.

(2) The examination of sputum for the detection of cases of pulmonary tuberculosis.

(3) The diagnosis of typhoid fever by means of blood cultures or by Widal's reaction.

(4) The examination of blood for the presence of the *plasmodium malariae*.

(5) The examination of smears for the diagnosis of *ophthalmia neonatorum*.

(6) The bacteriological examination of samples of milk submitted by the Milk Inspector.

The necessary outfits for the use of physicians are kept at the Laboratory and at the following drug stores: At Young & Brown's,* Harvard square; at Hayman's,* corner Beacon and Harvard streets; at the Beaconsfield Pharmacy, corner Beacon and Washington streets; at Graves',* corner Boylston and Hammond streets, Chestnut Hill.

For a small fee, analyses of urine and other microscopical and chemical examinations which aid in the diagnosis of non-contagious diseases are made for the physicians of the town. Bacterial vaccines are also prepared.

* Anti-Toxin Stations.

Diphtheria.

There were 45 swabs and 389 cultures examined from 358 persons suspected of having diphtheria; 18 were positive. There were 206 cultures for release from quarantine. The total number of swabs and cultures was 640. One hundred and thirteen cultures were examined a second time.

Tuberculosis.

There were 106 specimens of sputum examined for the presence of the bacilli of tuberculosis, 17 with positive result.

Typhoid Fever.

Ninety-nine tests were made for the presence of the typhoid fever or Widal reaction, with specimens of dried blood from 80 persons who had symptoms suggestive of typhoid fever. The reaction was present in 17 of these. The laboratory also makes the diagnosis of typhoid fever by the Conradi blood culture method. Cultures are made from the patients' blood in tubes of sterile ox-bile, which physicians can obtain at the laboratory. The typhoid bacilli are very abundant in the blood during the early stages of the disease, so that it is often possible to make a diagnosis by the blood cultures a week before the Widal reaction appears. Three such cultures were examined. The laboratory is also ready to examine specimens of urine for typhoid bacilli during convalescence.

Malaria.

Sixteen specimens of blood were sent to the laboratory for examination for the presence of the plasmodium malarix. In two of these the malarial organisms were found.

Ophthalmia Neonatorum.

The laboratory now offers to examine, free of charge, smears from the eyes of infants suspected of having this disease. The malarial outfits may be used for this purpose. Five such examinations were made during the past year, all with negative results.

Milk Examinations.

There have been examined during the past year 416 samples of milk, which have been collected by the Milk Inspector from different dealers. The number of bacteria in each sample is first estimated by the microscopical examination of the centrifugalized sediment, and in many cases when the number of bacteria present are obviously below the legal limit of 300,000 per cubic centimeter, no further tests are made and the report is sent to the Milk Inspector that the sample is "passed on inspection." Where the number of bacteria appears to be near or above the 300,000 limit, plates are made from the samples and the number of bacteria are counted by that method. Of 409 samples from which satisfactory examinations were made 87, or 21 per cent., were above 300,000; 42 contained 300,000 to 1,000,000; 45 were over 1,000,000. The highest count was 10,300,000. In 32 samples, where microscopical examination showed very large numbers of bacteria to be present, the plates showed very few, which suggested that an inferior milk had been pasteurized.

In 1908, 26 per cent. of the samples were above 300,000; in 1909, 14 per cent. were above; last year, 21 per cent.

The results of these examinations are reported to the Milk Inspector, who files them (with the dealers' names) at the Office of the Board of Health, where they are open to inspection, and they are also printed in the Annual Reports of the Milk Inspector. It is thus possible for the citizens of Brookline to determine at any time the purity of the milk (as regards bacteria) which they are consuming. It is to be hoped that more citizens will make use of these reports when selecting their milk dealer, for an intelligent interest on the part of the citizens in securing pure milk for themselves is the most effective means of improving the supply.

Summary.

The following table shows the routine bacteriological examinations that have been made in the laboratory during the past six years:

	1905	1906	1907	1908	1909*	1910
Cultures and swabs	732	760	775	1,347	744	640
Sputum	148	154	169	144	130	106
Typhoid tests	72	79	76	96	98	102
Malaria	27	28	32	28	32	16
Ophthalmia neonatorum				1	2	5
Milk examinations.....				380	547	416
	<hr/> 979	<hr/> 1,021	<hr/> 1,053	<hr/> 1,996	<hr/> 1,553	<hr/> 1,285

*Eleven months.

In addition to the above mentioned routine work, 213 bacteriological and chemical examinations of various kinds were made for physicians, who frequently visit the laboratory to see for themselves the results of the examination.

The work of exterminating flies and mosquitoes is supervised by Mr. Nyhen, the Assistant Bacteriologist, from the laboratory. From the bacteriological standpoint this work of destroying the insect carriers of infection seems to be a very important part of preventive medicine, and the writer would urge an extension of this work during the coming summer.

Respectfully submitted,

FRANCIS P. DENNY,

Bacteriologist.

REPORT OF THE SANITARY AGENT.

To the Board of Health:

Gentlemen,—I have the honor to submit my eighteenth annual report for the year ending December 31, 1910.

The past year has brought with it a necessity for a greater amount of work relative to the investigation and correction of unsightly and unsanitary conditions and the suppression of certain conditions detrimental to the general public health.

That there is an awakening of public interest in matters of public health is evidenced by the increased number of complaints received from householders and others, as well as the character of the same.

Conditions that were once accepted by householders without complaint are now no longer tolerated; better things are demanded, especially better living conditions by the working people.

The Board desires information regarding unhealthful conditions and will use its endeavors to correct the same, whenever it is possible to do so.

Complaints and nuisances to the number of 186 have been investigated during the year as compared with 123 in 1909.

The following summary shows the number and character of the nuisances and complaints investigated and corrected under the Board's direction during the year:—

	No. of Complaints.	No. of Inspections.
Premises unusually untidy	53	119
Offensive odors in and about buildings	22	38
Untidy dumps and vacant lots	7	13
Garbage receptacles offensive	12	19
Water closets defective	5	5
Stables offensive	21	47
Poor land drainage	5	9
House drainage defective	14	22
Cellars very untidy	10	24
Overflowing cesspools	2	6
Contractors' privies offensive	15	39
Manure piles offensive	4	6
Smoke and cinder nuisances	1	1
Henneries offensive	6	13
Miscellaneous	9	14
Total	186	375

The usual general inspections were made of the cellars and yards of the poorer residential districts early in the spring.

These inspections resulted in the cleaning up of the accumulations of ashes, garbage, house dirt and rubbish, too often found in these places after the winter months.

The refuse collected was removed by the town carts to the public dumps.

The Brookline Friendly Society has reported to the Board of Health a number of unsightly and unhealthful conditions, such as old buildings in a state of dilapidation, offensive stables and water closets, and bad living conditions. Most of the cases reported have now been attended to, but in the case of three old stables the required changes have not as yet been made, but it is believed they will be before the spring.

Owing to the marked increase in building operations during the past season and the consequent heavy inroads made upon our time as Inspector of Plumbing and also in furtherance of a desire on the part of the Board of Health to cause special investigations to be made with a view to promote better living conditions in the congested districts the need of further assistance for this department became imperative.

To fill the void the Board appointed Mr. Louis J. Harrigan,

who had just completed his third year as a student in engineering and biology at the Institute of Technology, Assistant Sanitary Agent to serve from July 1 to October 1.

Mr. Harrigan performed his duties efficiently and satisfactorily. He made a large number of inspections of unsanitary conditions, all of which were corrected under direction of the Board.

More stables were complained of for unsanitary conditions than in 1909.

At this writing one old stable that was vacated by order of the Board during the past summer is being demolished preliminary to the erection of an apartment house, on the same site.

In regard to four other old stables which the Board ordered demolished, or repaired and renovated, and in connection with which there has been much procrastination on the part of the owners; nothing has been done, except that one stable has been temporarily abandoned for the keeping of horses. It is believed that definite action will be taken by the Board in the case of all of these stables in the near future.

The causes of complaint against the other stables varied, but were mostly a general neglect of cleanliness and the accumulation of manure in too great quantity in and about the premises.

Complaints against henyards are becoming more and more frequent; these places abound in all parts of the town, but more are to be found in the populous districts than elsewhere.

Instances are few where henyards are kept up to a proper standard of cleanliness. That they are a source of nuisance and annoyance and a cause of much animosity between neighbors cannot be gainsaid.

Almost invariably these yards are found littered with the family garbage, which attracts myriads of flies, and when sour, emits offensive odors, causing much discomfort to the neighborhood as well as injury to adjoining property interests.

The crowing of roosters and the cackling of hens in the early morning hours sometimes makes sleep impossible.

The aid of the authorities is usually invoked to modify or curtail these annoyances: the enmity of the poultry-keeper is

almost sure to be aroused if he discovers the identity of the complainant in such cases.

In the more rural parts of the town hens infest the streets in such numbers as to have become a positive annoyance and a danger to automobilists, who are reluctant to run them down.

The pollution of the sidewalk on the south side of Clyde street, between the main entrance of the Country Club grounds and Newton street, by hens, has been a frequent source of complaint. Efforts made to have some of these hens kept enclosed have met with indifferent success. It is believed that nothing short of summoning their owners into court will put an effectual stop to the nuisance.

For the reasons stated, and for others equally as convincing, the need of some regulation, restrictive or prohibitive, affecting the keeping of hens is apparent.

It is believed that an order passed by the Board of Health requiring that no hens shall be kept in this town without first obtaining a license from the aforesaid Board would meet all the requirements of the case, and this measure I strongly recommend.

Much time, labor and correspondence has been involved in the effort to keep the cellars, yards and alleys in the tenement districts free from refuse and dirt during the warm months.

While much has been accomplished in the direction sought, the results at times were somewhat discouraging, for no sooner had the places in question undergone a thorough cleaning than they were littered up again.

The causes of this unsatisfactory condition of things are two. First,—failure on the part of many of the people who live in these districts to realize the consequences of dirt, neglect and carelessness. Second,—The attitude of certain parsimonious landlords, who would rather the health and comfort of the neighborhood should suffer than to pay a few dollars to a responsible tenant or janitor to look after their premises.

In the opinion of the writer, little mitigation of the neglectful acts alluded to, or improvement in living conditions, may be expected until many of the now existing, old and unsuitable tenements are replaced by well cared for, up-to-date tenements.

A prolific source of nuisance is the almost continuous volley of swill, waste paper, house dirt, etc., thrown from the tenement windows and especially from the balconies of "single and double deckers" in certain tenement neighborhoods.

During the summer the police co-operated in the effort to abolish or suppress this evil, but owing to the difficulty of locating the offenders, especially as much of these wastes were thrown out after dark, little was accomplished.

It is believed a few arrests and fines would secure the results desired, especially if due publicity could be given each arrest and conviction.

A number of ramshackle out-of-date buildings, unfit for habitation or for any other purpose, and which have long been an eyesore and a nuisance, as well as a possible danger to life and health in the neighborhoods in which they were situated, have received the attention of the Board during the year. In the case of two of these old buildings a public hearing was given, but little improvement resulted. As repeated warnings failed to induce the owner to either satisfactorily repair and renovate the buildings or take them down, the Board, through its Agents, entered the premises, razed the buildings and cleaned up the sites and surroundings.

Much rubbish and dirt was removed from one other old and vacant building, many of the windows and doors were boarded up, and the surroundings given a good cleaning. Several other worn out old buildings are now receiving attention from the Board.

In accordance with the sanitary rules adopted by the Board of Health in the summer of 1906, for the regulation of barber shops, all such shops have been periodically inspected during the year.

The conditions as to tidiness and cleanliness in the different shops varied from sanitary ideal to reasonably satisfactory. The shopkeepers seem to be co-operating with the Board in the endeavor to prevent the spread of communicable diseases.

The various bakeries of the town have been inspected twice during the year. Improvements consisting of a new metal ceiling, a new hardwood floor, and renewal of the plumbing were made in one bakery during the summer, a higher stand-

ard of cleanliness was required in one other bakery; the general condition of four bakeries was found to be fairly satisfactory.

During the year the Board has granted permits to build and maintain five cesspools where sewer connections were not available. The number of permits issued for improving the drainage was twenty-two.

From January 1 to December 31, 1910, Mr. W. E. Ward, disinfecter for the Board, disinfected with formaldehyde and corrosive sublimate solution or formaline as follows: 24 rooms, 15 bath-rooms, 2 halls and 2 closets after 66 cases of scarlet fever; 46 rooms, 5 bath-rooms and 3 halls after 31 cases of diphtheria; 27 rooms, 4 bath-rooms and 1 hall after 21 cases of tuberculosis; 5 rooms and 1 bath-room after 2 cases of cancer, 2 rooms after scarlet fever exposure, 1 after measles and 1 room after a streptococcus throat. At the request of citizens he has disinfected 11 rooms, 2 bath-rooms and 1 hall after 4 cases of cancer, 11 rooms, 2 bath-rooms and 2 halls after 4 cases of tuberculosis, 1 room after tonsillitis and 1 room after measles. With the consent of the owners he has burned 2 lots of bedding, 5 pillows, 1 mattress and 2 lots of toys. When necessary he has removed to the disinfecting cabinet for special treatment such articles as books, toys and clothing, and has supervised the disinfecting of all bedding, rugs and clothing which householders have had done at their own expense.

After contagious cases he has also removed for disinfection 125 library and school books and 1927 milk and cream jars.

By order of the Inspector of Milk he has disinfected 2 barns after tuberculosis in cattle, 2 milk bottling plants after cases of typhoid and diphtheria; several milk wagons, and has supervised the disinfecting of some 10,000 milk and cream jars. The latter work (excepting the cow barns) was done at out-of-town places in order to protect the Town of Brookline from infection through its milk supply.

As disinfecter for the Board he has disinfected 2 cellars contaminated by the breaking of a sewer pipe and has made some 90 quarantine inspections, and applied corrective measures when needed. Such inspections as he has made regarding the

covering of foods, ice chests, etc., has been reported to the Inspector of Animals, Provisions and Milk.

Respectfully submitted,

MICHAEL DUFFLEY,

Sanitary Agent.

REPORT OF THE AGENT FOR THE INSPECTION OF ANIMALS, PROVISIONS AND MILK.

Brookline, Mass., January 13, 1911.

Board of Health, Brookline, Mass.:—

Gentlemen,—The serious illness of Dr. Osgood, Agent of your Board for the Inspection of Animals, Provisions and Milk, has made it necessary for me to finish the eighteenth annual report for the year ending December 31, 1910. His ability and thoroughness in directing the work of the department has been responsible for such an up-to-date system of recording that I am enabled to make the same a complete one.

A summary of the work follows:—

Milk.

Samples submitted for chemical analysis	622
Number below the legal standard	37
Samples submitted for bacterial examination	402
Dairy samples submitted (additional)	14
Temperatures of milk taken (additional)	426
Number not counted (no growth, etc.)	7
Number containing not more than 300,000 per C C.....	322
Number containing between 300,000 and 1,000,000 per C C....	42
Number containing over 1,000,000 per C C.....	45
Number containing excessive inactive bacteria.....	16
Milk licenses issued for wagons	42
Milk licenses issued for stores.....	69

Dairies.

Number of inspections made	260
Dairies accepted	213
Dairies rejected	22
Permanent corrections effected	42
Corrections under way	8

Foods, Drugs, Etc.

Samples analyzed:—

Butter	44
Lard	16
Vinegar	31
Canned goods	16
Bottled goods	18
Spices, etc.	30
Extracts	11
Condensed milk	12
Miscellaneous foods	13
Drug samples	21
Water analyzed	24

Total 236

Violations on foods	5
Violations on drugs	2
Water found contaminated	7
Oleomargarine licenses issued	2
Seizures of foods made	5

Animals.

Cattle inspected	183
Swine inspected	110
Sheep inspected	41

Total 334

Tuberculosis cattle condemned and destroyed	2
Glandered horses condemned and destroyed	2
Inspection of barns for permits	15
Corrections effected	6

Health.

Investigations made after contagious diseases	66
Restrictions placed against leaving milk jars	64
Other restrictions placed	17
Milk jars collected and disinfected in Brookline	1,927
Milk jars disinfected at dairies (approximately) ...	10,000
Milk plants held under supervision (2 disinfected) ..	4
Inspections at stores	310
Corrections effected in the covering of foods, etc.	62
Other corrections effected (noisy wagons, etc.)	32

(Other health inspections were reported to the Sanitary Agent.)

Inspection of Animals.

In November a report to the State Cattle Bureau was submitted as required by law, covering the inspection of all animals within the town for the detection of contagious and other diseases dangerous to the public health.

The examinations of premises of applicants for a permit to keep more than one cow revealed several violations of our health regulations; corrections in these cases have been effectively carried out.

Some of the classes in which cows have been found affected with tuberculosis were reported by other Veterinaries, the tuberculin test being generally applied.

Although a considerable number of dogs were examined during the year, none were found rabid.

Milk Inspection.

The milk supply of the town has been kept up to a high standard both in purity and richness, and has been most zealously guarded against infection.

Regarding the samples below the standard, only twenty were sufficiently low to warrant the sending of a warning notice.

The exclusion of milk from unknown and undesirable sources, the efficiency of the assistance provided the department, and the promptness of your Board in amending the health regulations to meet new conditions, together with the hearty co-operation received from Health Officials in surrounding districts, have all had their important part in maintaining the high standard referred to and also eliminating many "danger points" as regards milk infection.

Recent milk legislation as a whole has been of such a progressive nature as to allow local officers to make regulations governing the sale of milk within their districts as would best conform with local conditions, and consequently admits the application of corrective measures not provided by the State law.

This new law also calls for the yearly licensing of stores selling milk or cream, and Inspectors of milk may issue such

licenses subject to revocation for violation of the local health regulations; the adoption of this course has given very satisfactory results.

In the case of three stores, permission to sell milk from a cooler was withdrawn for failure to keep the utensils clean, while among the dealers who deliver in wagons, one was refused a license because of his previous record, and one license was revoked after trying in vain to have the milk brought up to a satisfactory standard. There were many minor corrections also effected.

Bacteriological Work.

The bacteriological work was done at the Board of Health Laboratory under the supervision of Dr. F. P. Denny, director.

During the milk strike from May first to June fifteenth considerable questionable milk was found in which the bacterial content had been reduced by the application of heat. An investigation brought out the fact that the use of such milk for infant breeding was a predisposing cause of certain intestinal disorders. As such milk continued to be sold after conditions attending the strike had become normal, the amendment of Section 35 of the Health Regulations was necessary, limiting the number of inactive bacteria to 1,000,000 per C. C., and making possible such restrictive measures that only an occasional sample of such milk is now found.

A comparison of this work of the past year with that of the previous year is somewhat misleading, as it seems to indicate that the quality of the milk as regards cleanliness and care had not been improved. The reverse, however, is true, for during the periods preceding and following the strike, there were less excessively high counts recorded than in former years, showing that the dealers are employing methods tending to a more wholesome conformity in bacterial standards. A table of the bacteriological counts is appended; the detailed report of the Chemist may be seen at this office.

Inspection of Dairies.

A committee of the Legislature appointed during the last session to investigate the milk supply, reported that the inspec-

tion of milk in distributing centres was inadequate in that it should be made to extend to the source of supply. This condition did not apply to Brookline.

As this inspection is being extended, it has become necessary for us to give more attention to the dairy inspection in order to maintain the standard already established for the Brookline supply.

It was reported last year that it seemed advisable to oblige all large dealers to separate their supplies so that their Brookline routes would receive milk from stated dairies, thus eliminating all milk from dairies which previously had been impossible to inspect.

This system has been practically perfected and with such comprehensive results that its adoption by all municipalities seems to be but a matter of time.

The milk supplied our citizens (except that which is properly pasteurized) now comes from selected dairies, subjected to our own inspection, and which in the advent of an outbreak of disease affecting the supply, can be reached within a few hours by automobile.

Ten dealers have already complied with the orders to trap all milk rooms draining directly into a barn cellar, but it requires strict supervision to get them to put up the screens early in the season.

The investigations made the past year in checking epidemics have led us to realize even more strongly that milk is one of the most dangerous agents for the transmission of contagious diseases.

The rigid inspection of a dealer's supply after two or more cases of contagious disease have been reported on his route has been valuable to your Inspectors, even though his milk was found not responsible, in exposing conditions which needed immediate correction.

The tracing of a scarlet fever epidemic to the milk supplied a restaurant, diphtheria to three cases in a milk bottler's family, and typhoid to a polluted stream where the cows had waded, are but a few results of this close inspection.

Inspection of Food and Provisions.

Regarding foods, we find a greater degree of care in properly distinguishing by label the amounts of preservatives and other adulterants allowed by law if properly labeled. No spurious vinegars were found, but a few were slightly acid in strength, which was undoubtedly accidental. This is a very decided improvement over former years, for when the examination of foods was first begun, a considerable percentage of both vinegars and foods obtained were spurious.

Section 40 of the Board of Health regulations has been made to apply in a most thorough manner to foodstuffs which cannot be conveniently washed, such as maple sugar, confectionery, biscuits, figs, dates, butter, etc., and in doing so the danger of infection by flies and dust has been explained with a view to gradually include other foodstuffs. The work requires a great deal of time and frequent inspections, and although much criticism has been made for not including fruits, such as cherries and grapes, in the absence of any definite instructions from your Board, your Inspectors have used their best judgment and feel that the course mapped out is the most practical, and will be productive of the best results in the end.

In the case of lunchrooms, it seemed advisable to make concessions during rush hours by allowing certain foods to be set out ready for serving, with the proviso that no sweeping be done at that time.

While receiving hearty co-operation from most of our merchants, there are others who require so much attention it may be necessary to make some prosecutions in the future.

Many samples of butter were obtained by agents unknown to the proprietors from lunchrooms and restaurants and also a goodly number from boarding-houses. In two cases the proprietors were serving oleomargarine in place of butter without posting the notice as required by law. As it was the first violation in each case, they were warned that a repetition of the offense would mean prosecution on both charges. Offenses of this petty character will receive more attention in the future.

An investigation of ice-cream sold by pedlars after a case of supposed poisoning, warranted your Inspectors in insisting that cheap coloring matters be excluded in cream offered for

sale in Brookline and in the case of one vendor, demanding that a better quality be furnished.

In June a large quantity of foodstuffs, damaged by water from fire in a building, was seized and destroyed. They were contaminated by chemicals used in extinguishing the fire, and by water running down from the old floors of the three tenements above.

Other foods destroyed included milk exposed to typhoid infection, cider, meats and lemon extract, all of which were considered injurious to public health. A systematic inspection of ice-chests was also made.

Conclusion.

This department is continually facing new problems, some of which require additional assistance and a more modern conveyance; these matters have already been recommended to your Board.

Respectfully submitted,

WILLARD E. WARD,

Assistant Inspector.

Bacteriological Count.

Note.—The figures following a name are the counts from samples taken from that dealer. The standard for Brookline is not more than 300,000 per centimeter.

REPORT OF THE VITAL STATISTICS.

To the Board of Health of Brookline:

Gentlemen,—The undersigned herewith presents the report of the Vital Statistics of the town of Brookline for the year ending December 31st, 1910. The usual details are given in the tabulation appended, but the following is the comparative summary for the year:—

	1909	1910
Births	438	447
Marriages	350	349
Deaths recorded	393	421
Still-births	11	14
Deaths occurring in Brookline.....	317	335
Deaths of residents of Brookline occurring out of town	76	86

In the tabulated details of causes of death, the deaths occurring in Brookline and the deaths of residents of Brookline occurring out of town are given separately.

Births by Months.

MONTHS	Whole No.	Males	Females
January	37	20	17
February	37	23	14
March	43	24	19
April	34	10	24
May	29	13	16
June	47	22	25
July	43	22	21
August	47	26	21
September	34	17	17
October	40	22	18
November	29	14	15
December	27	11	16
	447	224	223

Of the above births there were twins as follows:

Months.	Whole No.	Males.	Females.
April	2	1	1
July	2	1	1
August	2	0	2
October	2	1	1

Marriages by Months.

MONTHS.	Whole Number.	First of Groom.	First of Bride.	Second of Groom.	Second of Bride.	Third of Groom.	Third of Bride.
January	19	17	17	2	2		
February	21	17	18	4	3

REPORT

The Trustees of Walnut Hills Cemetery herewith submit their report for the year ending December 31, 1910.

The Board organized by the choice of Charles H. Stearns as chairman, Edward W. Baker as clerk, and Myron D. Fisher as superintendent.

The following are the details of the usual work of the Cemetery during the year:—

Number of lots sold	4
Number of single graves sold	19
Interments	54
Removals from cemetery	1
Monuments and boulders set	3
Headstones set	8
Markers set	5
Total interments in cemetery to date.....	1,496
Total number of lots sold to date.....	341
Total number of graves sold to date.....	396

The financial condition is shown by the following summary:—

Investments for Perpetual Care.

For Walnut Hills Cemetery.

Massachusetts Hospital Life Insurance Co.:

Trust Policy No. 117.....	\$18,950 00
Trust Policy No. 039.....	7,700 00
Trust Policy No. 053.....	2,400 00
Trust Policy No. 079.....	2,500 00

Total	\$31,550 00
-------------	-------------

Total receipts	5,724 20
Total	\$11,432 89
Total payments	9,037 03
Total cash balance on hand.....	\$2,395 86

The Old Town Cemetery on Walnut street has been cared for by the working force of the Park Department, and for the coming year the Trustees recommend the usual appropriation of \$200 for that purpose.

In their report for 1907 the Trustees said:—

“The Trustees recommend the building of a stone wall on the street boundary of the Cemetery grounds, of similar character to the wall of the entrance gate. The total cost for such a wall on the Allandale road and Grove street frontage accord-

ing to the estimate of a reliable contractor, should not exceed \$5,000. The Trustees recommend that the total cost be extended over several years by making annually an appropriation to build a section of such wall, and that \$1,000 be appropriated for the purpose at the next annual town meeting."

The town appropriated \$1,000 in 1908 and the same amount last year and the wall has been built along Allandale road for a distance of 592 feet, and a section of 250 feet of concrete foundation has been prepared in addition. It seems desirable that the next section should be carried to where the higher land of the cemetery abuts on the street, about five hundred feet from the end of the present wall, and this is estimated to cost about \$2,000.

The Trustees, therefore, recommend that at the next annual town meeting, under an article in the warrant, the town appropriate \$2,000 for the continuation of the stone wall around Walnut Hills Cemetery.

CHARLES H. STEARNS,

CHARLES S. SARGENT,

DESMOND FITZGERALD,

LEONARD K. STORRS,

ERNEST B. DANE,

HENRY H. RICHARDSON,

Trustees of Walnut Hills Cemetery.

FIFTY-FOURTH ANNUAL REPORT

OF THE

TRUSTEES OF THE PUBLIC LIBRARY

The trustees congratulate the people of the town upon the completion of the beautiful and commodious new library building. The contractors, Messrs. Horton & Hemenway, completed their work within the agreed time, and the work of removing from the old structure to the new was begun on August 15 and finished on September 3. So carefully were the plans for the removal made by Miss Hooper that there was no interruption whatever in the use of the library. The delivery of books ceased in the building which had been occupied fifty-one years, at the usual hour on August 28, and began promptly the next morning in the new building. It will be remembered also that there was not an hour of interruption of the use of the library during the time of the moving of the old building from its original site to the corner of the library lot. The Trustees congratulate themselves as well as the people of the town that this large undertaking was carried through for a sum well within the appropriation, and that the sum appropriated to cover the cost of removing the books to their new quarters, less than half was actually expended.

The library building was dedicated with appropriate ceremonies on the afternoon of November 17. A large company gathered in the Brookline Room, on the second floor. Many of the town officers were present and many citizens, both men and women. The Rev. Leonard K. Storrs, D.D., President of the Trustees, presided and opened the exercises with words of congratulation and remarks on the importance of municipal libraries and their usefulness. The story of the library and of the new building was told by Mr. Edward Stanwood, one of the Trustees. The greeting of the Boston Public Library was presented by Josiah H. Benton, Esq., President of the Trustees of that institution. Prof. Bliss Perry, Litt. D., of Harvard University, delivered a scholarly and brilliant address on Libraries

and the Community. Desmond FitzGerald, Esq., Chairman of the Building Committee, then delivered the key of the building to the President of the Trustees, prefacing the formal turning over of the building to its future custodians with a few remarks. The benediction was pronounced by the Right Rev. William Lawrence, D. D., Bishop of the Protestant Episcopal Diocese of Massachusetts.

The Trustees present herewith several views of the exterior and interior of the building, together with floor plans of the first and second stories. The Delivery Room which occupies the front of the main building is a large and well-lighted room. It is the place where the users of the library meet the attendants for the delivery and return of books, and for help, if help is needed. In the front, at the sides and in alcoves, is the fiction collection of the library. Upon shelves near the Cataloguing Room are collected the latest accessions to the library. Further in the rear, on both sides, is the large collection of music, both vocal and instrumental. Across the rear is the card catalogue. On the west side of the main building are the Cataloguing Room and the Librarian's private office. On the east side is a study room provided with the latest and best books on the sciences and the useful arts.

Behind the Delivery Room is the Book Room,—designed for and admirably adapted to the use of students, a spacious room, beautiful in its proportions and in its adornment. It has eighteen alcoves provided with tables and chairs. Upon the shelves are about eighteen thousand volumes, comprising those which are likely to be most frequently used. The rest of the volumes are arranged in the two-story stack beneath the Book Room. All the books are available. Those in the Book Room as well as the fiction and music are open to the public. Those in the stack can be obtained by application to the assistant at the reference desk in the middle of the room. This system enables the Librarian to keep always accessible the newest and the live books on any subject, and to transfer to the stack those which do not answer to that description whenever room may be needed in the Book Room. The stack is of sufficient capacity to store the accessions for many years to come.

There are two wings, each only one story in height. At the

FIRST FLOOR PLAN.

east end is the children's department, in two rooms. In the old building the Children's Reading Room and the School Reference Room were in the basement. The children are now provided with two excellent rooms, and the throngs of young people who make use of them prove how highly their present accommodations are appreciated. The west wing contains the general Periodical Reading Room, which has been named, as was the Reading Room in the old building, Gardner Hall, in honor of John L. Gardner, Esq., who was the largest individual benefactor of the library. Gardner Hall contains not only the current numbers of the periodicals to which the library subscribes, but many bound volumes of earlier issues.

The second story, which is over the main building only, contains a hall which is adapted for lectures and exhibitions, named the Brookline Room. It has seating capacity for about three hundred persons. The Trustees' Room is also upon this floor. The basement contains rooms for repairing books, for the work of the deposit stations, and for other necessary work and for storage, besides two large rooms not as yet needed or assigned.

The Trustees cannot close this final report upon the new building without expressing their appreciation of the artistic taste and the careful attention to details of the architect, R. Clipston Sturgis, Esq., and of his associate, Mr. W. Stanley Parker; of the thorough workmanship of the contractors, Messrs. Horton & Hemenway; and of the unwearying and useful help given to the enterprise from its inception to its completion by the Librarian, Miss Louisa M. Hooper.

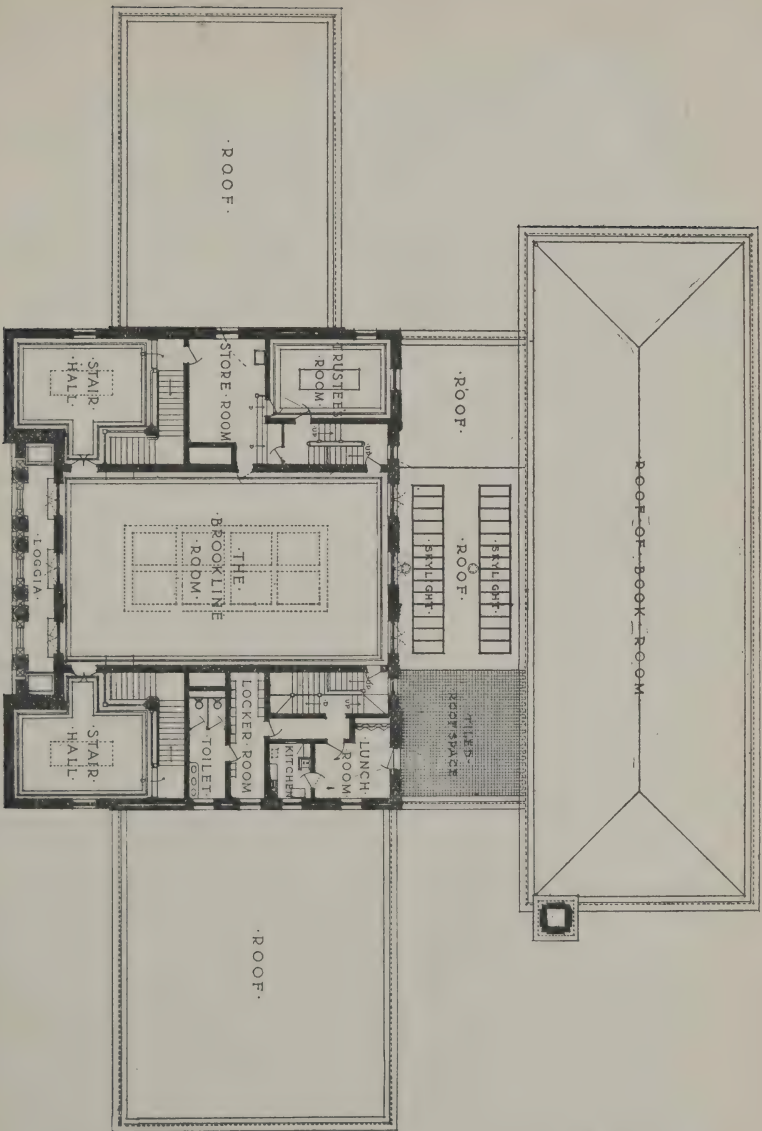

It was to be expected that the occupation of the large new building would add something to the expense of the institution. But the increase of the cost of heating, lighting and janitor service is not large, nor has the increased use of the library as yet made any considerable addition to the working force under salary. But it is evident that we have to deal with a much larger number of persons who have been attracted to our collections by the greatly improved accommodations. In the last four months of 1909 in the old library 31,641 books were given out at the delivery desk; in the corresponding four months of 1910 in the new building the number was 38,430,—an increase of 21 per cent., more than one fifth. The issue of books in the

Children's Room in the same months was 7,190 and 9,293 respectively,—an increase of almost 30 per cent. The attendance of children in the Children's Room in the same months was 8,050 and 14,468 respectively,—an increase of almost exactly 80 per cent. Inasmuch as the cost of administration necessarily increases with the number of books handled, it is to be expected that the library pay roll must increase if the present tendency to an enlarged use continues.

The possession of adequate quarters suggests that other library problems must soon be faced.

The new library building has special rooms and equipment for serving the deposit stations which have been in use at Coolidge corner, Boylston street and Chestnut Hill. The establishment of these stations was a part of the policy of the Trustees in extending the usefulness of the library to the different parts of the town. While the stations have been of value, they have been necessarily limited in efficiency because they are not entirely under the daily oversight of the librarian. They are shop stations; and are of a temporary character,—experiments to test the need of a given locality for increased library facilities. Their popularity has shown that if the town should appropriate additional money to transform the shop station into a reading room with paid attendants that the work of the central library would be greatly extended. The Trustees feel that the next important question to be considered in connection with the library is the advisability of establishing reading rooms in various sections of the town. If a reading room, with magazines and books, in charge of an assistant was placed in an outlying district, it would be largely used, and would open more and more to the public the treasures of the library. Such centres for reading rooms, which ultimately would be branch libraries, might be Chestnut Hill, Boylston street, near St. Lawrence's Church, the Reservoir district, Coolidge corner, and near St. Mary's street. The cost of a reading room would probably be from \$900.00 to \$2,000.00 per annum, according to location and the length of the hours of opening.

While the Trustees are not ready at this time to recommend to the town the expenditure of such a sum of money as above indicated, they feel that the matter should be con-

SECOND FLOOR PLAN

sidered carefully and that the people should realize that the next forward step in the growth of the library will probably be the establishment of reading rooms in neighborhoods that seem to justify them.

Reference should be made to the seal of the library, especially designed for the carved medallion over the east door of the facade, which also may be used on the stationery and book plates. We are indebted to Mr. Pierre La Rose for the design, and to Mr. Sturgis, our architect, for the final rendering of it.

The Trustees ask the town for an appropriation of \$25,800 for the year 1911. In this appropriation is included, at the request of the Selectmen, the sum of \$300 for the maintenance of the Law Library at the Court House.

HENRY W. LAMB,

Treasurer.

REPORT OF THE LIBRARIAN.

Brookline, Mass., January 1, 1911.

To the Trustees of the Public Library:—

Gentlemen,—My report for the year 1910 covers the last months in the old library building, and the first four months in the new one. The moving of the books was begun on August 15th and finished on September 3d, the old building was closed to the public on August 28th, the transfer of the working equipment and the opening of the new building was effected on August 29th. The first months in our new quarters have been very busy ones, as there have been many readjustments to be made, and the usual work of the library has kept on relentlessly. The most difficult problem of moving was the division of our main collection into two parts, in order that the most frequently used books should go on the open shelves of the Book Room, and the less used ones in the stack below. This had to be done rather hurriedly at first, and then carefully revised afterwards. The general arrangement of books in the new building is working excellently; the Book Room with its open-shelf collection, and with its alcove for the reference books, seems a satisfactory arrangement for a library of this size. The pleasant and well-lighted alcoves are delightful retreats for the student and for the casual reader as well; and the stack below proves easily accessible by means of the two stairways. The little study room close by is found especially attractive in the evenings by the boys and men interested in the books on science and the useful arts which are shelved there. Especially popular with the public is the arrangement of the English fiction in the front alcoves of the Delivery Room. This plan of shelving fiction is recommended to all librarians who want to placate a public not contented unless the library buys fifty copies of each latest novel. In the Periodical Reading Room have been placed a much greater variety of magazines than were shelved in the old Gardner Hall, to try to satisfy more kinds of

BOOK ROOM

tastes. The new children's department shelves all its own books, which were formerly scattered in several parts of the old building. Altogether the general arrangement of the new building is proving a practical one for the convenience of the public and of the staff, and is happily justifying the various people responsible for it. Especially are the working force of the library contented with their convenient and ample quarters.

Among the new furnishings bought for the library should be noted two exhibition cases for the Delivery Room in which to show any books and manuscripts of general interest which the Library possesses.

Deposit Stations.

The year shows a considerable gain in circulation over all previous years at the Coolidge Corner Deposit Station. 20,165 volumes issued against 15,437 for the eleven months of 1909 and 18,463 for 1908. This is a very large record for a shop station, perhaps the largest issue of books that can be satisfactorily handled by such an agency. Slight gains are recorded at both the other stations. The work accomplished at all of these agencies is much better than nothing, but it is far from satisfactory. The Boston Public Library has discarded entirely the "shop station" as an unsatisfactory type of agency and has replaced it with the reading room, which, at a very moderate cost, serves the public many times as well,—since it combines reading room, reference department and the circulation of books to all ages, including children, who in the deposit station are necessarily neglected.

The Coolidge Corner Station has cost the Library about \$500 in 1910, including payment to Mr. Hayman, express charges, and, as nearly as we can estimate it, the work of superintendence and clerical labor. This amount does not, of course, include the cost of any books, it simply represents the expense of distributing them. From figures gathered from the reports of the libraries in Boston, Newton and Milton, the cost of running a combined reading room and deposit station to the satisfaction of Brookline would be from \$900 to \$2,000 a year, according to the size and location of the room obtained.

Children's Department.

The Children's Department has undergone many changes during the year. In June Miss Stanley, since October, 1899, its head, resigned to accept a position in the Library of the Department of Agriculture at Washington. Miss Stanley's work with the schools and her excellent judgment in the choice of children's books made her place in many ways difficult to fill. She had made herself most helpful to the teachers and her lessons to the 8th and 9th grade classes were very successful. Her place was filled in October by Miss Gertrude Lockwood, a graduate of Vassar College and of the Training School for Children's Librarians at Pittsburgh, who came to Brookline from New York, where she had been employed by the Child Welfare Committee in various kinds of investigating work. Miss Lockwood's especial talent is with the boys,—she is anxious to attract them to the Library, and lead them to a real interest in good books. Beginning with November the Children's Department was opened in the evenings, especially for the use of the older boys and girls, and Mr. Ernest Holway, a student at the School for Social Workers, was engaged to help during the evening hours and also on Sundays. Children under ten are not expected to come in the evening except accompanied by an older person. Mr. Holway and Miss Lockwood have begun to organize reading clubs among the older boys who come in the evening. The object of these clubs is to cultivate in the boys a steadier habit of coming to the Library and to arouse their interest in some special line of reading in connection with visits to places of educational interest in and around Boston. These visits Miss Lockwood plans to make with the boys during her own free time. Miss Lockwood would like to enlist the interest of some capable volunteers who would do the same work for the older girls.

A change has been made in the age limit in the Children's Rooms, so that now children are transferred to the Adult Department at fourteen, or when they enter the High School, instead of 12 as before. An intermediate card is issued for children between twelve and fourteen, which allows them two books on a card, and the collection in the Children's Room is being enlarged by the addition of many books for older chil-

ONE OF THE CHILDREN'S ROOMS

dren. It has seemed for a long time unwise to have to turn children of twelve into the adult fiction without guidance. Lists of books are now being prepared for an Intermediate Department for the use of boys and girls up to, and even beyond fourteen years; one of these, a list of wholesome fiction for girls, will be printed in the next bulletin. The very useful little list of "Something to read for boys and girls," compiled by Miss Stanley, has just been reprinted. At the suggestion of the Librarian, the Massachusetts Free Public Library Commission has arranged with Mr. Spencer to have 500 copies of this list for the use of the Commission in its work with the small libraries of the state.

Purchases of Books and Photographs.

Among important purchases of the year are the Cambridge Natural History, the Cambridge History of English Literature, a facsimile of the First Folio of Shakespeare, Berenson's Drawings of the Florentine Painters, a very beautiful illustrated work on the Sculptures of the Parthenon, by Arthur H. Smith, Keeper of Greek and Roman Antiquities in the British Museum, and two volumes of Latham's In English Homes. The Library has ordered the new edition of the Encyclopedia Britannica to be issued in January, 1911.

Many new and fine examples of Medici prints have been received, three of which have been framed for the Children's Rooms, and 426 new photographs have been added to our collection. A set of twelve gay and attractive pictures illustrating scenes in English history, published by Longman's, have been bought for the Children's Rooms. Three frames have been made for this set, so that all the pictures may in turn be exhibited.

Staff.

The changes in the Children's Department have already been mentioned. The vacancy caused by the resignation of Miss Kinsman in August was filled by Miss Susan H. James, a graduate of the Library School of Simmon's College, who began her work on July 15. Since September Miss Elta Coldwell has been employed, as a junior assistant to help in the Chil-

dren's Room and at the Delivery Desk. Extra clerical work has been done by Miss Louise Warren, Miss Eloise Holton and Miss Susie McDonald. The senior runner, Lewis Little, proved himself an invaluable helper during the moving, and since then he has done clerical and desk work in addition to some "running."

The work of moving into the new building taxed the energy of the staff and of the janitors. Everyone rose to the occasion and worked with enthusiasm, without which it would have been impossible to keep on with our regular work.

To the janitor force Miss Sarah Lyons was added in October, 1910, as the size of the new building and the elaboration of the heating and ventilating plant has greatly increased the work of the janitors.

Registration.

1101 former borrowers were re-registered in 1910 and 1565 new borrowers added to the register. Subtracting 175 names cancelled, we have 2491 to add to last year's total, making the whole number of adult cardholders at the present date 7925, to which must be added 1022 children registered in the Children's Department (424 newly registered), making a total of 8947 persons holding cards in the Library December 31, 1910.

The total number of new cardholders in 1910 is thus--1989 against 1173 for the 11 months of 1909, and 1571 in 1908,—an unprecedented increase of new borrowers.

Circulation.

171,628 books were issued for home use against 138,953 for the 11 months of 1909, and 164,573 for 1908. The proportion of fiction in the English language circulated was 57 per cent.

Accessions.

3,430 volumes have been added to the Library against 3,246 last year, (11 months). There are now in the Library 73,205 volumes. 176 titles of current fiction have been added, against 144 last year.

Yearly Inventory.

The record of volumes lost during 1910 according to the yearly inventory is 95. Appendix E at the end of this report gives the number of books missing for each year since our shelves have been open to the public. Each year a few books are found which had been recorded as lost on previous "missing lists." Last year's record is now reduced from 94 to 83.

Miscellaneous Matters.

The Librarian has turned into the town treasury \$1,117.84, being the total amount received during 1910 in fines for overdue books, payment for lost and damaged books, and the sale of reserve postals.

The four months, September to December, 1910, have shown to what extent the new building has increased the cost of maintenance. To the janitor's payroll about \$780 a year should be added, the heating expenses will include about \$200 for motor power and 125 more tons of coal than formerly. To the lighting estimate an addition of about \$225 must be made over 1909. To meet the added demands on the assistants at the Delivery Desk and in the Children's Rooms, one junior assistant has been employed at \$6.00 a week. Altogether the increase is not more than had been estimated, and especially the last item is made necessary more because of added demands from the public than because of the size of the building. One of the greatest satisfactions in moving into a well equipped and convenient building has been to meet these added demands, and to hear from all sides the approval shown by Brookline people of their new Library building.

Respectfully submitted,

LOUISA M. HOOPER,

Librarian.

Fall term begins September 11, ends December 22.

REPORT

The School Committee respectfully submit to the town the following report for the year ending December 31, 1910. On March 14, 1910, the Board effected the following organization:—

Franklin W. Hobbs, chairman; George I. Aldrich, secretary.

Committee on Buildings—Michael Driscoll, Walter Channing, Edward C. Mills.

Committee on Finance—Franklin W. Hobbs, Michael Driscoll, Thomas B. Fitzpatrick.

Committee on Hygiene—Walter Channing, Edith C. Baker, Fred H. Robinson.

Committee on Teachers—Edith C. Baker, Ruth C. Paine, William H. White.

Committee on Text-Books and Courses of Study—Ruth C. Paine, Edward C. Mills, William H. White.

The Michael Driscoll School.

In its last report the Board advised the town of the necessity of providing additional school accommodations and recommended that the tract of land bordered by Westbourne Terrace, Bartlett Crescent, and a private way be purchased and a building of eight rooms be erected thereon. In pursuance of this recommendation, the town has taken action as to site and as to building which may be detailed as follows:—

At the adjourned annual meeting, held on March 16th, 1910, acting under the seventh article, the town voted, "That three tracts of land within the territory bounded by Westbourne Terrace, Bartlett Crescent, and a private way, and belonging respectively to the Brookline Savings Bank, Henry W. Estabrook, and Daniel Dewar, and containing respectively about 30,700, 24,284 and 23,129 square feet be purchased for the purpose of building a school house or school houses thereon, and that twenty-nine thousand five hundred dollars (\$29,500) be appropriated therefor."

At the special town meeting held on June 1, 1910, article three read as follows:—"To appropriate eighteen thousand dollars (\$18,000) for the purchase of a lot of land for school purposes, containing about thirty-six thousand (36,000) square feet, between Westbourne Terrace, a private way and land now owned by the town and to authorize the Treasurer to borrow the same."

Acting upon this article, the town voted,—“That the Selectmen be authorized to purchase a lot of land for school purposes, containing about thirty-six thousand (36,000) square feet, between Westbourne Terrace, a private way, and land now owned by the town and that the sum of eighteen thousand dollars (\$18,000) be and the same is hereby appropriated therefor.”

As a result of the action taken at these two meetings the town has become the owner of all the land bounded as indicated above and comprising about 2.6 acres. While the site is near the electric lines, it is sufficiently removed from a main thoroughfare to ensure the safety of children and to escape the noise caused by traffic. It is the confident expectation of the Committee that this site will prove well adapted to the needs of the section which it is designed to serve.

Turning now from land to building, the Committee reports as follows:—Article eight in the warrant for the annual town meeting proposed to authorize the School Committee to erect an eight-room school house and to appropriate for the purpose eighty-four thousand five hundred dollars \$(84,500). Acting upon this article at the adjourned meeting of March 16, 1910, the town voted,—“That the subject matter of the eighth article be referred to the School Committee to report thereon at the next town meeting; and that the School Committee be authorized to procure plans and estimates for an eight-room primary school house on land on Westbourne Terrace and that fifteen hundred dollars (\$1,500) be appropriated therefor.” At the special town meeting held on June 1, 1910, the School Committee reported that, acting on the authority thus given by the town, they had caused plans and specifications for an eight-room building to be prepared by Messrs. Kilham & Hopkins, Architects, and had secured from them

reliable builders' estimates of the cost of erecting such structure. Upon the recommendation of the Committee, the town voted,—“That the School Committee be authorized to erect an eight-room primary school building on land owned by the town on Westbourne Terrace, at a cost not exceeding seventy-five thousand dollars (\$75,000) and that the sum of seventy-five thousand dollars (\$75,000) be and the same is hereby appropriated for the cost thereof.”

On August 8, 1910, the School Board executed, in behalf of the town, a contract with the Carroll Construction Co. for the erection of the building and on the same date signed a contract with Frank B. Connor for the plumbing. A subsequent contract with the Chase and Baker Co., bearing date September 29, provides for heating and ventilation. The aggregate of these three contracts is \$60,523. In the course of construction some extra expense may arise and the architect's commission must be provided for. Of necessity, the Committee defer to a later time a more detailed report, remarking only that fairly satisfactory progress is being made upon the building, which is to be ready for occupancy in September, 1911.

Appropriations thus far make no provision for equipment and furnishing. For this purpose the additional sum of \$6,250.00 will be asked for at the approaching annual meeting.

As already announced, the Committee has named the Westbourne Terrace School in honor of the senior member of the Board and is confident that its action will be approved by the people of the town. Mr. Michael Driscoll became a member of the School Committee in March, 1874, and has already completed thirty-six years of continuous service. In the annual report of the Committee for the year ending January 31, 1904, written by Prentiss Cummings, Esq., the following paragraph appears:—

“With the present year Mr. Driscoll completes thirty years of continuous service on this Board; and his associates wish to record here their high appreciation of the value of his service, and the faithfulness and intelligence with which that service has been rendered. To a person attentive to his duties as he has always been, the position is no sinecure; and his election so many times repeated is alike creditable to him and to the town.”

At the Board Meeting of December 12, 1910, Mr. Hobbs presented the following resolution which was adopted by the unanimous vote of the associates of the gentleman named therein:—

“Whereas, Mr. Michael Driscoll has served the town faithfully as a member of the School Committee during more than thirty-six years, and, whereas, his associates on the School Board deem it fitting that service of such unusual length, characterized by unflagging zeal and sound judgment, should receive recognition; Therefore,—be it resolved that the school for which a building is now in process of erection on Westbourne Terrace be designated, the ‘Michael Driscoll School.’ ”

Renovation of Interiors.

At the last annual town meeting the sum of two thousand four hundred dollars (\$2,400) was appropriated for the interior renovation of the Devotion and the Pierce Grammar buildings. During the summer vacation this work was carried out with thoroughness and the two interiors are now as good as when the buildings were first erected.

The following statement shows what has been done in this direction during the eight years 1903-1910:—

- 1903 Lincoln Grammar (in part).
- 1904 Lincoln Grammar (completed).
- 1905 Lawrence.
- 1906 Cabot and Sewall.
- 1907 Devotion Primary.
- 1908 High.
- 1909 Lincoln Primary, Longwood, Parsons, Winthrop.
- 1910 Devotion Grammar, Pierce Grammar.

In this statement appear the names of all our school buildings except the Newton Street and the Runkle (1901), the Manual Training Building (1902), the Heath (1904) and the Pierce Primary (1905). The dates connected with the four buildings last named indicate the time at which, by original construction or by enlargement, interiors were thoroughly dealt with. The Board retains confidence in the wisdom of a general adherence to the policy of recent years in accordance with which, during the summer vacation, one or more interiors have been thoroughly renovated. It is of opinion, however,

that during the summer of 1911 conditions justify an exception to such general policy.

William H. Lincoln Fund.

It gives the Board much pleasure to record the further gift of \$5,000 to this fund by Mr. Lincoln, who has thus once more shown in a substantial manner his deep and continuing interest in our schools. The income of the fund has been used to great advantage to help meritorious students in different institutions continue their work.

In this connection, we repeat the hope expressed one year ago that other citizens may imitate the example of Mr. Lincoln. The school bearing his name is not the only one where such benefaction is greatly needed.

Tenure of Office.

The Board has had this matter under consideration for some years, and, believing the adoption of such a policy would be appreciated by the teaching force and improve the service, the rules were amended at a meeting of the Board held on May 9, 1910, so that section 5 of Chapter III now reads:—

“At the regular meeting in May the Board shall appoint such teachers as may be required for the ensuing school year and fix their compensation. Upon the concurrent recommendation of the Committee on Teachers and the Superintendent of Schools, teachers who have been in the service of the town for two years may be appointed to serve during the pleasure of the Committee.”

A large number of teachers have already been appointed under provision of this rule and the Board believes that the results will justify its action.

The work of collecting the savings of the school children has been carried on as usual and needs no special comment at

Penny Savings.

the present time. No account being made of the large amount of labor performed by clerks in the office of the Superintendent and by teachers, the expenses of conducting this system of savings may be summarized as follows:—

Interest on deposits		\$74 38
Printing stamp cards	\$14 75	
Auditing cancelled stamps	15 75	
		<hr/> 30 50
Net proceeds		<hr/> \$43 88

Financial.

At the adjourned annual meeting, held on March 16, 1910, appropriations for the maintenance of public schools were made, as usual, under several different headings. As the end of the year approached, it became evident that in case of Grammar and Primary Schools, Manual Training, General School Expenses, and Vacation Schools the appropriations made in March would prove inadequate. Accordingly, at the special town meeting held on December 28, 1910, upon the recommendation of the School Committee, additional appropriations aggregating \$1,310 were made for these purposes. At the time this recommendation was made, it was hoped that the unexpended balances in case of three other appropriations, viz.: that made for the High School, that made for Kindergartens, and that made for Evening Schools, would exceed the additional appropriations recommended at the special town meeting. In this expectation the Board has been partially disappointed.

An attempt has been made to get in all bills properly chargeable to the current fiscal year and the following table shows the condition of the several appropriations at the end of such year.

In the Estimate of Ordinary Expenses for 1910, which appears on page 7 of the last annual report of the Board, the amount recommended for General School Expenses included the sum of \$1,065 designed for the payment of pensions. At the annual town meeting of March 16, 1910, this amount was separately appropriated, the amount appropriated for General School Expenses being \$20,360.

FISCAL YEAR 1910.

Vacation Schools and School

Gardens	****2,060 00	2,055 97	4 03
---------------	--------------	----------	------

* Of this amount \$800 was appropriated at the Special Town Meeting of December 28, 1910.

** Of this amount \$150 was appropriated at the Special Town Meeting of December 28, 1910.

*** Of this amount \$300 was appropriated at the Special Town Meeting of December 28, 1910.

**** Of this amount \$60 was appropriated at the Special Town Meeting of December 28, 1910.

In making up the figures for the coming year it has been necessary to provide for, certain expenses in connection with the Michael Driscoll School, which it is planned to open next September. For that purpose there has been included in the appropriations the sum of \$2,500, which, of course, is an entirely new expense this year.

Last year the Board adopted a new basis of maximum salaries so that, as then stated, they would be "on a parity with salaries paid for similar positions in other towns and thus make it possible for the Board to do justice to our teachers." The Board has again carefully considered the whole subject of salaries of teachers, and, while it thinks it neither advisable nor necessary to increase the new maximum salaries established last year, it feels it wise to so increase the salaries of those who have long been in the service of the town, that, as far as possible, they may receive the maximum in the respective grades.

Increases of salaries on this account make up practically all the additional amount in the estimates, as compared with last year, except that due to the new school.

The Board has felt that, in making the more rapid advances in salaries as indicated, it was doing justice to a large number of faithful teachers and that the adoption of such a policy would be met with general favor by the citizens of the town. It is glad that outside of salaries it is able to keep down general expenses and yet maintain the accepted high standard of the past.

. ESTIMATE OF ORDINARY EXPENSES FOR 1911.

High School	\$49,142 00
Grammar and Primary Schools	120,927 00
Kindergartens	19,305 00
Manual Training and Domestic Arts	24,650 00
General School Expenses	21,322 00
Evening Schools	2,000 00
	<hr/>
	\$237,346 00
For maintenance of Vacation Schools, including cost of School Gardens	\$2,000 00
For Pensions	1,325 00

In making the annual appropriation vote "for maintaining the public schools," the following clause is always added: "All money received for tuition fees or otherwise shall be paid into the Treasury and is not appropriated for school purposes." Under that clause the following amounts have been paid into the Treasury during the past five years:—

Fiscal year ending Dec. 31, 1910.....	\$5,678 13
Dec. 31, 1909.....	5,791 25
Jan. 31, 1909.....	7,023 88
Jan. 31, 1908.....	4,283 50
Jan. 31, 1907.....	3,541 00

In other words the cost of maintaining the public schools would have been reduced each year by the amount named, if the amount had been so applied instead of being paid into the Treasury.

Superintendent's Report.

For detailed information as to the work and condition of the schools, reference is hereby made to the accompanying report of the Superintendent of Schools.

REPORT OF THE SUPERINTENDENT.

To the School Committee of Brookline:—

The regulations of the public schools make it the duty of their Superintendent to "prepare and present in January to the Board for publication, an annual report of the condition of the schools for the year preceding, together with such suggestions and statistics as he may deem worthy of consideration." In compliance with this regulation, the following report is submitted, immediately for your consideration and subsequently for the consideration of the people of the town. In the performance of their official duties, members of school boards become well acquainted with local educational conditions and being closely and constantly associated with their executive officer, stand in slight need of any formal and extended statement from him. In case of the general public, conditions are quite different. Families having children in the schools naturally, and perhaps inevitably, form their impressions as to the worth and efficiency of the schools from their individual experiences and, doubtless, this will always be the case. It is obvious, however, that impressions so formed rest on knowledge too restricted to justify any sweeping generalization. While it sometimes happens that unjust criticism is the outcome of such limited knowledge, it happens occasionally that extravagant and undeserved laudation is the result. Even in a system of schools characterized, in general, by loftiness of aim and unity of endeavor, marked differences will exist and quite an extended and thorough acquaintance is requisite before one may safely approve or condemn. In the case of households having no children in the schools, opinion will be determined in large measure by the utterances of friends and acquaintances who are directly represented therein. While it is true that the immediate management of American public schools is in the hands of school committees, supervisors and teachers, what this body of officials and workers can accomplish is ultimately and in largest degree determined by the

measure of public confidence which the schools command. It is extremely important that this truth be generally realized and it is always desirable that opportunities for giving it prominence be utilized. First, and well nigh foremost, is the fact that schools depend on public confidence for adequate financial support.

Modern schools are undoubtedly expensive. The aggregate of expenditures for their maintenance is very large in spite of the fact that the recognition of personal service, that item which is by far the largest in any educational budget, is pitifully inadequate. If one contrasts the old and the new in education, his attention is at once drawn to the great increase in expense, and even they whose faith in the efficacy of education is strongest sometimes doubt whether there has been a corresponding increase in the value of the product. In passing, it may be remarked that however great has been the increase in expenditures for public education, in other departments of municipal expenditures the increase has been even greater. The points to be emphasized, however, are that schools which lack adequate financial support are certain to be inefficient, and that liberal expenditures, while not the only condition of efficiency, are indispensable for such result. Before a community will provide cheerfully and with alacrity for the support of its schools, it must have come to believe in them. Not less essential, however, than adequate financial support is another sort which cannot be mentioned by dollars or indicated by symbols of any sort. Perhaps one may speak of it as moral support. It manifests itself first in the scrupulous care with which, from out the community, representatives are chosen to whom shall be delegated the management of public education. Just now there is evident a somewhat widespread disposition to question a practice of very long standing in the English speaking world, viz.: the dependence on representatives for the administration of public affairs. Whatever be the outcome of this agitation in other directions, it will, I think, be found that present day education cannot be administered successfully by caucus, town meeting, or by general convention of any sort. Even in early Colonial days, in the days of the school district and the district meeting,—that embodiment of pure democracy,

when public education was as simple as it is now complex, even then the assembly confined itself to direct action upon a small number of simple matters, and chose a Prudential Committee to act for it in all matters of detail. That practice has continued to the present day and is likely to remain our settled policy. True it is that school officials have not always been chosen wisely by the people, for too often it has happened that a man seeking political preferment, membership on the Board of Selectmen, in the City Council, or in the Legislature, has been permitted to make use of a place upon the School Board as a stepping stone to the position which he wished to attain. This, however, has been the exception rather than the rule. Since the earliest New England days, when to the select men of the town—note the fitness of the term select men—were entrusted all the affairs of the town, educational included, our school committees have been composed in the main of select men and women who have served with an eye single to the public good. I note, then, as the first element in the moral support which an enlightened community will render its schools, extreme vigilance and abundant wisdom in the choice of its representatives. I come now to a matter in which our record as a people is far less satisfactory. It is one of our weaknesses in the conduct of affairs, whether national, state or municipal, that, not content with general control in government, we insist too often on having a hand in the details of administration. Here we have one of the false implications of democracy. It is possible and desirable that the entire people concern itself with government, but for administration which is to attain a high measure of efficiency, the people must trust the officials whom they have themselves chosen. Perhaps we have nowhere else been slower to learn this lesson than in the field of education. In general, the smaller and more remote the community, the more dogged and persistent the determination to have a hand in the minutiae of administration. It is not urged that the community would err generally, or even with great frequency, if it had time, opportunity and inclination for a careful and complete study of the great variety of administrative problems which present themselves. In the

very nature of things such study is impossible, and just as there are individuals who are prone by temperament to decide causes first and, subsequently perchance, if it prove convenient, to try them, so too often a community with incomplete knowledge, or possibly ruled by representations which are false or fraudulent, interferes in administration with results disastrous to the very interests which it has most at heart. In general, then, we may name three conditions as indispensable to the success of public education,—first, adequate pecuniary support; second, wisdom in the choice of school committees who are, practically, trustees acting for the entire people, and third, a generous and steadfast determination to place confidence in such officials and a disposition to leave in their hands the details of administration. If the pertinence of this brief discussion be questioned, I revert to the suggestion already made that the annual report of the Superintendent of Schools, while addressed immediately to his official superiors, ought to have a large sphere of influence. Such report, in addition to making record of those facts and figures which are worthy of preservation, ought to attempt at least to do something to broaden and strengthen those foundations of public confidence on which the American public school must rest if it is to bear with success the many burdens laid upon it. I do not for a moment suppose that public confidence is to be secured by manifesto, proclamation, or exhorting of any sort. It is far too valuable a possession to be thus easily secured. However, only a public which is well informed can be depended upon to bestow such confidence and continue steadfast therein. This does not imply that an enlightened public will care to acquaint itself with matters of detail. Very likely it will display its enlightenment by refusing to become so acquainted. Much less does it imply any disposition on the part of the public to supersede its chosen representatives in the performance of their varied and manifold duties. It does imply, however, an intelligent and general comprehension of the great ends for which schools are maintained and a sympathetic understanding of the efforts put forth for the attainment of these ends. In the last analysis, it will be found that schools win for them-

selves that degree of public confidence and appreciation to which their intrinsic excellence fairly entitles them. There may be temporary misunderstanding or misgiving on the part of the public, but the final outcome will be that which I have just indicated. While our main reliance must be upon this fact, an occasional statement as to existing conditions and as to the aims and ideals which control those in immediate charge of the schools, is likely to prove a helpful contribution toward the desired result. Reserving, then, for subsequent pages those statistical matters which, though uninteresting, constitute a necessary and useful portion of a school report, I undertake a brief account of what the schools are at present doing, or attempting to do, for the children of the town. The expression "what the schools are doing" is convenient rather than exact. Strictly speaking, a school in its elements consists of a company of learners and a teacher. By the latter and upon the former the great work is done. This report, then, is designed for the home market and in its earlier pages presents a sketch of what the schools are attempting. It is convenient to speak, first, of measures designated to promote the physical welfare of the children; second, of matters which pertain to their intellectual training, and third, of the school as an agency for moral training. I am aware that this arrangement of topics smacks of the older psychology which just now is somewhat unjustly discredited. It will be found, however, well suited to the present purpose. While, as everybody knows, in practice these forms of training—physical, intellectual, moral—are most intimately and indissolubly connected, admitting of no separation, for purposes of discussion it is quite permissible to speak of each in turn. I make no pretense of completeness in what follows. As already intimated, I wish to remind the public which supports the schools of the magnitude and importance of the work attempted by the schools to the end that public support may become even more intelligent, cheerful and steadfast than it has been in times past.

One year ago I devoted considerable space to a discussion

of industrial or vocational training and consequently feel justified in omitting mention of it at this time.

As to Physical Welfare of Pupils.

An intelligent regard for the physical well-being of children in attendance upon schools involves attention to many matters, prominent among them the following:—School grounds should be sufficiently extensive to provide adequately for out-of-door play. There should be room for the organized sports which appeal to the older pupils, one part of the grounds devoted to the rougher sports in which boys ought, generally, to indulge, one part assigned to the older girls and still another to the little children. Buildings should be so commodious as to preclude crowded class rooms, adequately and properly lighted, judiciously heated, and provided with an abundant supply of fresh, pure air. The color on walls should be restful to the eyes and so chosen as to insure the best conditions for vision. For clothes rooms, direct connection with the outer air and an abundance of sunshine are desirable, together with sufficient space to avoid contact between the garments of different individuals. School furniture should be adjustable to the needs of all pupils. As far as practicable, there should be an avoidance of the use in common of such articles as drinking cups and of pencils which are carried so often to the lips. All these items, necessary as they are, depend for their right use upon the intelligence, the thoughtfulness and the discretion of teachers. Upon the teacher, also, we must depend not only for all formal instruction in physiology and hygiene, but for efficiency in the management of prescribed exercises in physical training and for vigilant and increasing attention to a variety of other matters, such as the position of pupils in whatever pursuit they chance to be engaged, whether sitting, standing or walking. The mention of physical training prompts me to remind the community of the important place it now occupies in the schools. At an earlier time, when our population was rural rather than urban, when living was far simpler and when most boys and girls performed a variety of domestic duties, indoors and

out of doors, the need that the schools should devote time and attention to physical training was comparatively slight. With conditions greatly changed, it has become a necessity. Properly regarded it is, in considerable degree, an artificial substitute, but perhaps the best available, for that which at other times and under other circumstances comes as a natural incident to existence. Boys and girls of the farm and the village stood in slight need of calisthenics, but for children born and reared in steam-heated houses, responsible for no household tasks, deprived of all opportunities for the development of strength, skill of hand and resourcefulness, must be provided such artificial substitutes as physical and manual training.

While these school room practices are under the immediate observation and control of the teacher, he will do what lies in his power to influence for good the procedure of pupils in such out of school matters as diet, clothing, exercise, sleep, bathing. It is true that immediate responsibility in the things just named should rest upon parents, and evidence is not lacking of a very general appreciation of such responsibility. The intelligent and thoughtful parent will, however, welcome the coöperation of the teacher, and when the home fails to meet its responsibility—as just now in so many particulars it is doing—the school must do what it can to make good the omission.

By the employment of well trained physicians as medical inspectors, any risk which is incident to the assembling of pupils for purposes of instruction is reduced to the minimum.

In this respect, far from being a menace to the health of the community, there is reason to think that the school provided with adequate medical inspection, makes an important contribution thereto. As evidence of this, we have the considerably large number of physical defects which are disclosed by the examinations conducted at the schools and the remedial measures which follow such disclosures. A somewhat later comer than the inspector is the school nurse, who, in case of need, follows the children into the homes, often proving of invaluable assistance to unintelligent or over-burdened mothers and thus extending the influence of the school.

Two years have now elapsed since the employment of the first school nurse in Brookline. On subsequent pages will be found a report covering these two years, prepared at my request by Miss Ida M. Lewis, whose highly efficient service has completely justified her appointment to this important position. While it is to be hoped that the idea is not widespread, people are to be found who seem to think that intellectual effort is prejudicial to health. As matter of fact, I think it clearly demonstrable that the truth is just the reverse. The teacher who, by appeals to right motives, secures from his pupils a large measure of vigorous mental activity, or to put it in the simplest terms, a large amount of interested, intelligent and earnest study, will be found to make a very important contribution to their bodily health. If, unfortunately, a child is born a weakling or through illness or misfortune of any kind has become such, the school should not be held responsible for his condition nor should the school regime be greatly modified on his account. In spite of existing ailments, healthy children are the rule, not the exception, and, due regard being had for age and capabilities, it will be found that children who study, and study hard, are not only the most healthy, but the happiest. They work while they work, and when the time comes for play they enter into it with hearty zest, more or less conscious that they have earned the right to enjoy it. That would be a very inadequate discussion of the school as an agency for promoting the physical welfare of the community which confined itself to results accomplished with children while they remain at school. Important and valuable as such results are, they are but the beginning. "First the blade, then the ear, then the full grain in the ear."

The majority of the children are to reach maturity, becoming parents and giving place to another generation of children. The ideas which today they are acquiring at school and the habits which they are now forming, will in the future not only influence their management of their own lives, but render them more nearly equal to the task of bringing up wisely the children who shall succeed them.

For school grounds, buildings, equipment, for the maintenance of a high standard of school sanitation, for medical

inspectors and nurse, for the physical examination of school children, for the employment of a supervisor of physical training and special instructors therein, the town of Brookline spends money liberally, and while such liberality is to a certain degree praiseworthy, we shall do well to remember that it involves nothing in the way of hardship or self-denial. Many a community, out of limited means, is doing relatively far more for its children. Still, for our own self respect, we ought to realize that money expended for the purposes now under discussion is devoted to worthy and important ends and we ought to cherish a hope that, if a time came when we felt the pinch of such expenditures, we should yet continue to make them because of a conviction of their vital necessity.

As to Intellectual Training.

As once quite generally conceived, it was the sole function of the school to teach children to read, write and cipher. In New England, at the middle of the seventeenth century, the course of study prescribed for the elementary schools comprised only reading and writing. In the years which have elapsed since that time, we have come by successive steps from the simple program of 1647 to the elaborate course of studies of the present day. It is not my present purpose to consider how or why these changes have occurred, nor do I enter on the vexed question of the relative efficiency of old-time and modern schools. While it is doubtless true that the human mind has not greatly changed in all these years—or since the days of Plato for that matter—it is equally obvious that the intellectual equipment which was fairly adequate at one stage of the world's history becomes hopelessly insufficient at a later stage. Adhering to the intention announced on an earlier page, I wish to comment as briefly as possible upon the extent and value of the intellectual training which the schools of Brookline are today offering to the children of Brookline in order, if need be, to strengthen the confidence of the community in the course which it is pursuing, and consequently to secure the permanence and (very) possibly the extension of such policy. Of the large amount of money expended annually upon the schools, something over seventy-

five per cent. is paid for personal service of one sort or another. There are two principal ways in which this expenditure might be lessened. It would be possible to increase the number of pupils assigned to each teacher, or to diminish the compensation of teachers. It is just cause for satisfaction that our people would emphatically disapprove either measure. Expenditures might also be reduced by modifications in the course of study, both for the elementary schools and the high school, involving either the curtailment or the omission of subject matter now contained therein. If, indeed, reduction of expenditures were the object sought, without regard to resulting effects upon the school system of the town, other possibilities can easily be shown. For instance, the town is under no legal obligation to maintain kindergartens and might save nearly twenty thousand dollars annually by their discontinuance. The existing situation may be described as follows:—As for *opportunities* offered pupils, there is scarcely a lack. Recognizing the fundamental importance of that restricted education commonly spoken of as the three R's, the greatest attention is paid to them. If any pupil in continuous attendance upon a Brookline school does not become able to read, spell, write and cipher, it cannot be alleged truly that he has lacked either time or opportunity to acquire a reasonable mastery of these indispensable arts. In addition to these pursuits, generous recognition has been given to the other subjects of study, geography, grammar, history, drawing, music, etc., which make up the curriculum of the modern elementary school, while its policy with reference to the high school has been equally liberal. The community has done its part generously. It chances, however, that opportunity is not today, and never was, the determining factor in education. Opportunity of some sort there must, indeed, be, but the individual determines for himself what use he will make of his chance. And so it may happen that a boy or girl in attendance on a meagerly supported rural school profits in far greater degree than do other children to whom a wealth of opportunity is freely offered in schools more adequately supported. Whatever be true as to adequacy of support, in the case of practically all children the extent and rapidity of intellectual prog-

ress will be determined by the character of the teaching. At present there seems a strong likelihood that this most important fact will be overlooked. If one passes in review current educational literature, or scans the programs of educational meetings, he can scarcely fail to be impressed by the great number and amazing variety of topics presented for discussion. While they vary greatly in interest and importance, all, or nearly all, have some just claim to consideration. The surprising thing is that, whether in printed matter or at gatherings of teachers, the art of teaching either finds no recognition or, if any, then of the scantiest sort. Of course, the world will continue to use the term "teacher" as designating the person charged with the management of a school and the term "teaching" as indicating a pursuit which comprises a multitude of details almost endless in number and of almost infinite variety, and with such established and popular use of the two words it would be foolish to quarrel. It is highly desirable, however, and perhaps never more so than now, that we should not lose sight of the fact that these words have also a special meaning. Among the arts, the fine arts as some have thought, is one which bears the name of *teaching*, and the person who practises this art and because of this fact is called a "*teacher*." It may be freely admitted that certain personal qualities,—as examples of which sympathy, enthusiasm, tact, patience, insight, persistence and precision may be cited, are indispensable to success in the school room, and that if a choice between them and technical skill were unavoidable, technique would take the second place. As long as like begets like, this will remain true. Thomas Arnold, Mark Hopkins, Mary Lyon and a host of others living and dead were or are great teachers first and foremost because of their greatness as men and women. The all-important point is that a large number of worthies, equally good and equally great, have proved, and will always prove, dismal failures as teachers. If we seek to explain the efficiency of certain of the old-time schools, conducted by men and women absolutely ignorant of the history of education, knowing nothing of it either as a science or an art, we shall find the explanation to lie in the personal qualities which they possessed. Efficient as they

were, they would have been much more so had they possessed that skill in technique which today is an indispensable requisite even though it be a secondary one. In the days when school programs were simple, one factor might suffice, but now we must have both. Most of the old-time schools were miserably inefficient, presided over by persons who possessed neither the personal qualities to which I have referred nor any vestige of skill in the art which they were supposed to practise. And the conditions of the present day are not so widely different. The right kind of men and women are still hard to find, and in spite of the good work accomplished by Normal schools, educational reformers, and similar agencies, too many schools are yet in charge of persons who as *teachers* have no skill. What a child learns,—I speak now in a quantitative sense,—is certainly important, but the manner of acquiring is often more important than the acquisition itself. Whether his mental powers shall be called into full activity and at least a beginning be made on the formation of desirable intellectual habits—all this, and much more, depends on skilful teaching. It is true that certain persons are possessed of very marked aptitude for one pursuit or another. In the case of teaching, such aptitude is a very valuable asset, but does not alone suffice. Any adequate discussion of the matter would unavoidably be too long and would, of necessity, become somewhat technical. My only reason for introducing it at all arises from my wish to suggest that when we consider what the schools of the town are doing for the children of the town, the answer is this:—The majority of our staff know of the existence of *teaching as an art*. In varying degrees they have acquired skill in the art and, what is best of all, they are disposed to make any reasonable effort to enhance that skill. A day's work at school comprises many and important forms of activity other than teaching, but that must be regarded as a sorry day which comprises no teaching. While skill in the art is only to be expected of teachers, the public should at least know of the existence of the art and realize the immense importance of entrusting children to those only who have developed skill therein. While it is true that *teaching*, in the special sense that I have been using the word, carries with it

its own exceeding great reward, those who work in schools would be stimulated by a growing perception on part of the public of the great difference between those who merely "keep school" and those who truly teach.

As to Moral Training.

Five years ago, in my report for the year ending January 31, 1906, I devoted a number of pages to the discussion of the "school as an agency for the moral training of children." As I read those pages today, the views expressed seem to me sound, and I am half tempted to reproduce them without change. It will, perhaps, be wiser to express the same opinions in a different way. There was a time, or we think there was, when the primary responsibility for the moral training of children rested upon the home which was conscious of its obligation and tried earnestly to fulfil it. At that time the church, with the Sunday School, occupied a position of authority and influence which it has in great measure lost. Upon these two agencies, the home and the church, the community depended primarily for the religious and the moral training of its children and youth. Of course, then, as now, there were thoughtful and discerning people who saw clearly what a tremendous contribution, in the domain of moral training, was made by such secular schools as chanced to have teachers of the right sort. If I call attention to the failure of many homes of today to meet the obligation which now as much as ever rests upon them, it is not because I overlook the greater number which are keenly alive to such obligation and which do meet it successfully. For reasons which I do not attempt to outline, the authority and influence of churches and Sunday Schools has become greatly impaired. Here, again, one must not fail to recognize the magnificent work still accomplished by these organizations, but nobody is more ready to admit and lament the impairment of influence and authority just alluded to than the most zealous and devoted workers to be found within them. The result of these changes has been to place a burden on the school which it was not designed or expected to carry. In pursuance of my purpose to remind our community of the returns which it is daily getting from the schools that it supports, I suggest that, transcending in

value the results accomplished in either the domain of physical or intellectual training, are those produced in the fields now under discussion. In the earlier report referred to, I attempted to show in detail how the school does this work. In a scale of ascending values, attention was called first to the silent influence exerted by school premises of the right sort, second to the influence exerted by the daily routine of the school, demanding the constant exercise of such virtues as regularity, punctuality, neatness, accuracy, silence, industry and obedience, involving due regard for the rights of others and so making necessary thoughtfulness and courtesy; third, to the fact that each subject of instruction in the school curriculum has an ethical as well as an intellectual value and that, to a teacher possessed of insight, the latter is often the more vital, and fourth, most important of all, to the personality of the teacher. Of course, it is commonplace to say that the last named element transcends all others in importance. Thoughtful people, especially those who have read widely, realize how many illustrations of this fact may be found. I content myself just now with mention of the latest to fall under my own eye. In the "Life and Letters of George Bancroft," the following reference to his school days in Phillips Academy, Exeter, may be found:

"The principal of the school, Dr. Benjamin Abbot, was one of the great teachers, in the days before great schools, who impressed themselves indelibly upon the lives of their young pupils. When in 1870 Bancroft, Minister at Berlin, wrote to a trustee of the Phillips Exeter Academy about a scholarship he was planning to endow, he said: 'A schoolboy is forgotten in the places of his haunts, but for himself he can never forget them. Exeter is dear to me for the veneration in which I hold Dr. Abbot, my incomparable preceptor, and for the helping hand extended to me by its endowments.' In 1883 when he presided at the centennial dinner of the school, he said of his master: 'In the time that I was under his care I cannot recall from any pupil a saying about him that was not full of respect. Today, though it is seventy years since I passed from his care, my heart warms with affection as I recall his name.'"

Only the future can disclose the extent to which Brookline children now in attendance on the schools of the town will, in later life, recall the experiences of their childhood in a similar way. But this we know now. The schools are in charge of a company of devoted men and women chosen with sole regard to character and fitness, who are giving themselves unsparingly to the tasks entrusted to them. Day by day, they are developing interests, awakening motives, creating aspirations which, at a later time, will have their certain fruitage. One of our wise men has said that "Conduct is three-fourths of life." The public school is a powerful factor, not only in determining the present conduct of children now in attendance upon it, but also in determining their conduct as men and women in years which are yet to come. Only a community which is keenly alive to this fact will estimate truly the worth of a really good school and abide steadfast in its determination that only such schools shall be provided for its children and youth.

Physical Examinations of School Children.

Five years have now elapsed since these examinations were begun in the early months of 1906. The schools reports which have subsequently appeared contain accounts of these examinations, written in the main by the medical men who have conducted them. By way of continuing the record I append communications from Dr. H. Lincoln Chase, Chief Medical Inspector; from Doctors Brainerd and Potter, and from Miss Ida M. Lewis, the school nurse.

Dr. Chase.

Brookline, Mass., Dec. 31, 1910.

I have the honor to submit the following report as Chief Medical Inspector:

The regular inspection work and that of our specialists has been similar in character to that fully reported on for previous years. The inspectors and the specialists, with a single exception, have been the same as last year. Their work has been painstaking and effective.

The school nurse's work, which I described in last year's report,

has proven of still greater value than the first year, and elsewhere is fully reported on.

The special inspections, in the immediate charge of Drs. Potter and Brainerd, are described in their subjoined reports.

In regard to the two matters that a year ago I called special attention to, namely, (1) better air in our school rooms, and (2) better school lunches, I can report some progress, but not as rapid progress as I could wish. The special report and recommendation that I recently made to the Sub-Committee on Hygiene contains my views on this important matter of pure air, and I earnestly hope its recommendations may soon be in effect.

Respectfully submitted,

H. LINCOLN CHASE,

Chief Medical Inspector.

Dr. Brainerd.

During the year 1910 the work of the Ear, Nose and Throat Department has included the Longwood School, the Lincoln School and a part of the Pierce School.

The examinations have ceased to be a bugbear to the child, and in but one case was the examination omitted at the request of a parent. As to results obtained from our "recommendations to parent": Among the well-to-do there is much interest, the child is placed under proper care and the case progresses finely, but among the poorer families the children are obliged to attend the overcrowded clinic of some Boston hospital where they must become clinical material or accept such attention as a busy surgeon can grant them during the time he attends at the clinic.

What this department needs is some place in Brookline where these children can be cared for by Brookline men whose attitude toward the case shall be not, "What can this child do for us?" but "What can we best do for this child?"

In closing, let me again acknowledge the excellent work of my co-laborers in this field—Dr. C. R. C. Borden and Dr. H. V. McLaughlin, both of Brookline.

Respectfully submitted,

JOHN F. BRAINERD, M.D.

Dr. Potter.

I herewith submit a report of work done in dental hygiene during the year 1910.

Second examination of the teeth of the pupils of the Heath Primary and Grammar School, February 10, 17, 24, 1910:

Mouths rated in good condition.....	71	22%
Mouths rated in fair condition.....	151	48%
Mouths rated in poor condition.....	94	30%
	<hr/>	<hr/>
	316	100

This examination shows an increase in number of mouths rated in good condition of 5%, and a decrease in number of mouths rated in poor condition of 7% as compared with the first examination of this school made March, 1908.

* Second examination of the teeth of the pupils of the Sewall Primary School held December 6, 1910:

Mouths rated in good condition.....	12	11%
Mouths rated in fair condition.....	34	31%
Mouths rated in poor condition.....	63	58%
	<hr/>	<hr/>
	109	100

This examination shows an increase in number of mouths rated in good condition of 1%, but also an increase of 16% in mouths rated in poor condition as compared with the first examination held February 1st, 1908. On the whole the second examination shows a less favorable condition than the first.

Second examination of the teeth of the pupils of the Parsons Primary School, December 15th, 1910:

Mouths rated in good condition.....	12	12%
Mouths rated in fair condition.....	31	31%
Mouths rated in poor condition.....	57	57%
	<hr/>	<hr/>
	100	100

This examination shows an increase in number of mouths rated in good condition of 5%, and a decrease in number of mouths rated in poor condition of 5% as compared with the first examination of this school made December 19th, 1907.

Second examination of the Winthrop Primary School held December 20th, 1910:

Mouths rated in good condition.....	21	19%
Mouths rated in fair condition.....	65	58%
Mouths rated in poor condition.....	26	23%
	<hr/>	<hr/>
	112	100

This examination shows an increase in the number of mouths rated in good condition of 12%, and a decrease in number of mouths rated in poor condition of 30% as compared with the first examination held Jan. 28th, 1907.

The examination of the teeth is beneficial mainly because it gives an opportunity to teach preventive dental hygiene, and to urge the

treatment of existing dental diseases. It is of the utmost importance that teachers follow up the notices sent to parents in regard to their children's teeth, and as far as possible make sure that the recommendations are carried out.

During the past year 174 children have been taken by Miss Lewis, the school nurse, to the Harvard Dental School for treatment. Her work has been of the greatest value in caring for the teeth of the poor.

The dental examiners for the past year have been Drs. D. F. Spinney, F. B. Hicks, E. N. Kent, J. J. Riley. Their service has been very carefully and efficiently performed. As a result of the work done in the Brookline schools for improving the condition of the teeth much interest has been aroused in other towns and cities in the carrying on of a similar work.

Respectfully submitted,

WILLIAM H. POTTER.

Miss Lewis.

The work of establishing a nursing system, for the purpose of supplementing medical inspection, was begun with the opening of the winter term, January 4, 1909. A plan for the daily visiting of schools, homes, or dispensaries was worked out, and has been followed as closely as possible. The morning hours have been spent in the schools giving minor treatments or instructions to pupils as recommended by the visiting physician, or assisting in the examinations made for detecting pediculosis. Assistance has also been given to the dentists and throat specialists in the series of examinations made by them. The latter part of the day has been devoted to the visiting of homes. Upon regular days set apart for the purpose, children whose parents could not meet the expense of treatment by a family physician or dentist, have been accompanied to dispensaries and infirmaries providing such treatment at a nominal cost.

The home visiting has been confined chiefly to the tenement districts and has disclosed the usual conditions found in such sections. Many homes present a state of want and suffering due entirely to shiftlessness and intemperance; and, in an unusually large number of cases, a widowed mother struggles early and late in order to provide the mere necessities for her children. In other instances the small earnings of a laborer, which under ordinary circumstances have kept his family from actual want, prove to be entirely insufficient support when illness makes its appearance.

In beginning my visiting among these people, and finding them very distrustful of the motives which prompted my call, I deemed it my first duty to create confidence in the work. A large number of

purely social calls have been made; I have also attended mothers' meetings and given to those present a general plan of the work, explaining to them its object, and trying to impress upon their minds the benefits to be derived from more careful attention to the health, habits and general welfare of their children. It has been very gratifying to note a steadily increasing willingness on the part of the parents to interest themselves in these matters.

There has been comparatively little difficulty in establishing interest in dental repair work. The benefits are so obvious, both to the parents who are glad to be released from sleepless nights spent in vain attempts to relieve toothache, and by the children, who greatly appreciate the marked improvement made in their appearance by clean wholesome mouths. Both the Harvard and the Tufts Dental Schools are most obliging in their efforts to meet the appeals made to them for treatment; but with the scores of children in need of this help only a small percentage can receive attention. There is most urgent need that steps be taken immediately to raise the funds necessary to secure a continuation of this work for needy Brookline children during the coming year.

In the cases where surgical treatment for adenoids and enlarged tonsils is indicated there is often considerable difficulty in arousing the parents to action. They naturally dread an operation, and in many instances a long series of calls is necessary before consent is gained. The operations, however, result very satisfactorily, and in most cases are followed by notable improvement in health and efficiency.

The purchase of eyeglasses is another problem which sometimes presents many obstacles. The cost usually imposes a hardship even at the reduced rates received at a dispensary; and a great deal of argument is often needed to convince parents that defects which do not seem evident in the home life of a child may be very apparent during school hours, and detract greatly from his power to gain success.

The treatment of pediculosis has consumed a great deal of time, and the situation is not yet entirely under control, but pride in personal cleanliness is slowly arising in the minds of parents and children, and by persistent effort this malady can be eradicated.

The advantages to be gained by an early bed hour and open windows in the sleeping room have been frequently explained to parents; also careful instructions have been repeatedly given concerning children's diet. An example of the benefits quickly derived from fresh air and wholesome food by children unaccustomed to healthful living conditions is well illustrated by a case which has been closely followed during the past year. A debilitated little girl, whose adenoids had been removed, showed no subsequent improvement in general health, so through an appeal to the Brookline Friendly Society a daily lunch was provided, and during the summer the child was cared for at the camp for pre-tubercular

children. As a result of this treatment, she returned to school in September showing a great gain in weight and strength. Similar cases which could be mentioned have each shown the same satisfactory improvement in general physical tone.

The following table gives a record of work accomplished during the years 1909-1910:

Number of visits to schools	859
Number of visits to homes	1,019
Number of visits to dispensaries	270
Number of eye glasses procured.....	49
Number of operations for adenoids and enlarged tonsils	48
Number of miscellaneous operations	5
Number of cases treated at dental infirmaries....	297
Number of dressings for relief of impetigo, discharging glands and septic wounds.....	285

I am greatly indebted to principals and teachers for the hearty support they have given this work, and to the charitable organizations both in Brookline and Boston for the ready response with which they have met all appeals made to them for aid.

Respectfully submitted,

IDA M. LEWIS,

School Nurse.

Tenure of Office of Teachers.

The Revised Laws of the Commonwealth provide that:

"The School Committee may elect a teacher who has served as such in the public schools of the city or town for not less than one year, to serve as such at the pleasure of the Committee."

Up to the year 1886, public school teachers in Massachusetts could not be legally appointed for a longer time than one year. Chapter 313, Acts of 1886, entitled An Act relating to the tenure of office of teachers, reads as follows:

Section 1. The School Committee of any city or town may elect any duly qualified person to serve as a teacher in the public schools of such city or town during the pleasure of such Committee: *provided*, such person has served as a teacher in the public schools of such city or town for a period of not less than one year.

The paragraph cited from the Revised Laws is the Act of 1886, slightly modified in form through subsequent codification of the statutes. While the school year 1909-'10 in Brookline comprised few events which call for mention in this report, failure to record so radical a change as this in the matter of appointments would constitute a serious omission. It will be observed that the Legislature names but one condition as necessary to appoint for service during the pleasure of the Committee, viz: that previous service should cover at least one year. It is left to local Committees to formulate such additional conditions as they deem proper. In the exercise of such discretion this Board has so amended its rules as to make two years of service and the concurrent recommendation of the Committee on teachers and the superintendent of schools prerequisites for appointments on tenure. At the Board meeting of May, 1910, acting in accordance with revised rules, 30 teachers were appointed for terms of one year, and 122 for service during the pleasure of the Committee. Twenty-four years having elapsed between the enactment of the permissive legislation cited above, and the local appointment of teachers in accordance with it, the School Committee of Brookline can scarcely be charged with precipitate action. During these years I am confident that no deserving teacher has failed of reappointment. Amid such conditions as have obtained in Brookline, and for a continuance of which we should devoutly pray, teachers stand in little need of protection. As tending to dignify the office of the teacher in public esteem, however, and as a mark of appreciation, richly deserved by teachers of the right sort, we have just ground for a feeling of satisfaction over this departure from the old-time practice of yearly appointments.

Patriots' Day, 1910.

My report of last year reproduced the program in accordance with which, on Feb. 11, 1909, by deeply impressive exercises in the Town Hall, the centenary of Lincoln's birth was celebrated. On April 18, 1910, pupils of the high school and of the upper grammar classes assembled in the Town Hall at noon, and in exercises nearly or quite as impressive as those of the Lincoln centenary, celebrated the recurrence of Patriot's

Day. The address was delivered by the Hon. Alfred S. Roe of Worcester, and for this very important item in the exercises of the day, we were indebted to the Lecture Committee of the Brookline Education Society. Such assemblies as these not only commemorate in a fitting manner the event associated with the day, but they serve another important purpose. Every thoughtful observer of our community life must be conscious that with the growth of the town it will be a difficult task to preserve its unity. Whenever a fitting occasion for gathering school children from different sections presents itself, the opportunity should not be lost. Primarily, of course, they ought to be interested in and loyal to their respective schools, but such interest and loyalty should so extend itself as to embrace other schools and finally to culminate in a fine sense of obligation to the town as a whole. The program for the observance of Patriot's Day was an attractive booklet, which pupils will doubtless preserve as a souvenir of their school days. As far as circumstances admit of reproduction here, such program was as follows:

Brookline Public Schools
Patriots' Day, 1910

"By the rude bridge that arched the flood,
Their flag to April's breeze unfurled,
Here once the embattled farmers stood,
And fired the shot heard round the world."

Town Hall, Brookline, Monday, April Eighteenth
at 12 M. o'clock

"For, borne on the night-wind of the Past,
Through all our history, to the last,
In the hour of darkness and peril and need,
The people will waken and listen to hear
The hurrying hoof-beats of that steed,
And the midnight message of Paul Revere."

VII.		40	33	30	45 } 46 }				45 } 43 }	34		
VIII.		34	28	32	38 } 39 }				40 } 43 }	37		
IX.		36	21	32	29 } 30 }				40 } 38 }	41		

A table similar to the above appeared in preceding reports. Its purpose is to give prominence to an advantage enjoyed by the local public, because of the small number of pupils assigned to each teacher. We have here figures relating to eighty-two primary and grammar rooms and showing the enrolment in each at the end of the second month of the school year, when attendance is at or very near the maximum. In only six instances does the enrolment exceed forty-five.

Evening Schools.

For the winter of 1909-10, the term of evening instruction extended from Monday, October 18th, 1909, to Friday, April 1st, 1910. Two of the classes met on 66 nights, and two on 42 nights.

LINCOLN BUILDING. CLASSES FOR BOYS AND MEN. 1909-10.

English branches	42 nights, average attendance 21
Carpentry	42 nights, average attendance 13

PIERCE BUILDING. CLASSES FOR GIRLS AND WOMEN.

English branches	66 nights, average attendance 36
Stenography and typewriting*.....	66 nights, average attendance 15

For the present season, between Monday, October 17, 1910, and Friday, December 23, 1910, twenty-nine evenings were available, and the following statement shows how they were utilized:

LINCOLN BUILDING. CLASSES FOR BOYS AND MEN. 1910.

English branches	29 nights, average attendance 20
Carpentry	29 nights, average attendance 11

PIERCE BUILDING. CLASSES FOR GIRLS AND WOMEN.

English branches	29 nights, average attendance 52
Stenography and typewriting*.....	29 nights, average attendance 16

Age Conditions in Grade IX.

In each of four grammar schools, viz.: Devotion, Heath, Lawrence and Runkle, one ninth grade may be found, while

* Instruction in typewriting and stenography was also given to sundry students whose attendance is reported in preceding line.

at the Lincoln and at the Pierce are two such classes. The present aggregate membership of these classes is 258. A study of the ages of these pupils, reckoned to the end of June, 1911, provides the data which appears in the following table. The conditions revealed are quite similar to those which obtained one year ago, and seem to call for no other comments than those which appear in my last report.

	Whole number belonging to Grade IX.	Between 12 and 13.	Between 13 and 14	Between 14 and 15.	Between 15 and 16.	Between 16 and 17.	Between 17 and 18.	Between 18 and 19.
School A	30	0	2	7	13	3	5	0
B	27	0	0	10	13	3	1	0
C	29	2	5	14	6	1	1	0
D	64	0	5	13	28	14	2	2
E	66	6	21	22	16	1	0	0
F	42	1	1	18	13	5	3	1
	258	9	34	84	89	27	12	3
		or 3%	or 13%	or 33%	or 34%	or 11%	or 5%	or 1%

This constitutes the tenth in a series of tables relating to the ten classes which will have graduated from the grammar schools in the years 1902-1911 inclusive. The facts disclosed by these tables may be summarized as follows:

	Total Membership.	Percentage between 12 and 13.	Percentage between 13 and 14.	Percentage between 14 and 15.	Percentage between 15 and 16.	Percentage between 16 and 17.	Percentage between 17 and 18.	Percentage between 18 and 19.	Percentage between 19 and 20.	Percentage over 16 years of age.
1902	183	1	13	31	33	15	6	1		22
1903	192	1	7	31	38	18	3	1	1	23

In Memoriam

Sarah E. Bruce

A Devoted Teacher in the
Lawrence School

1891-1910

Vacation Schools and School Gardens.

On Wednesday, July 6, 1910, vacation schools were opened for the season, older pupils assembling at the Lincoln building, and younger pupils at the Sewall and Winthrop. These schools were in session through Tuesday, August 16, a period of six weeks. In submitting his report of attendance, Mr. Frederick O. Smith, the director, makes the following remarks:

A visit to either the Lincoln, Sewall or Winthrop school buildings, during the vacation period, will assure one that the vacation school is meeting and successfully filling a great need. For here we see our "little stay-at-home" with their unlimited amount of energy being properly guided into channels or organized play or some form of useful activity, making their spare hours both pleasing and profitable.

The wide range of ages causes our work to represent many features, from the kindergarten games to the next stage where picture pasting, paper folding and the putting together of travel books occupies the attention. Then we come to the constructive age, where many very attractive and useful things are made, while in completing these courses of occupation the work takes the form of hammock making, wood work, basketry and chair seating.

Owing to the mention of results in the several separate lines of work in previous reports, I will, therefore, simply mention that a plan for helping some of the most worthy pupils was in mind during the past summer, and we were most agreeably surprised at a request from a citizen to let a pupil undertake some work which was along one of our lines, thus giving the pupil a motive and incentive for good honest work with definite value.

From observation in this particular case, let me say that visible signs of manhood developed in proportion to good workmanship. Let this tend to make us look at this side of vacation work in the broadest way.

Our attendance for the past summer is to be found in the tables given below, being shown both collectively and individually by buildings. In comparison with the previous year we find a slight decrease, but that is due in the greater part to our adhering more strictly to the exclusion of younger pupils from the Lincoln building, with the thought of enrolling them in either of the other two buildings where the work was better adapted to them.

ATTENDANCE ON VACATION SCHOOL.

During the summer of 1910 school gardens were maintained in connection with the Heath, Lawrence, Lincoln, Pierce, Runkle, Sewall and Winthrop. At the Lincoln, Sewall and Winthrop the work was in charge of Miss Isabelle S. Cragin, whose term of service extended from May 1st to October 1st. Of this work Miss Cragin writes as follows:

The methods and results of school gardening in 1910 were, in

the main, similar to those of 1909. From the start, with the spring term in April, every effort was made to complete the planting at an early date, in order that the children who did the work might gather a part of the harvest before the close of the school, when many of the gardens change owners. But we have never yet been able to finish planting as early as is desirable, because of the time consumed in the preliminary work of planning, measuring and staking out the plots. In the Sewall garden, for example, eight lines, 150 feet long, must be run, crossed by about forty others 50 feet long, and the crossings marked by stakes firmly driven. The lines and the rows of stakes must be as nearly straight as it is possible to make them, and this in a piece of ground, no two sides of which are equal in length. In the Lincoln the problem is complicated by the necessity of avoiding five trees and four ledgy outcrops, and by the stony character of the soil which makes it next to impossible to drive a stake just where it should be driven. To measure approximately 250 plots and drive 1,000 stakes, assisted by the mathematical skill and muscular strength of a second, third or even fifth grade boy, requires time. This is not by way of complaint, but of explanation.

Planting was also delayed by the unusual number of rainy days. However, we gathered the first string beans about the middle of July, the first scattering ears of sweet corn August 8, carrots and beets three days later, and flowers in great variety and quantity from early in July until October. We also planted for succession beans, beets, radish and lettuce, and sowed turnip seed in every vacant spot up to the end of August. These did not all mature, but they helped to keep the weeds out.

One important feature of the year's work in the Lincoln garden was a series of prizes offered by a member of the School Committee. These were nine in number, a first, second and third for each of the three fifth grades, and were given for attendance, conduct and general excellence of the individual garden. The prizes, equal in value, were chosen by the winners in the order of their deserving from a given list, which comprised a football, a camera, a watch, a baseball outfit, a pair of skates and hockey stick, and a set of garden tools. The winners were: First prize, George Bain, Charles Davey, Fred Watterson; second, Christine Corbett, Sarah Donnellon, John Fitzgerald; third, Fred Beake, Joseph Hughes, Stephen Nolan. The offer of these prizes had a manifest influence on the summer attendance, and will, no doubt, affect the work of the coming season.

A simple device was adopted last year to meet those cases in which the teacher might fail to remember some one of her numerous charges. Each owner of a garden was given a circular cardboard tag of the color assigned to his class at the opening of the season. It bore on either side the name of his school and his class number. This tag was a passport, worn whenever the child came

to work. Without it he could not enter the garden. If he were absent and sent a substitute the tag was the substitute's credential. A crowd of boys and girls, each decorated with a two and one-half inch tag of red, blue or yellow, waiting outside the garden gate for the hour of entrance, made a moving picture of considerable interest to passers-by. The plan worked well and was a distinct help in the matter of order.

Discipline in the garden has never been a serious problem. The D. and O. Club (Down and Out) instituted for the reception of persistently idle or unruly gardeners, consisted last season of three members. There was one marked instance of trouble at the Winthrop. On or about August 14 the garden was entered, nearly every stake broken or carried away, the number stakes driven down in the wrong places, a fine border of sunflowers destroyed and other crops pulled up and flung about. It was a piece of deliberate and wanton mischief, and the garden was almost ruined. It would hardly be possible to express the feelings of the gardeners or their teacher on this sad occasion, or to appreciate the difficulty of inspiring the children with courage to make a practically new start. They were summer pupils, harder to deal with than the regular classes, and the vacation school was just closing. But we did what we could, and the flowers and the remaining green things grew and covered the scars, so that the garden later presented a fairly respectable appearance, but the harvest was woefully lacking. The perpetrators of this mischief were small boys, some of them ex-gardeners, no longer Winthrop pupils.

Aside from this instance the work went on through the season without serious hindrance and with good returns.

It is to be regretted that the gardens, especially the Lincoln, should remain during the winter in so untidy a condition. Under present regulations the garden work must end October 1. If at that time there has not been a severe frost the flowers are left as material for school work. The two weeks after the opening of the fall term are not long enough to clear off the other crops, to pull up and store the stakes, to make inventories of tools and supplies which will facilitate the next spring's work, and to renovate the window boxes in the school rooms, especially with the help possible from the pupils; for the gardeners have been scattered among different classes, the teachers of which are reluctant to spare them from the opening work of the school year. Therefore, since all the things that may be desirable can not be compassed before October 1, the cleaning up of the garden is often crowded out.

Each year's experience teaches new lessons. This is true of 1910. Several devices for economizing time and attaining larger results are in train for 1911. The hope is to make every season better in some way or degree than the last.

It would be a great help to teacher and pupils if the general pub-

lic would make closer acquaintance with the school gardens. These may not be beautiful in themselves, but they are beautiful and dear to the children who have made them what they are. The sympathetic interest of parents and others, already shown in many ways, would, if more frequently manifested, offer the sure solution of various present problems.

Respectfully submitted,

ISABELLE S. CRAGIN,

Director of School Gardens.

The High School.

For obvious reasons, its responsibility for the welfare of this school must always occupy a prominent place among the many and varied responsibilities of the Board. Certain of these reasons are of a material nature. In buildings and equipment the town has permanently invested a large amount of money. For the ordinary expenses of maintenance, a large annual outlay is necessary, and hence unavoidable. From this business or economic standpoint, the Board is charged with the heavy responsibility of so discharging its trust that these large investments be made to yield an adequate return. Other reasons are of a different nature. In common with other high schools, our own is attended by pupils in their later "teens." They are in the effervescent or yeasty period of their lives—a time full of great possibilities of good, but full, also, of perils. In the judicious management of youth at this critical period of their careers, the Board is also responsible. This second form of responsibility can be exercised directly by the Board to only a limited extent. In spite of limitations, however, it is of tremendous consequence and the welfare of the schools will be determined ultimately by the wisdom with which the Board discharges the obligations which are peculiarly its own. In general, the Board can insist on scrupulous care in the selection of teachers, can surround these teachers with conditions which permit the largest measure of efficiency, and finally, with an intelligent appreciation of the inherent difficulties of their tasks, can give them loyal and thorough-going support. What the Board can do in its official capacity practically ends here. For the actual administration of the school, it must depend on the teaching staff which it has

chosen. While holding teachers strictly responsible for wisdom and efficiency in the discharge of their duties, it will cheerfully grant them a like measure of authority. The remarkable development of high schools during the past eighty years is one of the most prominent features of American educational policy. During these years the high schools of the country have steadily become more democratic in character and have taken great strides in their efforts to meet the needs of all classes of pupils. All this is praiseworthy, for the high school, no less than the elementary, is the people's school. This does not imply, however, that everybody, regardless of qualifications, should be admitted to the school, or once admitted should be allowed to remain whether or no he meets its reasonable requirements. Very likely it is true that there was a time when admission to high schools was unduly restricted. Just as we have come to see that the Sabbath was made for mankind, not mankind for the Sabbath, so we realize that schools of all kinds are made for children, not children for the schools. We do not, however, admit two-year-old babes to the kindergarten, because the kindergarten is not designed for or suited to them. At an earlier time, because of undue regard for system, doubtless the rights or at least the welfare of the individual was sacrificed. At present evidence is not lacking that we are likely to err in the opposite direction. A school is a working organism created and maintained for the production of certain definite results. We may, and should, pay the largest measure of regard to the tastes, convenience and preferences of the individual, but we are bound by every consideration to preserve the efficiency of the school as such an organism. I believe it to be true today that entrance to our own school is open to every pupil really qualified to profit by attendance upon it, and that once a member of the school, barring illness or other misfortune, any pupil who is willing to pay the price of faithful endeavor can maintain his connection with the school. The successful government of a high school—particularly of the urban and suburban high school—is an undertaking which calls for the exercise of very high qualities. Lord Palmerston was accustomed to say that "it was the right of every man, woman and child

in England to be well governed." So we may say that it is the right of every boy and girl to be well governed. To supply such good government in elementary schools is not devoid of difficulty, while in the high school the task demands peculiarly high qualities of firmness, sympathy, insight and enthusiasm. Teachers who were never young and consequently foolish, or if once so have completely forgotten both youth and foolishness, will have small success with high school pupils. With the clear vision of the adult, must go a perception of the youth's limitations and of his point of view. The good government of which I speak is not chiefly repressive in character. It spares no effort to develop in the young capacity for self government, and indeed gauges its success by the degree in which it invokes such capacity. Complete ability to govern oneself comes only with mature years, if indeed it comes then. It should not be expected of those yet in the state of pupilage. Children and youth rejoice in control which they recognize as just, steady and kindly, even though it demands conformity with high standards and must at times be rigorous. In the last analysis, government implies the possession, and when called for, the exercise of authority. To the extent that either element is lacking, anarchy exists in place of government. We have just right to satisfaction in the fact that we have a half thousand youth who are enjoying their rights. This world presents few finer sights than that afforded by the company of eager, intelligent, ingenuous youth to be found in such a high school as our own. The school stands in need of one thing which the community, particularly the parents of pupils in attendance, might easily supply and which it would supply if it lived up to its obligations. I refer to the need of much more frequent, familiar and informal visitation. I am told that boys and girls have been known to indicate at home that visits to the school are not desired. It is remotely possible that pupils so doing are misinformed, but much more probable that they act from quite another motive. Especially is it desirable that men should find their way to the school. Half the pupils are of their own sex and need the stimulus which would be derived from the intelligent

and sympathetic observation of their elders. To this paragraph I append the usual statistical information.

Whole number belonging, December 23, 1910.....	561
Whole number enrolled for school year, June, 1910.....	555
Whole number enrolled for school year, December 23, 1910..	593
Average attendance for year ending June, 1909.....	502
Average attendance for year ending June, 1910.....	485
Number of boys belonging to school, January 1, 1910.....	262
Number of girls belonging to school, January 1, 1910.....	262-524
Number of boys belonging to school, December 23, 1910.....	278
Number of girls belonging to school, December 23, 1910.....	283-561
Number in each class: Class I, 81; Class II, 116; Class III, 154; Class IV, 210.	
Number of special students.....	0
Number of post-graduates.....	8
Number of pupils enrolled in classical course	19
Number of pupils enrolled in sub-classical course.....	178
Number of pupils enrolled in technical course.....	116
Number of pupils enrolled in general course	104
Number of pupils enrolled in commercial course.....	136

The graduating exercises were held on the evening of June 25th, 1910. The graduating class numbered 71, of which 44 were girls, and 27 were boys. The address was given by William Marshall Warren, Dean of Boston University. Of the graduates 21 entered higher institutions, distributed as follows: Harvard, 3; Princeton, 1; Cornell, 1; Technology, 2; Amherst Agricultural, 1; Michigan College of Mines, 1; Smith, 4; Wellesley, 3; Vassar, 2; Boston University, 1; Normal School, 1; Pratt Institute, 1.

The first payroll of the school year 1909-1910 contained the names of 158 instructors, and upon the last payroll for the year may be found 153 of the same names. In the course of the year two teachers resigned in order to be married, and two accepted positions elsewhere. On January 21, 1910, as she was returning from school to her home, occurred the sudden death of Miss Sarah E. Bruce, who had been a devoted teacher in the Lawrence School since 1891. During these years Miss Bruce had endeared herself to all with whom she came in contact and it is gratifying to know that sorrowing and apprecia-

tive friends have provided means for placing a suitable memorial in the building where during nearly twenty years Miss Bruce presented a constant example of gracious womanhood.

The end of the school year 1909-10 marked the completion of another notable term of service. Miss Anna M. Johnson was appointed to the Brookline High School in December, 1884, and during twenty-five succeeding years was never absent from the post of duty. Granted leave of absence for the last half of the school year, her connection with the school was terminated by resignation in June, 1910. It is well for us to reflect upon the significance of such service as this incident illustrates. How blind to all its deeper aspects is the person who sees only the performance of certain prescribed duties and the payment therefor of certain sums of money—perchance with a feeling that the community by such payments has quite cancelled its obligations.

In Goldwin Smith's *Reminiscences* appears this tribute to his old-time tutor at Eton, Edward Coleridge.

"A deep scholar he was not, but he was a maker of scholars. He inspired where he could not instruct. He loved his pupil-room and gave himself with his whole heart to its service. His pupils requited his affection, and to have been in my tutor's room has always been among them a cherished memory and a bond."

"*Mutalis mutandis.*" Just this sort of thing is going on in our schools today, but how inadequate is public appreciation of it.

While the value of the service rendered by a true teacher cannot be expressed in dollars and cents, it is at least possible for a community and especially so for a community as opulent as our own, to show its appreciation by the payment of liberal salaries. Something has been done in recent years toward a more adequate compensation of our teaching staff, and I hope that these recent revisions of the schedule of salaries are but the precursor of still other changes. Some time ago, I called the

attention of the Board to the extent and the variety of teachers' activities—quite generally outside the letter of their obligations and as generally carried on outside of school hours. Only they who are cognizant of these activities can have any adequate conception of the contribution which teachers now among us are making to the present, or to the future, and I do not hesitate to say to the eternal welfare of the boys and girls now in their care.

GEORGE I. ALDRICH.

Superintendent of Schools.

REPORT OF TRUANT OFFICER.

January 2, 1911.

*Mr. George I. Aldrich,
Supt. of Schools,
Brookline, Mass.*

Dear Sir,—I herewith submit my annual report for the year ending December 31, 1910.

No. of cases of absence investigated.....	919
No. found to be truants.....	31
No. of cases of truancy.....	98
No. sent to Training School.....	2
No. placed on probation.....	2
No. released from Training School.....	5
No. transferred to Lyman School from Training School.....	1
No. now at Training School.....	5
Cost of support of truants.....	\$438 05
No. of certificates of literacy issued.....	83
No. of employment certificates issued.....	36

Two hundred ninety-three workshops and mercantile establishments have been inspected and several violations of the employment laws discovered and corrected.

In addition to my duties as Truant Officer I have investigated cases of contagious disease as follows:—

Chicken pox	3
Diphtheria	33
Infantile paralysis	1
Measles	134
Scarlet fever	60
Typhoid fever	10
Tuberculosis	6
Whooping cough	2

Respectfully submitted,

JAMES G. THOMPSON,

Truant Officer.

REPORTS

OF THE

TREASURER AND COLLECTOR

For the Year Ending December 31, 1910

SYNOPSIS

Treasury Balance from previous year \$203,962.43

RECEIPTS:

From Temporary Loans..	\$600,000.00	
All other sources.....	1,904,655.98	
	2,504,655.98	
		\$2,708,618.41

PAYMENTS:

Temporary Loans	\$600,000.00	
All other disbursements...	2,018,098.23	
	2,618,098.23	

Cash on Hand \$90,520.18

Entire Debt (including \$312,838.00 for Water
and \$40,000.00 for Separation of
Sewers and Surface Water Drains.... \$1,538,768.00

Assessed Value of Real Estate.....\$67,663,000.00

Assessed Value of Personal Property..... 40,971,000.00

Total Valuation\$108,634,000.00

Total appropriations to be provided for.... \$1,759,943.71

Tax Levy 1,372,897.00

Tax Rate \$12.50 per \$1,000.00

Population by the U. S. Census, 1910..... 27,792

Polls Assessed 7,486

Registered Voters 4,826

There was a decrease of \$20,101.00 in the debt.

There was an increase of \$4,047,900 in the Tax valuation.

The debt is \$2,073,090.00 below the statutory limit.

There are no unpaid taxes on Real Estate prior to Nov.

1, 1910.

General Summary of the Operations of the Town Treasury for the year ending December 31, 1910.

Cash balance from previous year:

Special appropriations unexpended—			
Borrowed	\$129,616	47	
Less advanced on land for Public Play- grounds and Drain, Saw Mill Brook Valley	7,733	17	
			\$121,883 30
From Tax Levy			17,167 42
General Fund unappropriated....	64,911	71	\$203,962 43
			<u>\$203,962 43</u>

Temporary Loans:

Anticipation of Taxes	\$600,000 00
	<u><u> </u></u>

RECEIPTS.

1. Borrowed. Funded Debt		\$180,880 00
Public Library	\$115,900 00	
Land for Public Playgrounds	64,980 00

\$600,000. In Anticipation of Taxes.

180,880. On Serial Registered Bonds, as follows:—

Anticipation of Taxes \$600,000 00

Voted, That the Town Treasurer is hereby authorized, when so directed by the Selectmen, to borrow from time to time a sum or sums in the aggregate amounting to six hundred thousand dollars in anticipation of the taxes of the present municipal year. Notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, payable within one year from the time the loan is made, with interest thereon at a rate not exceeding six per cent. per annum. Such notes shall not be obligatory without the authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen endorsed thereon. Any debt incurred by the town under this vote shall be paid from the taxes of the present municipal year.

Availed of as follows:

April 2, 1910,	of the First National Bank, Boston, payable November 1, 1910, discounted at 4% per annum	\$100,000 00
	Cost, \$2,166.67.	
June 16, 1910,	of the First National Bank, Boston, payable November 1, 1910, discounted at 3-95/100% per annum	100,000 00
	Cost, \$1,514.16.

	Cost, \$1,371.53.	

July 21, 1910, of the First National Bank, Boston, payable November 5-7, 1910, discounted at 4% per annum	100,000 00
Cost, \$1,211.11.	
August 16, 1910, of the First National Bank, Boston, payable November 3, 1910, discounted at 3-3/4% per annum	100,000 00
Cost, \$822.92.	
Sept. 15, 1910, of the First National Bank, Boston, payable November 10, 1910, discounted at 4% per annum	100,000 00
Cost, \$622.22.	
Total	\$600,000 00
Total cost, \$7,708.61.	

For New Public Library \$244,000 00

At the special town meeting, October 29, 1908, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen to borrow two hundred and forty-four thousand dollars (\$244,000.00) appropriated at this meeting for the erection of a public library building. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1st, 1909, and shall be made payable in such annual proportionate payments as will extinguish the same in twenty years from their date.

December 13, 1909, \$115,900 was received from Estabrook & Co. on one hundred fourteen (114) Registered Bonds of \$1,000 each and nineteen (19) of \$100 each, numbered P. L. 8-140. They are dated January 1, 1909, and mature \$6,100 each year, January 1, 1911, to 1929. They bear 3½% per annum interest, payable semi-annually, and were negotiated at par and accrued interest.

May 13th, 1910, \$115,900 was received from Estabrook & Co. on nineteen (19) Registered Bonds of \$6,100 each, numbered P. L. 142-160 inclusive. They are dated January 1, 1909, and mature \$6,100 each year, January 1, 1911, to 1929. They bear 3-80/100% per annum interest, payable semi-annually, and were negotiated at par and accrued interest.

For Purchasing Playgrounds \$68,400.00

At the adjourned meeting March 30, 1909, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow sixty-eight thousand, four hundred dollars (\$68,400.00), appropriated at this meeting for the purchase of land for public playgrounds. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1st, 1909, and shall be made payable in such annual proportionate payments as will extinguish the same in twenty years from their date.

January 28th, 1910, \$64,980.00 was borrowed of the Provident Institution for Savings, Boston, on nineteen (19) Bonds of the denomination of \$3,420, numbered M. 113 to M. 131 each, dated January 1st, 1909, payable one each January 1st, 1911, to January 1st, 1929, and bearing 3-45/100% per annum interest, payable semi-annually.

For the Purchase of Land on Westbourne Terrace and

Bartlett Crescent for School Purposes \$20,000 00

At the adjourned meeting March 16th, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow twenty thousand dollars (\$20,000.00) appropriated at this town meeting, to purchase land on Westbourne terrace and Bartlett Crescent for school purposes. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in twenty years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has yet been borrowed under this vote.

There has been expended all the amount authorized.

For Paving of Beacon and Harvard Streets at Coolidge

Corner \$30,000 00

At the adjourned meeting March 16th, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow thirty thousand dollars (\$30,000.00) appropriated at this town meeting, for paving Beacon street and Harvard street at and near their intersection at Coolidge Corner. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has been borrowed under this vote.

There has been expended under the authority \$29,981.06.

For the Cost of Construction of Highways and for Land

Damages in Connection Therewith \$55,000 00

At the special town meeting June 1st, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow fifty-five thousand dollars (\$55,000.00) appropriated at this town meeting to pay for the cost of construction of the highways laid out, altered or widened by the Selectmen and accepted by the town at this town meeting and for land damages in connection therewith. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in ten years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has been borrowed under this vote.

There has been expended \$27,999.21.

For a Primary School Building on Westbourne Terrace \$75,000 00

At the special town meeting June 1st, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow seventy-five thousand dollars (\$75,000.00) appropriated at this town meeting for the erection of an eight-room primary school building on land owned by the town on Westbourne terrace. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually, at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in fifteen years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has been borrowed under this vote.

There has been expended \$20,878.55.

For Purchasing Land for School Purposes on Westbourne Terrace \$18,000 00

At the special town meeting June 1st, 1910, it was—

Voted, That the Town Treasurer be authorized, when so directed by the Selectmen, to borrow eighteen thousand dollars (\$18,000.00) appropriated at this town meeting to purchase a lot of land for school purposes, between Westbourne terrace, a private way, and land now owned by the town. Bonds or notes shall be issued therefor, signed by the Treasurer and countersigned by a majority at least of the Selectmen, with interest payable semi-annually, at a rate not exceeding four per centum per annum. Such bonds or notes shall be dated January 1, 1910, and shall be made payable in such annual proportionate payments as will extinguish the same in nine years from their date. Such bonds or notes shall not be obligatory unless there is endorsed thereon an authenticating certificate of a Trust Company or of a National Bank to be designated by the Selectmen.

Nothing has been borrowed under this vote and the whole amount has been expended.

(E. & O. E.)

BROOKLINE, January 17, 1911.

GEORGE H. WORTHLEY,

Treasurer and Collector.

REPORT OF THE AUDITORS.

For the financial year ending December 31, 1910, the undersigned have examined the accounts of George H. Worthley, Treasurer of the Town of Brookline, of the Warren Tree Fund, of the Brookline Cemetery, of the Walnut Hills Cemetery, and of the William H. Lincoln School Fund, and report that they have been found correct with proper vouchers and warrants, together with the investment securities.

They have also examined his accounts as Collector and find them as reported to the Town.

PAUL M. HUBBARD,
FRANCIS W. MULDOWNEY,
CHARLES F. READ,

Auditors.

January 17, 1911.

REPORT OF THE TOWN ACCOUNTANT.

January 16, 1911.

To the Honorable Board of Selectmen:—

Gentlemen:—In compliance with Article X, Section 6, of the Town By-Laws, I herewith submit the thirteenth annual report of the Accounting Department.

TREASURY RECEIPTS.

Total receipts as shown by the Treasurer's books for the fiscal year ending December 31, 1910.....\$2,504,655 98

1. Temporary Loans.

Amounts borrowed in anticipation of taxes and repaid during the year. (No account of the payment of this amount will be made in the expenditures) \$600,000 00

2. Reimbursements.

For materials furnished and services rendered, payments for which may properly be credited to the several appropriations against which the outlays were charged:

Accrued interest	\$1,764 32	
New Covered Reservoir....	1,331 25	
Soldiers' Relief	1,223 00	
		<u>4,318 57</u>
		<u><u>\$604,318 57</u></u>

The items above named and numbered 1 and 2 amounting to \$604,318.57 deducted from \$2,504,655.98, the receipts as shown, will leave the net receipts for the year amounting to\$1,900,337 41

Balance on hand at the beginning of the year 1910.... 203,962 43

Total income from which expenditures of 1910 were made\$2,104,299 84

During the town's financial year ending December 31, 1910, I have examined the accounts of George H. Worthley, the Treasurer, at the close of each month's business, and have found them to be correct, with the balances, cash on hand and in bank, as entered in his books. I have examined and checked all the notes and bonds paid during the year and found them properly cancelled.

I have also verified his accounts as Collector,—the taxes collected and uncollected, and in connection with the latter, those abated by the Assessors. The Receipts from Water Rates I have compared with the books of the Water Department and find everything as recorded on the Collector's books. I have compared the Sewer Assessments reported collected with the original entries made by the Town Engineer, and find the amounts to be correct.

His accounts as Treasurer of the Trustees of the Walnut Hills and Brookline Cemeteries, of the Wm. H. Lincoln School Fund, and of the Warren Tree Fund have been examined from time to time, and all are found to be as reported by him.

The accounts of Henry W. Lamb, Treasurer of the Trustees of the Public Library, were examined at the close of the year and found to be correct, with all the securities registered in the name of the Trustees of the Public Library.

I have examined the accounts of the Librarian of the Public Library and of the Superintendent of the Gymnasium and Baths and find them to agree with the books of the Treasurer.

A statement giving the estimated value of town property and a classified statement of the maturing funded debt are appended.

Respectfully submitted,

ALBERT P. BRIGGS,

Accountant.

TOWN OF BROOKLINE ASSESSORS' DEPARTMENT

ANNUAL REPORT
OF THE
BOARD OF ASSESSORS
OF
BROOKLINE
MASSACHUSETTS
FOR THE YEAR 1910

BOSTON
PRESS OF E. L. GRIMES CO., 122 PEARL STREET

1911

REPORT OF THE ASSESSORS

December 30, 1910.

The Assessors of the town of Brookline hereby submit the following report for the year 1910.

The members of the Board were the same as in 1909, viz.: Charles H. Stearns, Charles A. Bowditch and David J. Daley.

The Board organized with the choice of Charles H. Stearns as chairman, and David W. Creelman was appointed chief clerk.

The same division of districts was made as in the preceding year.

The Assessors commenced their work April 1st, instead of May 1st, as had been the legal date for many years; this gave them more time to prepare the tax warrant.

They regret the large increase in the tax rate, from \$10.50 to \$12.50 on the thousand. This was rendered necessary for several reasons, viz.: the increase in the town appropriations (\$161,741.41): the increase in the State tax (\$25,365.00): and the considerable decrease in receipts from corporation taxes. Until the year 1909, the taxes on Massachusetts corporations, and which are paid to the tax commissioner, had been distributed to the cities and towns where the holders of these stocks resided; in 1909 the law was changed so that one-half of the taxes on mercantile and manufacturing stocks were paid to the cities and towns where these corporations are located; and in 1910 the law was again changed, so that the whole of these taxes are so paid. As the consequence, Brookline has lost \$95,700 the past two years; in 1910, about \$60,000.

The increase in personal property this year over last is \$3,115,400.

The increase in real estate is \$932,500, this being entirely from new buildings, there being an actual decrease in land values of over \$400,000.

There has been an increase of polls of 303.

An appropriation of \$10,200 is recommended for the expenses of this office for the next fiscal year.

Respectfully,

CHARLES H. STEARNS,
CHARLES A. BOWDITCH,
DANIEL J. DALEY,

Assessors of Brookline.
